Geography: Northern Plains & Peninsular India

Under the guidance of Vipulendra Tripathi Sir

SSC CGL LEVEL - HARD PRACTICE SET

Q1. Consider the following statements regarding the longitudinal divisions of the Northern Plains:

- I. The Bhabar belt is highly porous due to the deposition of unassorted pebbles and gravels.
- II. The Terai region lies to the north of the Bhabar belt and is characterized by marshy lands.
- III. The Bhangar soil contains calcareous deposits locally known as Kankar.

Which of the statements given above is/are correct?

SSC CGL Tier II 2022

(A) All I, II, and III

(B) Only II and III

(C) Only I and III

(D) Only I and II

Q2. Assertion (A): Cultivation is highly suitable and easily enforceable in the Khadar region compared to the Bhangar region.

Reason (R): Khadar is composed of newer alluvium, gets replenished annually by floods, and lacks coarse calcareous nodules.

SSC CGL Tier I 2023

(A) A is false but R is true

(B) A is true but R is false

(C) Both A and R are true and R is the correct explanation of A

(D) Both A and R are true but R is NOT the correct explanation of A

Q3. Match List I (Doabs of Punjab) with List II (Associated Rivers):

List I:

- a. Bist Jalandhar Doab
- b. Bari Doab
- c. Rechna Doab
- d. Chaj Doab

List II:

- 1. Between Ravi and Chenab
- 2. Between Beas and Sutlej
- 3. Between Chenab and Jhelum
- 4. Between Beas and Ravi

SSC CPO 2022

(A) a-4, b-2, c-1, d-3

(B) a-2, b-1, c-4, d-3

(C) a-2, b-4, c-1, d-3

(D) a-1, b-4, c-3, d-2

Q4. Which of the following statements about the 'Bhur' topography is NOT correct?

SSC CHSL Tier II 2023

- (A) It is mostly found in the dry months in the upper reaches of the Ganga-Yamuna Doab. (B) It is a characteristic feature of the active floodplains (Khadar) of the Brahmaputra river.
- (C) It represents elevated pieces of land formed due to the accumulation of wind-blown sand. (D) It forms a slightly undulating terrain in an otherwise flat alluvial plain.

Q5. Consider the following statements regarding the Ganga Plains:

I. Rohilkhand plain is located in the upper western part of Uttar Pradesh.

II. Awadh plain is located in the eastern part of Uttar Pradesh.

III. Mithila plain is a distinct geomorphic unit of the Punjab plains.

Which of the statements given above is/are correct?

SSC MTS 2023

- (A) Only I and II (B) Only I
- (C) All I, II, and III (D) Only II and III

Q6. Assertion (A): The Brahmaputra plain is renowned for its braided river channels and the formation of numerous riverine islands.

Reason (R): The river carries an exceptionally heavy load of coarse sediment and flows through a valley with a very gentle gradient.

SSC CGL Tier II 2021

- (A) A is false but R is true (B) A is true but R is false
- (C) Both A and R are true and R is the correct explanation of A (D) Both A and R are true but R is NOT the correct explanation of A

Q7. Match List I (Regional Plain) with List II (Geographical Feature):

List I:

a. Rajasthan Plains

b. Punjab Plains

c. Ganga Plains

d. Brahmaputra Plains

List II:

1. Prominent ox-bow lakes (Bils) and deltaic marshes

2. Dominated by 'Chos' (seasonal streams) at the foothills

3. Presence of vast saline tracts and playas (Ranns/Lakes)

4. Extremely prominent braided channels and sandbars

SSC CPO 2021

- (A) a-3, b-2, c-1, d-4 (B) a-2, b-3, c-4, d-1
- (C) a-3, b-2, c-4, d-1 (D) a-1, b-4, c-2, d-3

Q8. Which of the following features is NOT a typical geomorphological formation of the Ganga-Brahmaputra Delta?

SSC CHSL Tier I 2022

- (A) Pat lands (B) Estuarine creeks
(C) Chars (D) Bils

Q9. Consider the following statements regarding the structural formation of the Northern Plains:
I. It is an aggradational plain formed by the filling up of a vast tectonic foredeep.
II. The depth of the alluvium deposit is uniform across the entire length of the plain.
Which of the statements given above is/are correct?

SSC CGL Tier I 2021

- (A) Only I (B) Both I and II
(C) Neither I nor II (D) Only II

Q10. Assertion (A): The Terai region is wider in the eastern part of the Northern Plains compared to the western part.

