Council Of Ministers Of 18th Lok Sabha**Important Key Points**

- PM Modi will be leading a coalition government (BJP + NDA) after two full terms with a BJP majority.
- A total of 72 ministers were sworn-in by the President including Modi. With this, PM Modi now matches the achievement of Jawaharlal Nehru, who won the 1952, 1957 and 1962 general elections.
- The government aims to give priority to reforms and innovations in agriculture, health, education, industrial development, digital India, and foreign policy.
- The youngest minister in this cabinet is Ram Mohan Naidu Kinjarapu (Ministry of Civil Aviation).
- The Oldest minister in this cabinet is Jitan Ram Manjhi (Ministry of Micro, Small and Medium Enterprises).
- This time 7 women ministers have been given place in Modi cabinet. Out of these two (Nirmala Sitaraman & Smt. Annpurna Devi) have been given place in the cabinet while five have been given the status of Minister of State. Among these ministers, Raksha Nikhil Khadse is the youngest minister. Raksha Khadse has been given the charge of Minister of State in the Ministry of Youth Affairs and Sports.
- This is the first time in the history of India that the country's minority ministry has got its first Buddhist minister. Kiren Rijju has been made the Minister of Minority Affairs. Before this, no Buddhist leader was given the charge of the minority ministry.

Constitution (Amendment) Bill, 2026

- Introduced on 6 February 2026**
- By P. Wilson (Rajya Sabha MP & Senior Advocate)**

Need for the Bill

- Reservation exists for EWS but not in promotions
- Backward classes not adequately represented in higher posts
- Entry-level reservation not sufficient for real equality
- Promotion with representation needed for substantive equality

Proposed Amendments – What Changes

- Article 15** → Strengthens anti-discrimination by explicitly embedding *reservation in judicial appointments* for SCs, STs, OBCs, minorities, and women.
- Article 16** → Expands *equality in public employment* to allow **reservation in promotions** for backward classes.
- Article 124** → Alters SC appointments:
 - Mandates **proportional representation** of SC/ST/OBC/minorities/women.
 - Requires **consultation with State Governments** before elevating HC judges.
 - Collegium recommendations must be acted upon within **60 days.**
 - Introduces a **Memorandum of Procedure** for transparency.
- Article 130** → Changes SC structure:
 - One **Constitution Bench** at Delhi (constitutional cases only).
 - 4 Regional Benches** (Delhi, Chennai, Kolkata, Mumbai) with full jurisdiction otherwise.
- Article 217 & 224** → Alters HC judges' conditions:
 - Retirement age** raised from **62 to 65 years.**
 - Adjustments in appointment of additional/acting judges.
- Seventh Schedule (Census Entry)** → Moves "Census" from **Union List to Concurrent List**, allowing **States to conduct caste-based census** for welfare and reservation policies.

Finance Act, 2026

1. Basic Overview

- **Presented: 1 Feb 2026**
- Amendments in:
 - Income-tax Act 1961
 - Income-tax Act 2025
- **ITA 2025 applicable from 1 April 2026**
- **ITA 1961 repealed from 1 April 2026**

2. Key Amendments:

- **Capital Gains**
 - Exemption restored for Andhra Pradesh Land Pooling Scheme
 - Possession required before **31 March 2031**
- **Startup Benefit**
 - Turnover limit increased: **₹100 Cr → ₹300 Cr**
- **Penalty & Interest**
 - No interest on penalty during appeal period
 - Applicable from **1 April 2027**
- **Buyback Tax**
 - Taxed as **capital gains (not dividend)**
 - Extra tax only for Indian companies & promoter shareholders
- **Reassessment**
 - Minimum **30 days** to respond
 - Notice (court cases): within **3 months**
- **Faceless & Digital System**
 - Electronic authentication allowed (no DSC)
 - Tribunal orders uploaded online (real-time)
- **Tax Recovery**
 - Power to arrest taxpayers removed
- **Refund Adjustment**
 - Allowed between ITA 1961 & ITA 2025
- **Transition Rule**
 - Old years → ITA 1961 interest rules continue
- **New Development Bank (NDB)**
 - Given **full income tax exemption**
 - Based on BRICS Agreement
 - Reason: International obligation → **tax immunity**
- **Offshore Banking Units (OBU)**
 - Extra **10-year tax benefit**

