

# संभव BATCH - CRASH COURSE

Geography: Transport, Mining & Mineral Resources of India & World

Expert Guidance: Vipulendra Tripathi Sir

SSC CGL Tier-I & Tier-II Level Exams | 100 Non-Repetitive Selected MCQs | Pure Practice Set (No Key Included)

## PART - A: MODERATE LEVEL QUESTIONS

**Q1. Which Indian state has the largest reserves of coal in the country?**

- (A) West Bengal
- (B) Jharkhand
- (C) Chhattisgarh
- (D) Odisha

SSC CGL 2021

**Q2. The famous Kudremukh iron ore mines, known for their horse-face shape, are located in which state?**

- (A) Odisha
- (B) Karnataka
- (C) Goa
- (D) Chhattisgarh

SSC CHSL 2022

**Q3. The Golden Quadrilateral project connects Delhi, Mumbai, Chennai, and which other major metropolitan city?**

- (A) Hyderabad
- (B) Bengaluru
- (C) Ahmedabad
- (D) Kolkata

SSC CPO 2023

**Q4. Which port on the eastern coast of India is a landlocked and well-protected harbor?**

- (A) Visakhapatnam
- (B) Chennai
- (C) Paradip
- (D) Kolkata

SSC MTS 2022

**Q5. Khetri in Rajasthan is historically and economically famous for the mining of which mineral?**

- (A) Copper
- (B) Mica
- (C) Zinc
- (D) Iron Ore

SSC CGL 2020

**Q6. Which national waterway (NW-1) is the longest in India, running across the Ganges River system?**

- (A) Sadiya to Dhubri stretch
- (B) Kollam to Kottapuram stretch
- (C) Kakinada to Puducherry stretch
- (D) Allahabad to Haldia stretch

SSC Selection Post Phase X

**Q7. The first commercial oil well in India was drilled in which historic location?**

- (A) Ankleshwar
- (B) Kalol
- (C) Digboi
- (D) Bombay High

SSC CHSL 2021

**Q8. Which of the following is the busiest ocean trade route in the world?**

- (A) Cape of Good Hope Route
- (B) Suez Canal Route
- (C) Panama Canal Route
- (D) North Atlantic Route

SSC CPO 2020

**Q9. The Bailadila mines in Chhattisgarh are world-famous for producing high-grade varieties of which mineral?**

- (A) Manganese
- (B) Magnetite Iron Ore
- (C) Bauxite
- (D) Hematite Iron Ore

SSC CGL 2019

**Q10. Which railway zone in India is headquartered at Hubli?**

- (A) South Central Railway
- (B) South Western Railway
- (C) Southern Railway
- (D) Central Railway

SSC CHSL 2022

**Q11. The trans-continental railway line connecting Saint Petersburg to Vladivostok is known as the:**

- (A) Trans-Canadian Railway
- (B) Orient Express
- (C) Union Pacific Railway
- (D) Trans-Siberian Railway

SSC Selection Post Phase XI

**Q12. Which major iron and steel plant was established with collaboration from the erstwhile USSR in Chhattisgarh?**

- (A) Rourkela Steel Plant
- (B) Bokaro Steel Plant
- (C) Bhilai Steel Plant
- (D) Durgapur Steel Plant

SSC MTS 2021

**Q13. The dynamic Grand Coulee Dam, a massive hydroelectric resource project, is built on which river?**

- (A) Mississippi River
- (B) St. Lawrence River
- (C) Columbia River
- (D) Colorado River

SSC CGL Tier-I 2022

**Q14. Which major mineral oilfield in India is located offshore along the western coast near Maharashtra?**

- (A) Mangala
- (B) Ankleshwar
- (C) Naharkatiya
- (D) Bombay High

SSC CPO 2021

**Q15. The world-famous 'Mesabi Range' in the United States is a premier mining repository for:**

- (A) Coal
- (B) Copper
- (C) Iron Ore
- (D) Gold

SSC MTS 2022

**Q16. Which major port in India was recently renamed as Deendayal Port?**

- (A) Nhava Sheva Port
- (B) Cochin Port
- (C) Marmagao Port
- (D) Kandla Port

SSC CHSL 2020

**Q17. Which form of coal has the highest carbon content and thermal heating value?**

- (A) Bituminous
- (B) Lignite
- (C) Anthracite
- (D) Peat

SSC CGL 2021

**Q18. The strategic 'Strait of Malacca' is a major global maritime choke point between which two oceans?**

- (A) Pacific Ocean and Atlantic Ocean
- (B) Atlantic Ocean and Indian Ocean
- (C) Indian Ocean and Arctic Ocean
- (D) Indian Ocean and Pacific Ocean

SSC CPO 2022

**Q19. Which state is the leading producer of Manganese ore in India as per standard resource data?**

- (A) Odisha
- (B) Maharashtra
- (C) Madhya Pradesh
- (D) Karnataka

SSC MTS 2021

**Q20. The 'Panna' region in Madhya Pradesh is highly famous for the commercial mining of:**

- (A) Diamonds
- (B) Gold
- (C) Silver
- (D) Emeralds

SSC Selection Post Phase XI

**Q21. Which of the following pipeline systems is famous for transporting liquid petroleum gas across India?**

- (A) Barauni-Kanpur Pipeline
- (B) Hazira-Vijaipur-Jagdishpur (HVJ) Pipeline
- (C) Naharkatiya-Barauni Pipeline
- (D) Salaya-Koyali Pipeline