Reason (R): The eastern part receives significantly higher rainfall, supporting extensive marshy lands and dense vegetation.

SSC CGL Tier II 2020

- (A) Both A and R are true and R is the correct explanation of A (B) A is true but R is false
(C) A is false but R is true (D) Both A and R are true but R is NOT the correct explanation of A

Q11. Consider the following statements regarding the Peninsular Plateau:

I. It is structurally composed of ancient crystalline, hard igneous, and metamorphic rocks.

II. It is characterized by broad and shallow valleys and rounded hills.

III. The general elevation of the plateau is from east to west.

Which of the statements given above is/are correct?

SSC CPO 2023

- (A) Only I and II (B) Only I and III
(C) All I, II, and III (D) Only II and III

Q12. Which of the following statements about the Malwa Plateau is NOT correct?

SSC CGL Tier I 2022

- (A) The landscape is highly dissected by the Chambal river, creating badland topography. (B) Its general drainage is towards the Arabian Sea.
(C) It is bounded by the Aravalli range in the northwest and the Vindhyas in the south. (D) It is largely composed of extensive lava flows and is covered with black soils.

Q13. Match List I (Hill Range) with List II (Highest Peak):

List I:

- a. Aravalli Range
- b. Satpura Range
- c. Vindhya Range
- d. Eastern Ghats

List II:

- 1. Dhupgarh
- 2. Guru Shikhar
- 3. Jindhagada Peak / Arma Konda
- 4. Sadbhawna Shikhar (Goodwill Peak)

SSC CHSL Tier II 2023

(A) a-2, b-1, c-4, d-3

(B) a-1, b-2, c-3, d-4

(C) a-4, b-1, c-2, d-3

(D) a-2, b-4, c-1, d-3

Q14. Assertion (A): The Aravalli mountains are considered as relict mountains.

Reason (R): They have been subjected to continuous denudation over millions of years and currently exist as heavily eroded, broken hills.

SSC MTS 2022

(A) Both A and R are true and R is the correct explanation of A

(B) A is false but R is true

(C) A is true but R is false

(D) Both A and R are true but R is NOT the correct explanation of A

Q15. Consider the following statements regarding the Chotanagpur Plateau:

I. It is primarily drained by the Damodar, Subarnarekha, and North Koel rivers.

II. It is characterized by flat-topped tablelands known as 'Pat' lands.

III. It acts as a distinct water divide between the Narmada and Tapi rivers.

Which of the statements given above is/are correct?

SSC CGL Tier II 2022

(A) Only II and III

(B) Only I and III

(C) All I, II, and III

(D) Only I and II

Q16. Which of the following geographical features structurally separates the Meghalaya Plateau from the main Peninsular Plateau?

SSC CPO 2022

(A) Malda Fault (Garo-Rajmahal Gap)

(B) Great Boundary Fault

(C) Main Central Thrust

(D) Himalayan Frontal Thrust

Q17. Match List I (Region) with List II (Characteristic Feature):

List I:

- a. Deccan Trap
- b. Bundelkhand
- c. Meghalaya Plateau
- d. Dandakaranya

List II:

- 1. Abundant rainfall and Karst topography
- 2. Step-like terraced landscape of basaltic lava
- 3. Rugged, forested terrain spanning Bastar region
- 4. Highly eroded granitic and gneissic terrain prone to droughts

SSC CGL Tier I 2023

(A) a-2, b-4, c-1, d-3

(B) a-4, b-2, c-3, d-1

(C) a-1, b-3, c-2, d-4

(D) a-2, b-1, c-4, d-3

Q18. Assertion (A): The rivers originating in the Central Highlands, like Chambal and Betwa, flow towards the northeast.

Reason (R): The Central Highlands have a general slope from southwest to northeast.

SSC CHSL Tier I 2021

(A) Both A and R are true and R is the correct explanation of A

(B) Both A and R are true but R is NOT the correct explanation of A

(C) A is true but R is false

(D) A is false but R is true

Q19. Which of the following ranges is a classic example of a block mountain bounded by rift valleys on both its northern and southern sides?

SSC MTS 2023

(A) Aravalli Range

(B) Vindhya Range

(C) Satpura Range

(D) Ajanta Range

Q20. Consider the following hills:

I. Rajmahal Hills

II. Garo Hills

III. Khasi Hills

IV. Jaintia Hills

Which of the above are geologically an extension of the Peninsular Plateau?

