Under the Guidance of Vipulendra Tripathi Sir

Geography: Atmosphere, Clouds, Rainfall, Water Cycle & Trade Winds | SSC CGL Easy/
Moderate MCQs

Q1. Which of the following is the most abundant gas in the Earth's atmosphere by volume?

[SSC CGL 2022]

(A) Nitrogen

(B) Oxygen

(C) Carbon Dioxide

(D) Argon

Q2. In which layer of the atmosphere do almost all weather phenomena like rainfall, fog, and hailstorm occur?

[SSC CHSL 2021]

(A) Stratosphere

(B) Thermosphere

(C) Troposphere

(D) Mesosphere

Q3. The ozone layer, which protects the earth from harmful ultraviolet rays of the sun, is found in which layer of the atmosphere?

[SSC MTS 2020]

(A) Mesosphere

(B) Ionosphere

(C) Troposphere

(D) Stratosphere

Q4. Which layer of the atmosphere is most ideal for flying aeroplanes because it is almost free from clouds?

[SSC CPO 2022]

(A) Mesosphere

(B) Stratosphere

(C) Thermosphere

(D) Troposphere

Q5. What is the normal lapse rate of temperature in the troposphere?

[SSC CGL 2021]

(A) Temperature decreases at the rate of 1°C for every 165 metres of ascent.

(B) Temperature increases at the rate of 1°C for every 165 metres of ascent.

(C) Temperature increases at the rate of 1°C for every 1000 metres of ascent.

(D) Temperature decreases at the rate of 1°C for every 1000 metres of ascent.

Q6. Which of the following layers of the atmosphere helps in radio transmission by reflecting radio waves back to Earth?

[SSC CHSL 2022]

(A) Troposphere

(B) Stratosphere

(C) Mesosphere

(D) Ionosphere

Q7. Which of the following gases is primarily responsible for the greenhouse effect on Earth?

[SSC MTS 2021]

(A) Carbon Dioxide

(B) Argon

(C) Nitrogen

(D) Oxygen

Q8. Meteorites burn up in which layer of the atmosphere on entering from space?

[SSC CGL 2020]

(A) Mesosphere

(B) Troposphere

(C) Exosphere

(D) Stratosphere

Q9. Which instrument is used to measure atmospheric pressure?

[SSC CPO 2021]

- (A) Barometer
- (B) Hygrometer
- (C) Anemometer
- (D) Thermometer

Q10. What is the approximate percentage of oxygen in the Earth's atmosphere?

[SSC CGL 2020]

- (A) 33%
- (B) 21%
- (C) 78%
- (D) 12%

Q11. The uppermost layer of the atmosphere into which the thermosphere fades away is called:

[SSC CGL 2023]

- (A) Stratosphere
- (B) Troposphere
- (C) Mesosphere
- (D) Exosphere

Q12. Consider the following statements about the atmosphere:

1. Air pressure is highest at sea level.
2. Air pressure increases as we go up the layers of the atmosphere.

Which of the statements given above is/are NOT correct?

[SSC MTS 2022]

(A) 1 only

(B) Both 1 and 2

(C) Neither 1 nor 2

(D) 2 only

Q13. The boundary separating the troposphere from the stratosphere is known as:

[SSC CPO 2023]

(A) Stratopause

(B) Mesopause

(C) Tropopause

(D) Thermopause

Q14. Which of the following is NOT a greenhouse gas?

[SSC CGL 2021]

(A) Nitrogen

(B) Water Vapour

(C) Carbon Dioxide

(D) Methane

Q15. What is the approximate percentage of Argon in the Earth's atmosphere?

[SSC CGL 2023]

(A) 0.93%

(B) 2.05%

(C) 0.03%

(D) 1.25%

Q16. Which of the following are the highest clouds in the sky, usually appearing feathery and white?

[SSC CGL 2022]

(A) Cumulus clouds

(B) Stratus clouds

(C) Nimbus clouds

(D) Cirrus clouds

Q17. Which of the following clouds look like cotton wool and are generally associated with fair weather?

[SSC MTS 2021]

(A) Nimbostratus clouds

(B) Cumulus clouds

(C) Cirrus clouds

(D) Stratus clouds

Q18. Which of the following prefix is used for middle-altitude clouds?