SSC CGL 2022

**Q22. The premier gold mining region of Witwatersrand is situated in which country?**

- (A) Australia
- (B) USA
- (C) Canada
- (D) South Africa

SSC CHSL 2021

**Q23. Which industrial town in India is widely known as the 'Ruhr of India' due to its massive concentration of coal and heavy metal industries?**

- (A) Jamshedpur
- (B) Bhilai
- (C) Durgapur
- (D) Ranchi

SSC CPO 2020

**Q24. The first high-speed train corridor in India is currently under construction to link which two cities?**

- (A) Delhi and Agra
- (B) Delhi and Amritsar
- (C) Mumbai and Pune
- (D) Mumbai and Ahmedabad

SSC MTS 2020

**Q25. Which mineral is widely used as a basic raw material in the electrical and electronics industries due to its excellent dielectric strength?**

- (A) Mica
- (B) Copper
- (C) Manganese
- (D) Bauxite

SSC CGL 2023

**Q26. The world's deepest gold mine, Mponeng, is located in which nation?**

- (A) Australia
- (B) South Africa
- (C) Russia
- (D) Brazil

SSC CHSL 2022

**Q27. Which major artificial canal cuts through the Isthmus of Suez to connect the Mediterranean Sea to the Red Sea?**

- (A) Panama Canal
- (B) Kiel Canal
- (C) Suez Canal
- (D) Erie Canal

SSC CPO 2021

**Q28. The critical resource 'Bauxite' serves as the primary base ore utilized to extract which metal?**

- (A) Zinc
- (B) Copper
- (C) Aluminium
- (D) Lead

SSC Selection Post Phase IX

**Q29. Which major seaport is located at the entrance of the Zuari estuary in Goa?**

- (A) Marmagao Port
- (B) Cochin Port
- (C) Kandla Port
- (D) New Mangalore Port

SSC CGL Tier-I 2021

**Q30. The major lignite coal deposits of India are concentrated heavily at which specific location?**

- (A) Korba
- (B) Neyveli
- (C) Jharia
- (D) Singrauli

SSC CHSL 2020

**Q31. Which major global region holds the highest proven reserves of crude oil?**

- (A) North America
- (B) North Sea tracts
- (C) Middle East / Venezuela
- (D) Siberian Russia

SSC MTS 2022

**Q32. The longest state highway and densest overall road network density in India belongs to:**

- (A) Kerala
- (B) Tamil Nadu
- (C) Maharashtra
- (D) Uttar Pradesh

SSC CGL 2022

**Q33. Which pass connects Srinagar to Leh, serving as a critical high-altitude transport link?**

- (A) Banihal Pass
- (B) Zoji La Pass
- (C) Rohtang Pass
- (D) Shipki La Pass

SSC CPO 2023

**Q34. The prominent mining city of Sudbury in Canada is a leading global supplier of which resource?**

- (A) Nickel
- (B) Uranium
- (C) Iron Ore
- (D) Asbestos

SSC Selection Post Phase XI

**Q35. Which port is known as the 'Jawaharlal Nehru Port' and was developed to decongest the Mumbai Port?**

- (A) Ennore Port
- (B) Kandla Port
- (C) Nhava Sheva Port
- (D) Marmagao Port

SSC CHSL 2021

**Q36. The legendary 'Chinnabar' ore is the primary source used to extract which liquid metallic resource?**

- (A) Mercury
- (B) Antimony
- (C) Bismuth
- (D) Lead

SSC CGL Tier-I 2023

**Q37. Which national transit project aims to optimize domestic freight movement through dedicated East and West freight corridors?**

- (A) Bharatmala Pariyojana
- (B) UDAN Scheme
- (C) Sagarmala Project
- (D) Dedicated Freight Corridor (DFC) Project

SSC CPO 2020

**Q38. The rich oilfields of Kirkuk, serving as a major petroleum asset, are located in which country?**

- (A) Iraq
- (B) Iran
- (C) Saudi Arabia
- (D) Kuwait

SSC MTS 2021

**Q39. Which state has the largest reserves of copper ore in India?**

- (A) Karnataka
- (B) Jharkhand
- (C) Rajasthan
- (D) Madhya Pradesh

SSC CGL 2021

**Q40. The core operational headquarters of the Konkan Railway zone is situated at:**

- (A) Mangaluru
- (B) Navi Mumbai
- (C) Ratnagiri
- (D) Panaji

SSC CHSL 2022

**Q41. Which mineral resource is widely mined at Jaduguda in Jharkhand for nuclear energy?**

- (A) Zirconium
- (B) Uranium
- (C) Thorium
- (D) Titanium

SSC CPO 2022

**Q42. The world's largest inland waterway system is located along which river-lake nexus?**

- (A) Rhine and Danube network in Europe
- (B) Amazon River system in South America
- (C) Yangtze River system in China
- (D) Great Lakes and St. Lawrence River in North America