SSC CGL Tier II 2021

(A) All I, II, III, and IV

(B) Only I, III, and IV

(C) Only II, III, and IV

(D) Only I and II

Q21. Which of the following statements regarding the Vindhyan Range is NOT correct?

SSC CPO 2021

- (A) It acts as a major water divide between the Ganga system and the river systems of South India.
- (B) The Kaimur range is its eastern extension.
- (C) It extends from Jobat in Gujarat to Sasaram in Bihar.
- (D) It is predominantly composed of ancient metamorphic rocks like schists and gneisses.

Q22. Match List I (Plateau/Region) with List II (State/Location):

List I:

- a. Baghelkhand Plateau
- b. Karbi-Anglong Plateau
- c. Bhandar Plateau
- d. Rohtas Plateau

List II:

- 1. Assam
- 2. Eastern Madhya Pradesh
- 3. Madhya Pradesh (Vindhyan scarp)
- 4. Bihar

SSC CGL Tier I 2022

- (A) a-1, b-2, c-4, d-3
- (B) a-3, b-4, c-2, d-1
- (C) a-2, b-3, c-1, d-4
- (D) a-2, b-1, c-3, d-4

Q23. Assertion (A): The Deccan Plateau is higher in the west and slopes gently eastwards. Reason (R): Most major peninsular rivers like Godavari, Krishna, and Cauvery originate in the Western Ghats and flow eastwards into the Bay of Bengal.

SSC CHSL Tier II 2022

- (A) A is false but R is true
- (B) Both A and R are true and R is the correct explanation of A
- (C) Both A and R are true but R is NOT the correct explanation of A
- (D) A is true but R is false

Q24. Consider the following statements regarding the Dandakaranya Region:

- I. It is extremely rich in mineral resources, particularly bauxite and iron ore.
- II. It encompasses the Abujhmar hills and the Bastar plateau.

Which of the statements given above is/are correct?

SSC MTS 2021

- (A) Only I
- (B) Neither I nor II
- (C) Only II
- (D) Both I and II

Q25. Which of the following sequences correctly arranges the ranges of the Central Highlands from West to East?

SSC CGL Tier II 2023

(A) Aravalli -> Baghelkhand -> Bundelkhand -> Malwa Plateau -> Chotanagpur

(B) Aravalli -> Malwa Plateau -> Bundelkhand -> Baghelkhand -> Chotanagpur

(C) Aravalli -> Bundelkhand -> Malwa Plateau -> Baghelkhand -> Chotanagpur

(D) Malwa Plateau -> Aravalli -> Baghelkhand -> Bundelkhand -> Chotanagpur

Q26. Consider the following statements regarding the Western Ghats:

I. They are continuous and can be crossed only through passes.

II. Their average elevation increases from south to north.

III. They cause orographic rain by facing the rain-bearing moist winds from the Arabian Sea.

Which of the statements given above is/are correct?

SSC CPO 2023

(A) Only II and III

(B) Only I and III

(C) Only I and II

(D) All I, II, and III

Q27. Which of the following passes in the Western Ghats is NOT correctly matched with the route it connects?

SSC CGL Tier I 2021

(A) Pal Ghat - Palakkad to Coimbatore

(B) Bhore Ghat - Mumbai to Pune

(C) Thal Ghat - Mumbai to Nashik

(D) Shencottah Pass - Mangalore to Hubli

Q28. Assertion (A): The Eastern Ghats are highly discontinuous and irregular.

Reason (R): They have been heavily dissected by major peninsular rivers draining into the Bay of Bengal.

SSC CHSL Tier I 2023

(A) A is true but R is false

(B) A is false but R is true

(C) Both A and R are true but R is NOT the correct explanation of A

(D) Both A and R are true and R is the correct explanation of A

Q29. Match List I (Hill in Eastern Ghats) with List II (State):

List I:

- a. Nallamala Hills
- b. Javadi Hills
- c. Shevaroy Hills
- d. Mahendragiri

List II:

- 1. Odisha
- 2. Andhra Pradesh
- 3. Northern Tamil Nadu
- 4. Southern Tamil Nadu

SSC CGL Tier II 2020

(A) a-2, b-4, c-3, d-1

(B) a-1, b-2, c-3, d-4

(C) a-3, b-2, c-1, d-4

(D) a-2, b-3, c-4, d-1

Q30. Arrange the following hills of Southern India from North to South:

I. Nilgiri Hills

II. Cardamom Hills

III. Nallamala Hills

IV. Anamalai Hills

SSC MTS 2022

(A) I, IV, III, II

(B) I, III, IV, II

(C) III, IV, I, II

(D) III, I, IV, II

Q31. Which of the following statements about the coastal plains of India is NOT correct?