[SSC CPO 2022]

- (A) Alto
- (B) Cirro
- (C) Strato
- (D) Nimbo

Q19. Heavy rainfall, thunderstorms, and hail are generally associated with which type of cloud?

[SSC CGL 2020]

- (A) Altostratus
- (B) Cirrocumulus
- (C) Cumulonimbus
- (D) Stratocumulus

Q20. The word 'Nimbus' in cloud classification refers to:

[SSC CHSL 2021]

- (A) High altitude
- (B) Feathery appearance
- (C) Layered structure
- (D) Rain-bearing

Q21. Which clouds often create a halo-like ring around the Sun or the Moon due to the refraction of light by ice crystals?

[SSC CGL 2023]

(A) Cumulus

(B) Altocumulus

(C) Nimbostratus

(D) Cirrostratus

Q22. Match List I (Cloud Type) with List II (Feature):

List I	List II
A. Cirrus	1. Layered, covering large parts of the sky
B. Cumulus	2. Feathery, high altitude
C. Stratus	3. Rain-bearing, dark
D. Nimbus	4. Cotton-like appearance

(A) A-2, B-4, C-1, D-3

(B) A-4, B-3, C-2, D-1

(C) A-1, B-2, C-3, D-4

(D) A-2, B-1, C-4, D-3

Q23. Fog is essentially a cloud that forms at or near the ground. To which cloud type is fog most similar?

[SSC CPO 2020]

(A) Cirrus

(B) Cumulus

(C) Altocumulus

(D) Stratus

Q24. A 'mackerel sky', which looks like the scales of a fish, is associated with which type of clouds?

[SSC CHSL 2022]

(A) Nimbostratus

(B) Cumulonimbus

(C) Cirrocumulus

(D) Stratus

Q25. Which of the following clouds are formed at the lowest altitude?

[SSC CGL 2021]

(A) Stratus

(B) Altocumulus

(C) Cirrostratus

(D) Cirrus

Q26. Which instrument is used to measure the amount of rainfall?

[SSC MTS 2023]

(A) Anemometer

(B) Rain gauge

(C) Hygrometer

(D) Barometer

Q27. Rainfall caused by the uplifting of air over a mountain range is known as:

[SSC CGL 2023]

(A) Convectional rainfall

(B) Orographic rainfall

(C) Cyclonic rainfall

(D) Frontal rainfall

Q28. Which type of rainfall is very common in the equatorial regions, usually occurring in the afternoon with lightning and thunder?

[SSC CHSL 2020]

(A) Monsoon rainfall

(B) Cyclonic rainfall

(C) Convectional rainfall

(D) Orographic rainfall

Q29. The area on the leeward side of a mountain that receives significantly less rainfall is called:

[SSC CPO 2021]

(A) Rain-shadow area

(B) Convectional area

(C) Frontal area

(D) Windward area

Q30. Cyclonic or Frontal rainfall occurs due to:

[SSC CGL 2023]

(A) Moisture-laden winds striking a mountain

(B) The meeting of warm and cold air masses

(C) Rapid heating of the earth's surface

(D) Excessive transpiration from plants

Q31. Acid rain is primarily caused by the presence of which of the following gases in the atmosphere?

[SSC MTS 2021]

(A) Sulfur dioxide and Nitrogen oxides

(B) Carbon dioxide and Carbon monoxide

(C) Methane and Chlorofluorocarbons

(D) Ozone and Argon

Q32. Light rainfall consisting of water droplets that are smaller than 0.5 mm in diameter is called:

[SSC CHSL 2022]

- (A) Hail
- (B) Sleet
- (C) Snow
- (D) Drizzle

Q33. Winter rainfall in North-Western India, which is beneficial for Rabi crops, is caused by:

[SSC CGL 2020]

- (A) North-East Monsoon
- (B) South-West Monsoon
- (C) Local Thunderstorms
- (D) Western Disturbances

Q34. What is 'Virga' in meteorology?