SSC Selection Post Phase X

**Q43. Which port is the oldest artificial harbor on the eastern coast of India?**

- (A) Tuticorin Port
- (B) Chennai Port
- (C) Paradip Port
- (D) Kolkata Port

SSC CGL 2023

**Q44. The iron ore fields of Singhbhum are situated in which mineral-rich state?**

- (A) West Bengal
- (B) Jharkhand
- (C) Chhattisgarh
- (D) Odisha

SSC CPO 2021

**Q45. Which global shipping canal cuts through the Isthmus of Panama to unite the Atlantic and Pacific Oceans?**

- (A) Panama Canal
- (B) Suez Canal
- (C) Kiel Canal
- (D) Welland Canal

SSC MTS 2021

**Q46. The primary cause behind the generation of geothermal energy resources inside the earth is:**

- (A) Gravitational compaction of heavy iron core rocks
- (B) Radioactive decay of unstable isotopes in the crust
- (C) Frictional drag of tectonic continental plate movements
- (D) Solar radiation trapping within subsurface table rocks

SSC CHSL 2020

**Q47. Which major city in India is connected to another country via the Maitree Express?**

- (A) Guwahati (to Thimphu)
- (B) Amritsar (to Lahore)
- (C) Kolkata (to Dhaka)
- (D) Siliguri (to Kathmandu)

SSC CGL Tier-I 2022

**Q48. The famous iron ore repository of Kiruna is located in which European country?**

- (A) Germany
- (B) Norway
- (C) France
- (D) Sweden

SSC Selection Post Phase XI

**Q49. Which major central scheme focuses on enhancing regional air connectivity across tier-2 and tier-3 cities?**

- (A) UDAN Scheme
- (B) Sagarmala Pariyojana
- (C) Setu Bharatam Scheme
- (D) BHARATNet Project

SSC CGL 2020

**Q50. The resource termed 'Liquid Gold' globally is a common synonym used to define:**

- (A) Melted Sulphur
- (B) Liquid Nitrogen
- (C) Liquefied Natural Gas
- (D) Petroleum / Crude Oil

SSC CPO 2020

**PART - B: ADVANCED / HARD LEVEL QUESTIONS**

**Q51.** Consider the following statements regarding the 'Golden Quadrilateral' and North-South/East-West corridors:

1. The North-South corridor aims to connect Srinagar with Kanyakumari, while the East-West corridor links Silchar with Porbandar.
2. The point where the North-South and East-West corridors physically intersect each other is located at Nagpur.
3. The Golden Quadrilateral has an absolute total operational length exceeding 5,800 kilometers.

Which of the statements given above are correct?

- (A) 1 and 2 only
- (B) 2 and 3 only
- (C) 1, 2 and 3
- (D) 1 and 3 only

SSC CGL Tier-II 2022

**Q52.** Assertion (A): The Konkan Railway project was a monumental design feat in Indian civil engineering but remains vulnerable to seasonal operational hazards.

Reason (R): It passes through the rugged, eco-sensitive terrain of the Western Ghats, facing severe landslide risks and track subsidences during intense monsoon downpours.

Select the correct analytical choice:

- (A) Both A and R are true but R is NOT the correct explanation of A.
- (B) A is true but R is false.
- (C) Both A and R are true and R is the correct explanation of A.
- (D) A is false but R is true.

SSC CGL Tier-II 2023

**Q53. Match List-I (Major Sea Port of India) with List-II (Distinct Structural/Geographical Feature):**

**List-I**

- A. Kandla Port**
- B. Mumbai Port**
- C. Visakhapatnam Port**
- D. Paradip Port**

**List-II**

- 1. Deepest landlocked and well-protected harbor on the east coast**
- 2. Tidal port developed in the Gulf of Kutch to relieve pressure on northern transits**
- 3. Deepwater port handling iron ore exports from Odisha basins**
- 4. Largest natural port and harbor infrastructure in India**

**Select the correct matching code:**

- (A)** A-2, B-1, C-4, D-3
- (B)** A-4, B-2, C-1, D-3
- (C)** A-3, B-4, C-1, D-2
- (D)** A-2, B-4, C-1, D-3

SSC CPO Tier-II 2021

**Q54. Consider the following statements regarding the categorization of mineral resources in India:**

- 1. Non-metallic minerals include metallic elements like iron, manganese, and chromite.**
- 2. Gondwana coal accounts for over 98% of India's total coal production and is completely free of moisture.**
- 3. Tertiary coal deposits are younger in age and are heavily found in the north-eastern states.**

**Which of the statements given above is/are NOT correct?**

- (A)** 1, 2 and 3
- (B)** 3 only
- (C)** 1 and 2 only
- (D)** 2 and 3 only

SSC CGL Tier-II 2023

**Q55. Which of the following options accurately sets out the operational details of National Waterways (NW) in India?**

1. NW-1 runs across the Ganga-Bhagirathi-Hooghly river system connecting Prayagraj to Haldia.
2. NW-2 runs along the Brahmaputra River from Sadiya to Dhubri near the Bangladesh border.
3. NW-3 is located along the West Coast Canal in Kerala, featuring a fully integrated navigation path.