Jan Vishwas (Amendment of Provisions) Act, 2026

- Introduced by **Jitin Prasada** (Union Minister of State for Commerce and Industry of India) (27 March 2026)
- **784 provisions amended** (79 Acts, 23 Ministries)

- **717 provisions decriminalised**
 - 👉 Jail → Monetary penalty / warning
- **Aim:**
 - 👉 Ease of Doing Business + Ease of Living
- **System changes:**
 - 👉 Adjudicating Officers + Appellate Authorities
- **67 amendments** (NDMC Act, Motor Vehicles Act)

SHANTI Bill 2025

- **SHANTI** — Sustainable Harnessing and Advancement of Nuclear Energy for Transforming India
- Introduced in — **Lok Sabha**
- Replaces — **Atomic Energy Act, 1962 & CLND Act, 2010**
- Allows — **Private & joint venture participation in nuclear power sector**
- Strategic activities remain under — **Government control**
- Statutory Status to — **Atomic Energy Regulatory Board (AERB)** → Accountable to Parliament
- Nuclear Liability — **Operator responsible; supplier liability removed**
- Operator Liability — **Capped according to plant capacity**
- Provides for — **Dedicated Atomic Disputes Tribunal**
- Promotes — **Small Modular Reactors (SMRs) & advanced nuclear technologies**
- Nuclear Energy Mission — **₹20,000 crore announced in Union Budget 2025-26**
- SMR Target — **At least 5 indigenous SMRs by 2033**
- Nuclear Power Target — **100 GW by 2047**
- Supports — **Energy security & Net-Zero 2070 goal**

Sabka Bima Sabki Raksha (Amendment of Insurance Laws) Act, 2025

📅 Passed on **17 December 2025** by Parliament.

📄 Acts Amended

- Insurance Act, 1938
- Life Insurance Corporation Act, 1956
- Insurance Regulatory and Development Authority Act, 1999

🔑 Key Features

1. Foreign Direct Investment (FDI)

- Up to **100% FDI allowed** in insurance companies

- Benefits: capital augmentation, advanced technology adoption, global best practices, employment generation
- Increased competition → efficiency in products & services

2. Ease of Doing Business

- **Intermediaries:**
 - One-time licensing introduced
 - Suspension of license allowed (instead of outright cancellation)
- **Insurers:**
 - Prior regulatory approval for share transfer raised from 1% → 5%
 - Net Owned Fund requirement for Foreign Reinsurance Branches reduced from ₹5,000 Cr → ₹1,000 Cr
- **LIC:**
 - Autonomy to open Zonal offices in India
 - Foreign offices to align with local jurisdiction laws

3. Policyholder Protection

- Creation of **Policyholders' Education and Protection Fund**
- Policyholder data protection aligned with **DPDP Act, 2023**

4. Regulatory Governance

- Standard Operating Procedure (SOP) for regulation-making → consultative process mandated
- **IRDAI powers enhanced:**
 - Can disgorge wrongful gains from insurers/intermediaries
- Penalties rationalised with defined factors for imposition

🎯 Objectives of the Bill

- Extend insurance coverage to people, households, enterprises
- Deepen penetration of insurance in India
- Promote ease of doing business in insurance sector
- Strengthen regulatory oversight & governance
- Enhance financial resilience of Indian economy

Waqf (Amendment) Act, 2025

Officially titled the **Unified Waqf Management, Empowerment, Efficiency and Development (UMEED) Act**—was proposed by the Ministry of Minority Affairs, Government of India.

It was introduced in Parliament as **Bill No. 109-C of 2024**, passed by the **Lok Sabha on 3rd April 2025**, and later received **Presidential assent**, becoming law.

🕌 What is Waqf?

- **Definition:** A waqf is a **permanent dedication of movable or immovable property** by a Muslim for religious, charitable, or pious purposes under Islamic law².
- **Nature:** Once declared as waqf, the property becomes **inalienable**—it cannot be sold, inherited, or gifted. It is considered to be held in trust for the benefit of the community or a religious cause.