SSC CPO 2022

(A) The eastern coastal plains are broader and are an example of emergent coastal plains.

(B) The western coastal plains are an example of submerged coastal plains.

(C) The western coastal plains feature well-developed deltas formed by rivers like Narmada and Tapi.

(D) The Malabar coast is famous for its backwaters known as 'Kayals'.

Q32. Consider the following statements:

I. Anaimudi is the highest peak of the Peninsular plateau.

II. Dodabetta is the highest peak of the Nilgiri hills.

III. The Eastern and Western Ghats meet at the Anamalai hills.

Which of the statements given above is/are correct?

SSC CGL Tier I 2022

(A) Only I and II

(B) Only II and III

(C) Only I and III

(D) All I, II, and III

Q33. Match List I (Coastal Region) with List II (Geographical Location):

List I:

- a. Konkan Coast
- b. Malabar Coast
- c. Coromandel Coast
- d. Northern Circars

List II:

- 1. Between Mahanadi and Krishna rivers
- 2. Coast of Kerala
- 3. Coast of Maharashtra and Goa
- 4. Coast of Tamil Nadu and parts of Andhra Pradesh

SSC CHSL Tier II 2023

(A) a-3, b-2, c-4, d-1

(B) a-4, b-2, c-3, d-1

(C) a-3, b-1, c-4, d-2

(D) a-2, b-3, c-1, d-4

Q34. Assertion (A): The Western Coastal Plain provides natural conditions for the development of ports and harbours.

Reason (R): Being a submerged coast, it provides a deep and indented coastline which is ideal for natural harbours.

SSC CGL Tier II 2022

(A) A is false but R is true

(B) Both A and R are true but R is NOT the correct explanation of A

(C) Both A and R are true and R is the correct explanation of A

(D) A is true but R is false

Q35. Which of the following hill ranges is NOT a part of the Sahyadris (Western Ghats)?

SSC MTS 2023

(A) Baba Budan Hills

(B) Harishchandra Range

(C) Velikonda Range

(D) Balaghat Range

Q36. Consider the following statements regarding the Kathiawar Peninsula:

I. It is located in Gujarat, south of the Gulf of Kutch.

II. It is characterized by radial drainage pattern.

III. The Gir range, famous for Asiatic lions, is located in its southern part.

Which of the statements given above is/are correct?

SSC CPO 2021

(A) Only II and III

(B) All I, II, and III

(C) Only I and III

(D) Only I and II

Q37. Which of the following features represents a structural escarpment rather than a true fold mountain range?

SSC CGL Tier I 2023

- | | |
|----------------------|--------------------|
| (A) Himalayas | (B) Western Ghats |
| (C) Purvanchal Hills | (D) Aravalli Range |

Q38. Match List I (Lake/Feature) with List II (Coastal Location):

List I:

- a. Vembanad
- b. Chilika
- c. Pulicat
- d. Ashtamudi

List II:

- 1. Utkal Coast
- 2. Malabar Coast
- 3. Coromandel Coast
- 4. Kerala Coast (Kollam district)

SSC CHSL Tier I 2021

- | | |
|------------------------|------------------------|
| (A) a-2, b-1, c-3, d-4 | (B) a-1, b-2, c-4, d-3 |
| (C) a-2, b-3, c-1, d-4 | (D) a-4, b-1, c-3, d-2 |

Q39. Assertion (A): Agriculture on the Eastern Coastal Plains is highly developed and supports a dense population.

Reason (R): The region consists of highly fertile deltaic plains formed by the Godavari, Krishna, and Cauvery rivers.

SSC CGL Tier II 2021

- | | |
|---|------------------------------|
| (A) Both A and R are true and R is the correct explanation of A | (B) A is true but R is false |
| (C) Both A and R are true but R is NOT the correct explanation of A | (D) A is false but R is true |

Q40. Which of the following is NOT correct about the Andaman and Nicobar Islands?

SSC MTS 2021

- | | |
|---|--|
| (A) Saddle Peak is the highest peak in the Andaman Islands. | (B) The Ten Degree Channel separates the Andaman group from the Nicobar group. |
| (C) They are of coral origin. | (D) They are an elevated portion of submarine mountains. |

Q41. Consider the following statements:

I. The Vindhyan rock system is famous for the production of precious stones and building materials.

II. The Dharwar rock system is highly metalliferous and economically the most important in India.

Which of the statements given above is/are correct?