**Select the correct code tracking correct items:**

- (A) 1, 2 and 3
- (B) 2 and 3 only
- (C) 1 and 3 only
- (D) 1 and 2 only

SSC CHSL Tier-II 2022

**Q56. Consider the following statements regarding the distribution of Iron Ore resources in India:**

1. The high-grade Magnetite ores possess excellent magnetic qualities and are heavily concentrated in Karnataka.
2. Hematite ore is the most abundant industrial variety mined in the eastern states of Odisha and Jharkhand.
3. Kudremukh mines export their entire low-grade ore in slurry form via pipelines to Mangaluru port.

**Which of the statements given above are correct?**

- (A) 1 and 3 only
- (B) 1 and 2 only
- (C) 1, 2 and 3
- (D) 2 and 3 only

SSC Selection Post Phase XI

**Q57. Assertion (A): Inland waterways carry less than 2% of India's total cargo transport volume despite being cost-effective and fuel-efficient.**

**Reason (R): Most Indian rivers suffer from extreme seasonal water volume fluctuations, high siltation rates requiring continuous dredging, and directional rapids.**

**Select the correct option:**

- (A) Both A and R are true but R is NOT the correct explanation of A.
- (B) A is true but R is false.
- (C) A is false but R is true.
- (D) Both A and R are true and R is the correct explanation of A.

SSC CGL Tier-II 2022

**Q58. Match List-I (Global Mining Node) with List-II (Dominant Mineral Resource Extracted):**  
**List-I**

- A. Katanga / Shaba (DR Congo)
- B. Chuquicamata (Chile)
- C. Kalgoorlie (Australia)
- D. Mesabi Range (USA)

**List-II**

- 1. Gold Reserves
- 2. Copper and Cobalt
- 3. High-grade Hematite Iron Ore
- 4. Massive Open-pit Copper Deposits

**Select the correct sequence matching:**

- (A) A-2, B-4, C-1, D-3
- (B) A-3, B-2, C-1, D-4
- (C) A-4, B-2, C-1, D-3
- (D) A-2, B-1, C-4, D-3

SSC CGL Tier-II 2023

**Q59. Consider the following statements about the 'Dedicated Freight Corridors' (DFC) of India:**

- 1. The Eastern DFC starts at Ludhiana in Punjab and terminates at Dankuni near Kolkata.
- 2. The Western DFC links Dadri in Uttar Pradesh to Jawaharlal Nehru Port Trust (JNPT) in Mumbai.
- 3. DFC routes allow double-stack container trains to operate at much higher speeds, bypassing passenger paths.

**Which of the statements given above are correct?**

- (A) 1 and 3 only
- (B) 1 and 2 only
- (C) 1, 2 and 3
- (D) 2 and 3 only

SSC CPO Tier-II 2022

**Q60.** Which of the following variables act as major impediments to the commercial utilization of solar and wind energy resources in India?

1. High initial capital infrastructure costs and long gestation periods.
2. Seasonal variability and supply intermittency depending on ambient weather elements.
3. Complete lack of viable storage batteries or advanced transmission grid capacities.

Select the correct answer using codes:

- (A) 1 and 2 only
- (B) 2 and 3 only
- (C) 1, 2 and 3
- (D) 1 and 3 only

SSC Selection Post Phase XI

**Q61.** Consider the following statements regarding the structural property profiles of Coal varieties in India:

1. Anthracite is the finest grade coal, found exclusively in small deposits within Jammu and Kashmir.
2. Lignite is a low-grade brown coal with high moisture content, concentrated heavily around Neyveli in Tamil Nadu.
3. Commercial metallurgy relies almost entirely on Bituminous coal due to its coking qualities.

Which of the statements given above are correct?

- (A) 1 and 3 only
- (B) 2 and 3 only
- (C) 1, 2 and 3
- (D) 1 and 2 only

SSC CGL Tier-II 2022

**Q62.** Assertion (A): Pipeline transit systems are rapidly becoming the preferred channel to transport liquid and gaseous resources across continental spans.

Reason (R): Though their initial installation costs are high, pipelines ensure zero operational maintenance expenses, completely eliminate transit delays, and suffer zero transit losses.

Select the correct analytical option:

- (A) Both A and R are true and R is the correct explanation of A.
- (B) A is false but R is true.
- (C) A is true but R is false.
- (D) Both A and R are true but R is NOT the correct explanation of A.

SSC CGL Tier-II 2023

**Q63. Match List-I (Nuclear Energy Resource Node) with List-II (State Location Axis):**

**List-I**

- A. Kakrapar**
- B. Kaiga**
- C. Narora**
- D. Kudankulam**

**List-II**

- 1. Karnataka**
- 2. Gujarat**
- 3. Tamil Nadu**
- 4. Uttar Pradesh**

**Select the correct matching sequence:**

- (A)** A-3, B-1, C-4, D-2
- (B)** A-1, B-2, C-4, D-3
- (C)** A-2, B-4, C-1, D-3
- (D)** A-2, B-1, C-4, D-3

SSC CPO Tier-II 2021

**Q64. Consider the following statements about global maritime pathways and trans-oceanic canals:**

- 1. The Suez Canal is a sea-level canal without locks, drastically cutting shipping distances between Europe and Asia.**
- 2. The Panama Canal uses a system of step-up and step-down locks to elevate ships over the mountainous continental divide.**
- 3. The Suez Canal charges significantly lower toll transit fees than the Panama Canal due to low maintenance variables.**