📖 Background

- **Original Act:** Waqf Act, 1995
- **Amendment Passed:** April 2025
- **Purpose:** Reform governance, transparency, and efficiency in Waqf property management

🏛️ Key Changes Introduced

- **Formation of Waqf:**
 - Waqf by user removed; now only by declaration or endowment
- **Digital Registration:**
 - Mandatory online registration of all Waqf properties within 6 months
- **Tribunal Restructuring:**
 - New composition: District Judge, Joint Secretary-level officer, and Muslim law expert
- **Inclusion of Non-Muslims:**
 - Non-Muslims can be appointed to Waqf Boards and Tribunals to improve transparency
- **Application of Limitation Act:**
 - Section 107 repealed; allows adverse possession claims after 12 years
- **Repeal of Mussalman Wakf Act, 1923:**
 - Eliminates outdated law to unify Waqf governance

⚠️ Major Issues Addressed

- **Misuse of Section 40:**
 - Prevents arbitrary declaration of private property as Waqf
- **Poor Property Surveys:**
 - Addresses delays and inefficiencies in property mapping across states
- **Judicial Oversight:**
 - Enhances legal accountability by restructuring tribunals

Constitution (130th Amendment) Bill, 2025

proposed by Union Home Minister Amit Shah in the Lok Sabha in August 2025.

🏛️ Purpose of the Bill

- To ensure **constitutional morality, good governance, and public trust**
- Targets ministers **under serious criminal charges** while in office
- Prevents misuse of power by those in **custody for grave offences**

⚖️ Key Provisions

- **Automatic Removal of Ministers:**
 - If a minister (including PM/CM) is **arrested and detained for 30 consecutive days** for an offence punishable with **5+ years imprisonment**, they must vacate office
- **Articles Amended:**
 - **Article 75** – Union Ministers
 - **Article 164** – State Ministers
 - **Article 239AA** – Ministers in Delhi
- **Removal Process:**
 - **President/Governor/LG** must act on advice of PM/CM by Day 31
 - If no advice is given, **automatic removal** takes effect
- **Prime Minister/Chief Minister Clause:**
 - Must **resign by Day 31** if detained; else automatically removed
- **Reappointment Allowed:**
 - Ministers can be reappointed after release from custody

Digital Personal Data Protection (DPDP) Rules, 2025

🏛️ Background & Linkage to DPDP Act, 2023

- The **DPDP Act, 2023** is India's landmark privacy law that governs how **digital personal data** is collected, processed, stored, and shared.
- The **Draft DPDP Rules, 2025**, released by the **Ministry of Electronics and Information Technology (MeitY)** on **January 3, 2025**, are designed to **operationalize** the Act by:
 - Defining procedures
 - Setting compliance standards
 - Clarifying enforcement mechanisms

These Rules are the **implementation blueprint** for the Act—without them, the law remains a broad framework.

📄 Key Features of the Draft DPDP Rules, 2025

👤 Data Principal Rights

- Individuals (called **Data Principals**) have the right to:
 - **Access, correct, and erase** their personal data
 - **Nominate** someone to manage their data in case of death or incapacity
 - Receive **48-hour notice** before data erasure

🏢 Data Fiduciary Obligations

- Entities processing data (called **Data Fiduciaries**) must:
 - Implement **reasonable security safeguards**
 - Appoint **Data Protection Officers**
 - Notify users of **data breaches** promptly
 - Provide **clear, itemized notices** in simple language

👶 Children's Data Protection

- Requires **verifiable parental consent** for processing children's data
- **Behavioral monitoring and targeted advertising** for children are **strictly prohibited**

🌐 Cross-Border Data Transfer

- Allowed unless **restricted by the Central Government** to specific countries or territories

🛡️ Data Protection Board of India (DPBI)

- Will function as a **digital-first grievance redressal body**
- Has powers similar to a **civil court**
- Citizens can file complaints **online**, without physical presence

📋 Consent Managers

- Must be **Indian companies** with a **minimum ₹2 crore net worth**
- Help users manage and withdraw consent easily

📊 Graded Compliance

- **Startups & MSMEs:** Lower compliance burden
- **Significant Data Fiduciaries** (e.g., Meta, Amazon): Higher obligations