[SSC CPO 2022]

- (A) A sudden, violent gust of wind
- (B) A type of severe thunderstorm
- (C) Rain that evaporates before reaching the ground
- (D) The instrument used to measure snow depth

Q35. Consider the following statements:

- 1. The windward side of mountains receives heavier rainfall than the leeward side.**
- 2. Orographic rainfall is also known as relief rainfall.**

Which of the statements given above is/are correct?

[SSC CGL 2021]

(A) Both 1 and 2

(B) 1 only

(C) 2 only

(D) Neither 1 nor 2

Q36. The continuous process by which water moves from the Earth's surface to the atmosphere and back is called:

[SSC MTS 2020]

(A) Oxygen Cycle

(B) Nitrogen Cycle

(C) Carbon Cycle

(D) Water Cycle

Q37. The process by which water changes from a liquid to a gas (water vapour) due to heat is known as:

[SSC CHSL 2021]

(A) Precipitation

(B) Evaporation

(C) Sublimation

(D) Condensation

Q38. What is the process called when water vapor cools down and changes back into liquid water droplets, forming clouds?

[SSC CGL 2022]

(A) Sublimation

(B) Transpiration

(C) Condensation

(D) Evaporation

Q39. The release of water vapor from the leaves of plants into the atmosphere is called:

[SSC CGL 2023]

(A) Transpiration

(B) Precipitation

(C) Condensation

(D) Evaporation

Q40. Which instrument is used to measure the relative humidity of the atmosphere?

[SSC CGL 2020]

(A) Barometer

(B) Hygrometer

(C) Anemometer

(D) Thermometer

Q41. The temperature at which air becomes fully saturated with water vapor and condensation begins is known as:

[SSC CHSL 2023]

- (A) Boiling point
- (B) Freezing point
- (C) Dew point
- (D) Melting point

Q42. What term is used to describe any form of moisture that falls from the atmosphere to the Earth's surface, such as rain, snow, or hail?

[SSC MTS 2022]

- (A) Condensation
- (B) Precipitation
- (C) Transpiration
- (D) Evaporation

Q43. The low-pressure equatorial belt where the trade winds from both hemispheres converge is known as:

[SSC CGL 2021]

- (A) Horse Latitudes
- (B) Roaring Forties
- (C) Doldrums
- (D) Polar Highs

Q44. Trade winds generally blow from:

[SSC CPO 2021]

- (A) Sub-polar low pressure to Sub-tropical high pressure
- (B) Polar high pressure to Sub-polar low pressure
- (C) Equatorial low pressure to Sub-tropical high pressure
- (D) Sub-tropical high pressure to Equatorial low pressure

Q45. The sub-tropical high-pressure belts, located roughly between 30° and 35° latitudes in both hemispheres, are also known as:

[SSC CHSL 2022]

- (A) Doldrums
- (B) Furious Fifties
- (C) Horse Latitudes
- (D) Roaring Forties

Q46. The strong and continuous westerly winds blowing between 40° and 50° South latitudes are famously called:

[SSC CGL 2023]

- (A) Roaring Forties
- (B) Trade winds
- (C) Monsoons
- (D) Doldrums

Q47. The apparent deflection of moving winds to the right in the Northern Hemisphere and to the left in the Southern Hemisphere is caused by:

[SSC MTS 2021]

- (A) The differences in atmospheric pressure
- (B) The Earth's rotation on its axis (Coriolis Effect)
- (C) The gravitational pull of the Moon
- (D) The Earth's revolution around the Sun

Q48. Which of the following is a hot and dry local wind that blows in the northern plains of India during summers?

[SSC CGL 2022]

- (A) Mistral
- (B) Foehn
- (C) Loo
- (D) Chinook

Q49. Monsoon winds are a classic example of:

[SSC CPO 2020]

- (A) Permanent winds
- (B) Planetary winds
- (C) Seasonal winds
- (D) Local winds

Q50. Match List I (Local Wind) with List II (Region):

List I	List II
A. Chinook	1. Alps (Europe)
B. Foehn	2. Rocky Mountains (USA)
C. Harmattan	3. India
D. Loo	4. West Africa

(A) A-2, B-1, C-4, D-3

(B) A-2, B-1, C-3, D-4

(C) A-1, B-2, C-3, D-4

(D) A-1, B-2, C-4, D-3