**Which of the statements given above are correct?**

- (A)** 1 and 2 only
- (B)** 2 and 3 only
- (C)** 1 and 3 only
- (D)** 1, 2 and 3

SSC CHSL Tier-II 2022

**Q65. Which of the following statements is NOT correct regarding the 'Mica' resources of India?**

- (A) Nellore in Andhra Pradesh is historically celebrated as one of the premier mica mining zones.
- (B) It is highly valued due to its excellent insulating properties and resistance to high voltage.
- (C) The leading mica producing belts are situated in Rajasthan, Jharkhand, and Andhra Pradesh.
- (D) Mica can only be mined from sedimentary alluvial beds and has high electrical resistance.

SSC CGL Tier-II 2023

**Q66. Consider the following statements about non-conventional energy resources in India:**  
**1. India possesses the largest reserves of Thorium in the world, concentrated heavily within the monazite sands of Kerala coastlines.**

**2. The Gulf of Khambhat and Gulf of Kutch in Gujarat hold immense potential for tidal wave energy resource extraction.**

**3. Geothermal test wells are currently operational at Manikaran in Himachal Pradesh and Puga Valley in Ladakh.**

**Which of the statements given above are correct?**

- (A) 1 and 2 only
- (B) 1, 2 and 3
- (C) 1 and 3 only
- (D) 2 and 3 only

SSC CGL Tier-II 2022

**Q67. Assertion (A): The Chotanagpur Plateau is widely termed as the 'Mineral Heart of India'.**

**Reason (R): It holds an extraordinarily high concentration of metallic ore resources alongside major Gondwana coal basins due to its ancient peninsular shield layout.**

**Select the correct option:**

- (A) Both A and R are true but R is NOT the correct explanation of A.
- (B) A is false but R is true.
- (C) A is true but R is false.
- (D) Both A and R are true and R is the correct explanation of A.

SSC CGL Tier-II 2023

**Q68. Match List-I (Major Oil field / Basin in India) with List-II (State/Location Matrix):**

**List-I**

- A. Digboi**
- B. Ankleshwar**
- C. Mangala**
- D. Ravva Structure**

**List-II**

- 1. Gujarat**
- 2. Assam**
- 3. Krishna-Godavari Offshore Basin**
- 4. Rajasthan (Barmer Basin)**

**Select the correct sequence:**

- (A) A-3, B-1, C-4, D-2**
- (B) A-2, B-1, C-4, D-3**
- (C) A-1, B-2, C-4, D-3**
- (D) A-2, B-4, C-1, D-3**

SSC CPO Tier-II 2021

**Q69. Consider the following statements regarding the structural property parameters of major copper mines in India:**

- 1. Malanjkhand in Madhya Pradesh contains massive open-cast operations producing the bulk of India's copper concentrate.**
- 2. The Khetri copper complex in Rajasthan is managed entirely by Hindustan Copper Limited.**
- 3. India is completely self-sufficient in copper reserves and exports surplus copper to international markets.**

**Which of the statements given above is/are NOT correct?**

- (A) 1, 2 and 3**
- (B) 2 and 3 only**
- (C) 3 only**
- (D) 1 and 2 only**

SSC CHSL Tier-II 2022

**Q70. Which of the following operational parameters cause structural friction or bottlenecks in the efficient working of Indian Railways?**

1. Multi-gauge track systems requiring tedious, time-consuming transshipment cycles.
2. Over-saturation of trunk routes where passenger express trains share identical track paths with cargo lines.
3. Outdated, pre-independent communication networks lacking automated train protection loops.

**Select the correct code identifying operational frictions:**

- (A) 1 and 2 only
- (B) 1, 2 and 3
- (C) 1 and 3 only
- (D) 2 and 3 only

SSC CGL Tier-II 2023

**Q71. Consider the following statements regarding 'Bauxite' and Aluminium production dynamics in India:**

1. Odisha stands out as the undisputed leader in bauxite production, with major deposits located in Panchpatmali hills.
2. The extraction process is highly energy-intensive, requiring aluminum smelting units to be located near cheap, perennially stable power grids.

**Which of the statements given above is/are correct?**

- (A) Neither 1 nor 2
- (B) 1 only
- (C) Both 1 and 2
- (D) 2 only

SSC Selection Post Phase XI

**Q72. Assertion (A): Visakhapatnam is an exceptionally well-protected maritime harbor despite being situated on a generic open coast.**

**Reason (R): A high, rugged rocky promontory cliff projection known as 'Dolphin's Nose' shields the anchorage basin from powerful monsoonal ocean storms.**

**Select the correct code:**

- (A) A is false but R is true.
- (B) Both A and R are true and R is the correct explanation of A.
- (C) A is true but R is false.
- (D) Both A and R are true but R is NOT the correct explanation of A.