⚖️ Enforcement & Penalties

- Penalties for non-compliance range from:
 - ₹10,000 for individuals
 - Up to ₹250 crore for companies
 - ₹200 crore for failure to notify breaches

🌐 Digital-First Governance

- The Rules embrace a **"digital by design"** philosophy:
 - Consent, grievance redressal, and Board operations are all **online-first**

- Promotes **Ease of Living** and **Ease of Doing Business**

Why It Matters

- These Rules **activate** the DPDP Act, making it enforceable
- They strike a balance between **privacy protection** and **innovation**
- Seen as a **global template** for data governance in emerging economies

Constitutional Articles Linked to DPDP Act

Article 21 – Right to Life and Personal Liberty

- The **foundation of the right to privacy** in India.
- In the landmark **K.S. Puttaswamy v. Union of India (2017)** case, the Supreme Court declared **privacy as a fundamental right** under Article 21.
- The DPDP Act was enacted to give **statutory protection** to this right in the digital age.

Article 19(1)(a) – Freedom of Speech and Expression

- The Act indirectly affects this right by regulating access to personal data.
- Critics argue that **amendments to the RTI Act** (via Section 44(3) of DPDP Act) may **limit transparency**, impacting the public's ability to access information.

Article 14 – Right to Equality

- The Act must ensure **non-discriminatory treatment** of individuals and businesses.
- Concerns have been raised about **executive overreach** and **lack of independent oversight**, which could violate Article 14 if not properly balanced.

Conflict with RTI Act

- **Section 8(1)(j) of the RTI Act, 2005** previously allowed disclosure of personal data if public interest justified it.
- **DPDP Act overrides this clause**, limiting access to personal data even in public interest cases.
- This raises constitutional questions about balancing **privacy vs. transparency**.

Immigration & Foreigners Act, 2025

proposed by the Union Ministry of Home Affairs and introduced in the Lok Sabha on March 11, 2025.

Key Highlights

- **Purpose:** Regulates entry, stay, and exit of foreigners in India; replaces outdated colonial-era laws
- **Enforced:** 1 Sep 2025
- **Acts Repealed:**

- Passport (Entry into India) Act, 1920
- Registration of Foreigners Act, 1939
- Foreigners Act, 1946
- Immigration (Carriers' Liability) Act, 2000

Major Provisions

- **Visa & Passport Mandatory:** Foreigners must have valid visa and passport to enter India
- **Foreigners Classified:** Tourists, students, skilled workers, business visitors, refugees, illegal immigrants
- **Digital Registration:** Mandatory registration with immigration officers on arrival
- **Bureau of Immigration:** New central agency to manage immigration functions
- **Institutional Reporting:** Hotels, airlines, colleges, and hospitals must report foreigner details

Security & Enforcement

- **Stricter Controls:** Enhanced tracking, deportation, and detention mechanisms
- **National Security Focus:** Prevents illegal entry and misuse of immigration routes

Banking Laws (Amendment) Act, 2025

proposed by the Ministry of Finance, Government of India, and officially notified on 15th April 2025.

It was introduced as part of a broader effort to modernize India's banking framework, improve governance, and align cooperative banks with constitutional norms.

The Act came into effect on 1st August 2025, with key provisions activated through Gazette Notification S.O. 3494(E).

Key Amendments (Total: 19)

Acts Amended:

- Reserve Bank of India Act, 1934
- Banking Regulation Act, 1949
- State Bank of India Act, 1955
- Banking Companies (Acquisition and Transfer of Undertakings) Acts, 1970 & 1980

Major Provisions

- **Substantial Interest Threshold Raised:**
 - From ₹5 lakh to ₹2 crore to curb insider control
- **Cooperative Bank Director Tenure:**
 - Increased from 8 to 10 years (excluding chairperson & whole-time directors)
- **Unclaimed Assets:**
 - PSBs can transfer unclaimed shares and proceeds to the Investor

Education and Protection Fund (IEPF)

- **Audit Reform:**
 - PSBs can now decide auditor remuneration, improving audit quality
- **Streamlined Reporting to RBI:**
 - Reporting now aligned with fortnightly/monthly/quarterly cycles instead of weekly