SSC CGL Tier I 2020

(A) Neither I nor II

(B) Both I and II

(C) Only II

(D) Only I

Q42. Match List I (Geological Rock System) with List II (Economic Importance):

List I:

a. Gondwana System

b. Dharwar System

c. Tertiary System

d. Vindhyan System

List II:

1. Coal deposits

2. Metallic minerals (Iron, Gold)

3. Petroleum and Natural Gas

4. Limestone, Sandstone, and Diamonds

SSC CPO 2023

(A) a-4, b-2, c-1, d-3

(B) a-1, b-3, c-2, d-4

(C) a-1, b-2, c-3, d-4

(D) a-2, b-1, c-4, d-3

Q43. Assertion (A): The Gondwana rock system accounts for nearly 98% of the coal reserves in India.

Reason (R): These rocks were formed during the Carboniferous period by intense volcanic fissure eruptions.

SSC CHSL Tier II 2022

(A) A is true but R is false

(B) Both A and R are true and R is the correct explanation of A

(C) Both A and R are true but R is NOT the correct explanation of A

(D) A is false but R is true

Q44. Which of the following statements about the Peninsular rivers is NOT correct?

SSC CGL Tier II 2023

(A) They are generally characterized by fixed courses and absence of meanders.

(B) They are mostly rain-fed and highly seasonal in their flow.

(C) The Narmada and Tapi form the largest riverine deltas on the west coast.

(D) They have reached their base level of erosion, exhibiting shallow and graded valleys.

Q45. Consider the following statements regarding the soils of the Peninsular Plateau:

- I. Black soil (Regur) is predominantly found in the Deccan Trap region.
- II. Red soils develop on crystalline igneous rocks in areas of low rainfall in the eastern and southern parts of the Deccan Plateau.
- III. Laterite soils are found in areas with high temperature and heavy rainfall.

Which of the statements given above is/are correct?

SSC MTS 2022

- | | |
|---------------------|------------------------|
| (A) Only II and III | (B) All I, II, and III |
| (C) Only I and III | (D) Only I and II |

Q46. Match List I (Geographical Feature) with List II (Formation Process):

List I:

- a. Deccan Plateau
- b. Himalayas
- c. Northern Plains
- d. Aravallis

List II:

- 1. Tectonic folding (Tethys Geosyncline)
- 2. Fissure volcanic eruption
- 3. Extensive fluvial deposition in a foredeep
- 4. Highly denuded ancient fold mountains

SSC CGL Tier I 2021

- | | |
|------------------------|------------------------|
| (A) a-4, b-1, c-2, d-3 | (B) a-2, b-3, c-1, d-4 |
| (C) a-1, b-2, c-4, d-3 | (D) a-2, b-1, c-3, d-4 |

Q47. Assertion (A): The Western Ghats run parallel to the western coast and form the main water divide of the Peninsula.

Reason (R): Almost all the major peninsular rivers originate in the Western Ghats and flow eastwards.

SSC CPO 2021

- | | |
|---|---|
| (A) Both A and R are true and R is the correct explanation of A | (B) A is true but R is false |
| (C) A is false but R is true | (D) Both A and R are true but R is NOT the correct explanation of A |

Q48. Which of the following hill ranges forms the southernmost point of the Western Ghats?

SSC CHSL Tier I 2023

- | | |
|-------------------------------|--------------------|
| (A) Palani Hills | (B) Anamalai Hills |
| (C) Cardamom (Elamalai) Hills | (D) Nilgiri Hills |

Q49. Consider the following statements about the Rann of Kutch:

- I. It is a vast salt marsh located in the Thar Desert biogeographic province.
- II. It was once a shallow arm of the Arabian Sea that was geologically uplifted.
- III. It features the 'Banni' grasslands and provides habitat for the Indian Wild Ass.

Which of the statements given above is/are correct?

SSC CGL Tier II 2020

- | | |
|------------------------|---------------------|
| (A) Only I and II | (B) Only I and III |
| (C) All I, II, and III | (D) Only II and III |

Q50. Which of the following pairings of a geographical term and its description is NOT correct?

SSC MTS 2023

- | | |
|---|--|
| (A) Kayals - Shallow backwaters along the Malabar coast used for fishing and navigation | (B) Doab - A highly fertile tract of land lying between two converging rivers |
| (C) Khadar - New, highly fertile alluvium of the floodplains | (D) Terai - Highly porous, pebbly zone at the immediate foothills of Shiwaliks where streams disappear |