SSC CGL Tier-II 2022

**Q73. Consider the following statements about the development of pipeline systems across India:**

- 1. The HVJ pipeline transports natural gas from South Bassein offshore fields to industrial hubs in Madhya Pradesh and Uttar Pradesh.**
- 2. The newly engineered pipelines allow solid resources like iron ore to be transported over hundreds of kilometers in crushed slurry form.**

**Which of the statements given above are correct?**

- (A)** Neither 1 nor 2
- (B)** 2 only
- (C)** 1 only
- (D)** Both 1 and 2

SSC CPO Tier-II 2022

**Q74. Match List-I (Minor Metal / Mineral Element) with List-II (Flagship Mining Repository Belt in India):**

**List-I**

- A. Chromite**
- B. Lead and Zinc**
- C. Gold**
- D. Monazite / Thorium**

**List-II**

- 1. Zawar Mines (Udaipur, Rajasthan)**
- 2. Sukinda Valley (Odisha)**
- 3. Coastal Beach Sands (Kerala Axis)**
- 4. Hutti / Hira-Buddini Belts (Karnataka)**

**Select the correct sequence layout:**

- (A)** A-1, B-2, C-4, D-3
- (B)** A-3, B-1, C-4, D-2
- (C)** A-2, B-4, C-1, D-3
- (D)** A-2, B-1, C-4, D-3

SSC CGL Tier-II 2023

**Q75. Which of the following segments are correctly classified under 'Renewable Flow Resources' that regenerate continuously across natural time bounds?**

1. Solar radiation cycles
2. Wind kinetic flows
3. Hydroelectric tidal surges
4. Liquid crude oil reserves

Select the correct answer using the codes below:

- (A) 1, 2, 3 and 4  
(B) 2, 3 and 4 only  
(C) 1 and 2 only  
(D) 1, 2 and 3 only

SSC CHSL Tier-II 2022

**Q76. Consider the following statements regarding the 'Manganese' resources of India:**

1. It serves as an essential raw input used to manufacture steel and ferro-manganese alloys.
2. Nearly 10 kg of manganese is consumed to fabricate one tonne of finished structural steel.
3. Major production lines are shared by Madhya Pradesh, Maharashtra, and Odisha.

Which of the statements given above are correct?

- (A) 2 and 3 only  
(B) 1 and 2 only  
(C) 1, 2 and 3  
(D) 1 and 3 only

SSC Selection Post Phase XI

**Q77. Assertion (A): Major seaports in India have been increasingly transformed into autonomous corporate business entities under landlord port models.**

**Reason (R): The transition shifts operational control to private harbor operators to maximize efficiency while the state retains ultimate regulatory land ownership.**

Select the correct option:

- (A) Both A and R are true but R is NOT the correct explanation of A.  
(B) A is false but R is true.  
(C) Both A and R are true and R is the correct explanation of A.  
(D) A is true but R is false.

SSC CGL Tier-II 2023

**Q78.** Consider the following statements regarding the ideal conditions required for the transport of high-value natural gas via cross-country pipelines:

1. Gas must be subjected to high-pressure compression at regular booster station intervals along the route to maintain velocity.
2. The pipeline must be lined with expensive anti-corrosive protective materials to withstand volatile chemical interactions.

Which of the statements given above is/are correct?

- (A) 1 only
- (B) Neither 1 nor 2
- (C) Both 1 and 2
- (D) 2 only

SSC CPO Tier-II 2021

**Q79.** Match List-I (Major Highway Transit System) with List-II (Connecting Endpoint Nodes):

**List-I**

- A. National Highway 44 (Old NH 7 axis)
- B. National Highway 1 (Old legacy axis)
- C. National Highway 16 (East coast axis)
- D. National Highway 19 (Historic grand trunk axis)

**List-II**

- 1. Delhi to Attari (near Amritsar border)
- 2. Srinagar to Kanyakumari
- 3. Delhi to Kolkata axis
- 4. Chennai to Kolkata coast strip

Select the correct sequence:

- (A) A-2, B-1, C-4, D-3
- (B) A-2, B-4, C-1, D-3
- (C) A-1, B-2, C-4, D-3
- (D) A-3, B-1, C-4, D-2

SSC CGL Tier-II 2022

**Q80.** Which of the following international transport networks links multiple landlocked Central Asian nations directly to ocean shipping routes across the Arabian Sea via Iran?

- (A) The Northern Maritime Trade route layout
- (B) Trans-Asian Railway network Line-A
- (C) The ancient CPEC highway loop link
- (D) International North-South Transport Corridor (INSTC)

SSC CHSL Tier-II 2022

**Q81. Consider the following statements about mineral distribution mechanics in India:**

- 1. Hydrothermal veins and structural cracks inside igneous rocks house major deposits of copper, lead, and zinc.**
- 2. Evaporation processes in arid lake terrains generate extensive beds of gypsum, rock salt, and sodium carbonate.**
- 3. Residual layers formed by intense surface weathering of parent rocks give rise to bauxite deposits.**

**Which of the statements given above are correct?**

- (A) 1 and 3 only
- (B) 2 and 3 only
- (C) 1, 2 and 3
- (D) 1 and 2 only

SSC CGL Tier-II 2023

**Q82. Assertion (A): The maritime ports on the western coast of India handle a higher volume of general container cargo compared to eastern coast ports.**

**Reason (R): Western coast harbors sit adjacent to deep natural waters and enjoy direct proximity to rich global trade routes linking Europe and the Middle East.**

**Select the correct code:**

- (A) Both A and R are true and R is the correct explanation of A.
- (B) Both A and R are true but R is NOT the correct explanation of A.
- (C) A is false but R is true.
- (D) A is true but R is false.