Promotion & Regulation of Online Gaming Bill, 2025

Proposed by: Union Minister **Ashwini Vaishnaw**, Ministry of Electronics & Information Technology (MeitY), **Introduced in Lok Sabha:** August 2025, **Passed by Parliament:** 21st August 2025

Key Objectives

- **Ban harmful online money games** (e.g., fantasy sports, poker, rummy)
- **Promote safe digital gaming** like e-sports, educational, and social games
- **Protect youth and families** from addiction, financial ruin, and fraud

- **Establish a national regulatory framework** for the gaming sector

Major Provisions

- **Online Money Games Prohibited:**
 - Includes games involving financial stakes, regardless of skill or chance
 - Ads, payments, and promotions for such games are banned
- **E-Sports Recognized:**
 - Officially accepted as competitive sport; training academies to be set up
- **Social & Educational Games Promoted:**
 - Safe, age-appropriate games encouraged for learning and recreation
- **Online Gaming Authority:**
 - National-level body to classify games, register platforms, and resolve complaints
- **Strict Penalties:**
 - Up to ₹1 crore fine and 3 years jail for running banned games
 - ₹50 lakh fine and 2 years jail for advertising them

New Major Laws 2024-25

Bhartiya Nyaya Sanhita (BNS), 2023

Replaces: Indian Penal Code (IPC), 1860

Effective from: 1 July 2024

Total Sections: 358 (sections reduced from IPC's 511)

Objective: To decolonise and modernise India's criminal law by replacing the colonial IPC with a justice-centric, victim-oriented code that uses technology and Indian values of fairness and rehabilitation.

Structural Overview

- **20 Chapters / 358 Sections:** Reorganised for clarity and logical sequencing.
- **Dedicated Chapter V:** Crimes against women and children given exclusive focus.
- **Chapter VI:** Crimes affecting the human body.
- **Consolidation:** Related offences merged for simplified interpretation and uniform penalties.

Key Features and Reforms

- **Justice-Centric Approach:** Emphasises Indian principles of restitution, rehabilitation, and victim dignity rather than colonial retribution.

- **Sedition Replaced (Section 152):** IPC Section 124A (Sedition) abolished; now penalises acts against **India's sovereignty, unity, and integrity**.
- **Community Service Introduced:** For petty offences – the first-ever statutory provision for community service in Indian criminal law.
- **Gender-Neutral Language:** Sexual offences phrased to include **all genders**, expanding protection beyond women.
- **Mob Lynching Explicitly Criminalised:** Introduced for the first time with collective liability for mob participants.
 - **Section 103(2) – Group Murder Based on Identity**
 - Applies when five or more persons kill based on race, caste, religion, sex, language, place of birth, or belief.
 - Punishment – **Death or life imprisonment + fine**.
 - **Section 117(4) – Group Grievous Hurt Based on Identity**

- For mob-caused grievous hurt on the same grounds.
- Punishment – **Up to 7 years + fine.**

► **Marks India's first explicit anti-lynching law and identity-violence deterrent.**

- **Organised Crime & Terrorism Defined:**
Clear definitions and strict punishments for syndicates and terror acts absent in the IPC.
- **Juvenile Justice Reform:**
Rehabilitation-focused measures instead of incarceration; aligns with modern criminology.
- **Victim-Centric Provisions:**
Fast-track trials for rape, acid attack and sexual assault; mandates victim compensation and privacy protection.
- **Digital Integration:**
Legal recognition to **crime-scene videography, e-FIR, electronic summons and digital evidence.**
Encourages **AI-based tracking and data recording** for police investigations.

Additional Modern Reforms (Added for Completeness)

- **Virtual Court Hearings:**
BNS supports **e-proceedings and virtual trials** to reduce delay and improve access to justice, especially in remote areas.
- **Cybercrime and Identity Theft:**
Offences such as **stealing personal information, creating fake profiles, digital impersonation and fraud** are now recognised as punishable cybercrimes.
- **Terror and National Security Enhancement:**
Expands definition of terrorism to include **digital funding, cyber-terror, and data-breach attacks** on critical infrastructure.
- **Organised Crime Network Prosecution:**
Provides for joint liability of gang leaders, financiers, and collaborators in crime syndicates.
- **Protection of Public Servants & Accountability:**
Introduces balanced provisions to punish **obstruction of public duty** while safeguarding officials acting in good faith.
- **AI and Digital Forensics:**
Encourages use of AI, digital forensic tools and surveillance technology for evidence gathering under judicial oversight.
- **Expanded Definitions of Sexual Assault and Consent:**

Clarifies that consent must be **free, informed, and uncoerced**; recognises digital harassment and revenge-porn as offences.

- **Property and Economic Offences Recast:**
Fraud, breach of trust, and cheating offences updated for digital transactions and cryptocurrency-based crimes.

Why It Matters

- Replaces a 163-year-old colonial law with an Indian-context code.
- Prioritises **victims and rehabilitation** over mere punishment.
- Introduces **identity-based violence and mob accountability** for the first time.
- Brings India's criminal system in line with **21st-century technological realities.**
- Integrates **virtual trials, e-records, and cybercrime prosecution** into mainstream law.

Bhartiya Nagrik Suraksha Sanhita (BNSS), 2023

Replaces: Criminal Procedure Code (CrPC), 1973

Effective From: 1 July 2024

Total Sections: 531

Aim: To modernise India's criminal procedure through a **technology-driven, transparent, time-bound, and victim-centric system** of justice.

Key Highlights

- **Speedy Justice Mandate:**
Charges must be framed within **90 days**, and judgments delivered within **45 days** after trial completion.
- **E-FIR & Zero FIR:**
FIRs can be filed **online** or at any police station, regardless of jurisdiction.
- **Digital Summons, Warrants & Notices:**
May be served via **email, WhatsApp, SMS, or other electronic means.**
- **Mandatory Forensic Investigation:**
For offences punishable with **7 years or more**, forensic teams must visit and **videograph the crime scene.**
- **Custodial Safeguards:**
Stronger provisions against torture and abuse; police must inform the arrested person about **reasons for arrest and right to bail.**
- **Victim & Witness Protection:**
Victim statements to be recorded within **30 days**; identities protected.

Video conferencing and concealment allowed for vulnerable witnesses.

- **AI & Surveillance Legalised:**
Authorised use of **AI tracking tools, drones, and body cameras** during investigation.
- **Digital Case Tracking:**
Courts and police to maintain **real-time digital records** of FIRs, investigations, and trials.

Procedural & Legal Reforms

- **Police Custody Limit:**
Maximum **15 days total**, even if granted periodically by a magistrate.
- **Default Bail Periods:**
 - Offences punishable with **less than 10 years** → **60 days**
 - Offences punishable with **10 years or more** → **90 days**
- **Court Granting Default Bail:**
Magistrate may grant default bail after expiry of investigation period.
- **Section 105 – Videography of Search & Seizure:**
Makes video recording of such operations **mandatory**.
- **Video-Recorded Confessions:**
Permitted to ensure **transparency** and reduce coercion.
- **Zero FIR Concept:**
Victims can register an FIR anywhere; later transferred to the proper jurisdiction.
- **Section 176(2):**
Mandates **judicial inquiry** in all **custodial deaths or police encounters**.
- **Trial in Absentia:**
Allows trial of **proclaimed offenders**, particularly **economic fugitives**, ensuring justice even if accused absconds.
- **Community Service as Punishment:**
Introduced for **petty offences**, promoting **restorative justice** over imprisonment.
- **Sanction for Prosecution of Public Servants:**
Must be decided within **120 days**; if not, it is **deemed granted**—ensuring accountability.
- **Plea Bargaining & Compounding:**
Retained and streamlined to encourage **speedy disposal** of minor cases.
- **Electronic Evidence Handling:**
Provides clarity on **admissibility and authentication** of electronic records, including **metadata and logs**.

- **Digital Case Diary:**
Police must maintain a **digital diary** accessible to courts for transparency.
- **Child-Friendly Procedures:**
Statements of minors to be recorded in **child-friendly environments** with interpreters or guardians present.
- **Digital Access to Case Files:**
Accused and victims can access **FIRs, charge-sheets, and evidence** digitally.
- **Appeals:**
Must be disposed of within **one year** from filing date.
- **Women & Child Protection:**
Female officers to record statements; guardian/interpreter presence ensured.