SSC CPO Tier-II 2022

**Q83. Consider the following statements regarding the 'National Green Hydrogen Mission':**

- 1. It aims to make India a leading global producer and supplier of green hydrogen resources.**
- 2. It intends to drastically reduce dependency on fossil fuel imports and lower industrial carbon footprints.**

**Which of the statements given above is/are correct?**

- (A) 1 only
- (B) 2 only
- (C) Both 1 and 2
- (D) Neither 1 nor 2

SSC Selection Post Phase XI

**Q84. Which of the following statements is correct regarding the characteristic structural layout of 'Broad Gauge' tracks under Indian Railways?**

- (A) The operational width separating the track rails is exactly 1.000 meter.
- (B) It is used exclusively across high-altitude montane terrains to allow trains to negotiate sharp curves.
- (C) The distance separating the inner faces of the running rails is exactly 1.676 meters.
- (D) It has been fully replaced by standard metric line gauges under project Unigauge.

SSC CGL Tier-II 2023

**Q85. Consider the following statements about Limestone and Cement industry inputs:**

1. Limestone is found in association with rocks composed of calcium carbonates or calcium and magnesium carbonates.
2. It serves as the primary, essential raw material input consumed inside cement factories.
3. Major geological repositories are shared across stratified sedimentary rock formations.

**Which of the statements given above are correct?**

- (A) 1 and 3 only
- (B) 1, 2 and 3
- (C) 2 and 3 only
- (D) 1 and 2 only

SSC CHSL Tier-II 2022

**Q86. Assertion (A): Nuclear power resources are heavily expanded under central energy mandates despite high installation hazards.**

**Reason (R): A minute volume of enriched uranium or thorium can produce a colossal amount of energy compared to traditional fossil fuels, minimizing carbon emissions.**

**Select the correct code:**

- (A) Both A and R are true and R is the correct explanation of A.
- (B) A is true but R is false.
- (C) Both A and R are true but R is NOT the correct explanation of A.
- (D) A is false but R is true.

SSC CGL Tier-II 2022

**Q87.** Consider the following statements regarding the distribution of Petroleum resources in India:

1. The Mumbai High and Cambay basins in Gujarat account for the bulk of India's onshore and offshore crude production lines.
2. The Krishna-Godavari deepwater offshore basin contains massive, newly mapped deposits of natural gas.
3. Digboi in Assam remains the oldest operational oil refinery asset in India.

Which of the statements given above are correct?

- (A) 1 and 2 only
- (B) 1 and 3 only
- (C) 1, 2 and 3
- (D) 2 and 3 only

SSC CPO Tier-II 2023

**Q88.** Match List-I (Major Industrial Pipeline Axis) with List-II (Transported Resource Commodity):

**List-I**

- A. Hazira - Vijaipur - Jagdishpur Axis
- B. Paradip - Haldia - Barauni Network
- C. Sukinda - Mangaluru Pipeline link
- D. Jamnagar - Loni Pipeline

**List-II**

1. Crude Oil / Petroleum
2. Natural Gas
3. Liquefied Petroleum Gas (LPG)
4. Iron Ore Slurry

Select the correct sequence layout:

- (A) A-2, B-4, C-1, D-3
- (B) A-2, B-1, C-4, D-3
- (C) A-1, B-2, C-4, D-3
- (D) A-3, B-1, C-4, D-2

SSC CGL Tier-II 2023

**Q89. Which of the following statement groups accurately defines the properties of 'Mineral Oil' and its formation mechanics?**

1. It occurs naturally within stratified sedimentary rock formations of the Cenozoic era.
2. Oil deposits are commonly trapped within the crests of anticlines or structural domes above dense salt beds.
3. Being less dense than water, petroleum floats above subterranean water levels inside porous rocks.

**Select the correct answer using the codes below:**

- (A) 1 and 2 only
- (B) 2 and 3 only
- (C) 1, 2 and 3
- (D) 1 and 3 only

SSC CHSL Tier-II 2022

**Q90. Consider the following statements about the distribution of Chromite resources in India:**

1. Over 90% of India's total proven chromite reserves are concentrated within a single state: Odisha.
2. The Sukinda valley ultramafic rock complexes form the cornerstone of chromite mining operations.

**Which of the statements given above is/are correct?**

- (A) 2 only
- (B) Both 1 and 2
- (C) 1 only
- (D) Neither 1 nor 2

SSC CGL Tier-II 2022

**Q91. Assertion (A): The Sagarmala project aims to radically reduce logistical transit times and costs for domestic and international cargo movement.**

**Reason (R): It focuses on expanding port-led industrialization, upgrading harbor capacities, and building high-speed rail-road corridors to link coastal ports to the hinterland.**

**Select the correct code:**

- (A) A is true but R is false.
- (B) A is false but R is true.
- (C) Both A and R are true but R is NOT the correct explanation of A.
- (D) Both A and R are true and R is the correct explanation of A.