Why It Matters

- Replaces a **50-year-old criminal procedure law** with a modern, digital system.
- Enhances **speed, transparency, and accountability** in justice delivery.
- Strengthens **victim rights, forensic integrity, and police accountability**.
- Aligns with **Digital India** and **ease-of-justice** vision.

Bhartiya Sakshya Adhiniyam (BSA), 2023

Replaces: Indian Evidence Act, 1872

Effective from: 1 July 2024

Total Sections: 170

Objective: To modernise India's evidence law in tune with **digital technology, forensic science, and transparency**, ensuring that both physical and electronic evidence remain credible and verifiable.

Key Features

- **Digital Evidence Recognised:**
Emails, SMS, WhatsApp chats, CCTV footage, cloud logs, and metadata are **admissible** if properly certified.
- **Simplified Certification (Section 63(4)):**
Replaces old Section 65B(4); allows **self-generated certificates** for electronic records, streamlining admissibility.
- **Chain of Custody Protocols:**
Mandates a documented trail for both physical and digital evidence to preserve integrity and prevent tampering.

- **Dead Person's Statement (Section 26):**
Statements of deceased persons are admissible if relevant to the case (**akin to a dying declaration** but broader in scope).
- **Confession Rules Retained:**
Confessions to police officers remain inadmissible **unless recorded before a Magistrate**.
- **Public Records & Maps Admissible:**
Certified government documents, maps, and digital plans are accepted as valid evidence.
- **Judgment Relevance Expanded:**
Earlier judgments may be used to **avoid retrial or serve as precedent** in related cases.

Major Additions & Clarifications

- **Expert Witnesses Formalised:**
The BSA now formally recognises **expert testimony** — forensic, medical, handwriting, and digital analysts — providing technical clarity in courts.
- **Oral vs Documentary Evidence:**
Oral evidence must be **direct** (what the witness saw, heard, or perceived); documentary evidence includes **physical and electronic records**.
- **Secondary Evidence (photocopies/scans):**
Admissible **only when originals are lost, destroyed, or unavailable**, and must be **authenticated** for genuineness.
- **Electronic Record Admissibility:**
Secondary electronic records (e.g., screenshots, duplicates) require a **certificate under Section 63(4)**.
- **Metadata & Server Logs:**
Explicitly admissible now — includes **timestamps, digital footprints, and server logs** — vital for cybercrime investigations.
- **Video Conferencing for Witnesses:**
Enables **remote testimony**, especially for vulnerable or threatened witnesses; supports victim-centric justice.
- **Presumption of Authenticity:**
Courts may **presume electronic records genuine** if produced from a secure, reliable digital system — reduces manual verification delays.
- **Forensic Alignment:**
Designed to integrate with **forensic science protocols** — ensuring tamper-proof

handling and expert interpretation of evidence.

Why It Matters

- Updates a 150-year-old law to fit the **digital and forensic age**.
- Strengthens **data authenticity, transparency, and speed of justice**.
- Enables **electronic and remote evidence** admission.
- Simplifies procedures for **electronic record certification and forensic handling**.
- Bridges the gap between traditional and modern forms of proof.

Labour Law Reforms, 2025

Date of Implementation

- Effective from **21 November 2025** (Government notification, PIB)

Background

- Consolidation of **29 labour laws** into **4 Labour Codes**:

1. **Code on Wages, 2019**
2. **Industrial Relations Code, 2020**
3. **Social Security Code, 2020**
4. **Occupational Safety, Health and Working Conditions Code, 2020**

Key Features

- **Timely Payment of Wages**
 - Salary must be paid by the **7th of every month**.
 - Ensures financial security and prevents wage delays.
- **Appointment Letter Mandatory**
 - Every employee must be given a **formal appointment letter**.
 - Promotes transparency and reduces disputes in employment relations.
- **Gig & Platform Workers**
 - For the first time, **gig and platform workers** are included under social security coverage.
 - Benefits: Provident Fund, ESI, pension, insurance schemes.
 - Recognition of digital economy workforce.
- **Industrial Relations**
 - Strikes require prior notice → promotes industrial peace.
 - Flexibility in hiring and exit policies, balanced with worker safeguards.
- **Occupational Safety & Health**
 - Modernised workplace safety standards.