SSC CGL Tier-II 2023

**Q92.** Consider the following statements about the 'Bharatmala Pariyojana' road network project:

1. It focuses on optimizing the efficiency of freight and passenger movement across the nation by bridging critical infrastructure gaps.
2. Development of border and international connectivity roads along with economic corridors forms a key priority under this scheme.
3. It has fully absorbed the Sagarmala project to merge maritime and road transits under a single board.

Which of the statements given above are correct?

- (A) 1 and 2 only
- (B) 2 and 3 only
- (C) 1 and 3 only
- (D) 1, 2 and 3

SSC CPO Tier-II 2022

**Q93.** Which of the following mineral groups are completely classified as 'Non-Ferrous Metallic Minerals' in India?

1. Copper
2. Bauxite
3. Lead and Zinc
4. Manganese

Select the correct code:

- (A) 1 and 2 only
- (B) 1, 2, 3 and 4
- (C) 2, 3 and 4 only
- (D) 1, 2 and 3 only

SSC Selection Post Phase XI

**Q94.** Consider the following statements regarding the physical and operational properties of 'Asbestos' resources:

1. It is a fibrous mineral resource possessing remarkable resistance to fire and chemical breakdown.
2. It is widely used to manufacture fireproof sheets, electrical insulations, and building materials.
3. Rajasthan stands as a leading producer and repository of asbestos in India.

Which of the statements given above are correct?

- (A) 1 and 3 only
- (B) 1 and 2 only
- (C) 2 and 3 only
- (D) 1, 2 and 3

SSC CGL Tier-II 2023

**Q95. Assertion (A):** The international trade route passing through the Suez Canal is highly preferred over the Cape of Good Hope path for European transits.

**Reason (R):** The Suez Canal completely eliminates the need to circumnavigate the entire continent of Africa, shortening the sea distance by thousands of miles.

**Select the correct options:**

- (A) A is false but R is true.
- (B) A is true but R is false.
- (C) Both A and R are true but R is NOT the correct explanation of A.
- (D) Both A and R are true and R is the correct explanation of A.

SSC CHSL Tier-II 2022

**Q96. Consider the following statements regarding the air transport network and institutional frameworks of India:**

1. Air transport was officially nationalized in India in the historic year 1953 under a central act.
2. The Airports Authority of India (AAI) is the apex body responsible for managing international, domestic, and civil enclaves across the country.

**Which of the statements given above is/are correct?**

- (A) 1 only
- (B) Neither 1 nor 2
- (C) 2 only
- (D) Both 1 and 2

SSC CGL Tier-II 2022

**Q97. Match List-I (Major Inland River Port / Waterway Node) with List-II (Flowing River Axis Alignment):**

**List-I**

- A. Kolkata Port**
- B. Sadiya**
- C. Kollam**
- D. Dhubri**

**List-II**

- 1. Brahmaputra River (Assam Upper node)**
- 2. Hooghly River Axis**
- 3. Brahmaputra River (Assam Border node)**
- 4. West Coast Canal System**

**Select the correct matching sequence:**

- (A)** A-3, B-1, C-4, D-2
- (B)** A-2, B-4, C-1, D-3
- (C)** A-2, B-1, C-4, D-3
- (D)** A-1, B-2, C-4, D-3

SSC CGL Tier-II 2023

**Q98. Which of the following structural variables explain why the development of major railway networks has been highly restricted across the desert tracts of Rajasthan and hilly north-eastern states?**

- 1. High topographical relief with steep slopes requiring continuous, expensive tunneling.**
- 2. Sandy terrains with loose soils that fail to support heavy railway track sleepers.**
- 3. Low population density and lack of major industrial shipping hubs to justify installation capital.**

**Select the correct code identifying restrictive variables:**

- (A)** 1, 2 and 3
- (B)** 1 and 3 only
- (C)** 2 and 3 only
- (D)** 1 and 2 only

SSC Selection Post Phase XI

**Q99.** Consider the following statements about the distribution of 'Thorium' and nuclear fuels as per recent survey maps:

1. The beach sands of Kerala, Tamil Nadu, and Odisha contain highly concentrated loads of monazite mineral.
2. Enriched monazite mineral can be processed directly inside atomic piles to generate electricity without complex extraction.
3. The processing of monazite produces thorium, which forms a vital pillar of India's three-stage nuclear power program.

Which of the statements given above are correct?

- (A) 1 and 2 only
- (B) 2 and 3 only
- (C) 1, 2 and 3
- (D) 1 and 3 only

SSC CGL Tier-II 2023

**Q100.** Consider the following statements regarding 'Renewable Energy' vs 'Non-Renewable Energy' operational resource metrics:

1. Non-renewable resources exist in absolute fixed quantities inside the earth and face terminal depletion upon continuous exploitation.
2. Renewable resources operate as infinite flows that replenish themselves continuously through biogeochemical cycles or physical forces.

Which of the statements given above is/are correct?

- (A) Neither 1 nor 2
- (B) Both 1 and 2
- (C) 1 only
- (D) 2 only

SSC CGL Tier-II 2022