- Women permitted in night shifts with mandatory safety provisions.

- Supports **Aatmanirbhar Bharat** by creating a future-ready workforce.

Impact

- Employment increased from **47.5 crore (2017-18)** to **64.33 crore (2023-24)** → net addition of **16.83 crore jobs**.
- Aligns India's labour ecosystem with **global standards**.

Objectives

- Simplify and rationalise labour laws.
- Protect workers' rights and welfare.
- Expand social security net to informal and gig workers.
- Promote ease of doing business.
- Ensure industrial harmony and productivity.

Upcoming Targets of Indian Government

Target	By Year
Achieving self-sufficiency in the coal sector.	2025 - 2026
Efforts to reduce road accident fatalities by 50%.	2030
India aims to become a \$5 trillion economy.	2027-28
Achieving fiber optic connectivity in all villages.	2030
Efforts to eliminate tuberculosis (TB).	2025
Increasing fish exports to ₹1 trillion.	2030
Achieving self-sufficiency in Urea, Stop of Urea Imports	2026
India is working toward a \$1 trillion digital economy.	2028
Achieving a 30% electric vehicle share in the total vehicle fleet.	2030
Achieving 280 GW of solar power capacity and reducing carbon emissions by 1 billion tonnes	2030
Eradicating malaria	2030
eliminating lymphatic filariasis	2027
Odisha targets becoming a child marriage-free state.	2030
Eliminating rabies as a public health concern.	2030
Achieving 5% biodiesel blending in regular diesel.	2030
Achieving 100 million tonnes of coal gasification.	2030
Achieving 500 GW non-fossil fuel based electricity capacity	2030
Making Indian Railways completely carbon-neutral.	2030
Eliminating HIV/AIDS as a public health issue.	2030
India's nuclear energy capacity to reach 22,480 MW.	2031
Eliminating sickle cell anemia as a health issue.	2047
Reducing hydrofluorocarbon (HFC) usage by 80%.	2047
Aims to become a Top-5 global shipbuilding nation	2047
India plans to achieve energy independence.	2047
Mumbai aims to become a net zero-carbon city.	2050
India aims to achieve Net-Zero emissions	2070

Union Budget 2026-27

Important Points

- As per **Article 112** of the Constitution, Budget is known as Annual Financial Statement of the Government.
- The term '**Budget**' is **not mentioned in the Constitution**.
- Department of Economic Affairs (DEA)** in the Ministry of Finance is responsible for preparing the Union Budget.
- Interim Budget** is a short-term financial plan that covers government expenses until the elections.

- The Parliament passes a **vote-on-account** through the interim Budget.
- There is **no constitutional provision** for an interim budget.

Union Budget 2026 – 2027

1. Introduction

- The **Union Minister of Finance and Corporate Affairs** presented the **Union Budget 2026–27** in Parliament.
- It is the **first Budget prepared in Kartavya Bhawan**.
- The Budget is described as a **“Yuva Shakti-driven Budget”** aligned with **Viksit Bharat vision**.
- It follows principles:
 - **Action over Ambivalence**
 - **Reform over Rhetoric**
 - **People over Populism**

2. Three Kartavyas (Duties)

- **Sustain Economic Growth** → Improve productivity, competitiveness, resilience.
- **Fulfill Aspirations** → Build capacity of youth and citizens.
- **Sabka Saath, Sabka Vikas** → Inclusive development with focus on **last mile**.

3. First Kartavya: Accelerate & Sustain Economic Growth

(A) Manufacturing & Industry

- Focus on **7 strategic sectors**.
- **Biopharma SHAKTI**
 - Outlay: **₹10,000 crore (5 years)**
 - Focus on **biologics & biosimilars**
 - Support: **3 new NIPERs + 7 upgraded institutes + CDSCO strengthening**
- **India Semiconductor Mission 2.0**
 - Focus on **equipment, materials, supply chains**
 - Industry-led **R&D + training centres**
- **Electronics Manufacturing Scheme**
 - Increased to **₹40,000 crore (from ₹22,919 crore)**
- **Rare Earth Corridors & Chemical Parks**
 - States: **Odisha, Kerala, Andhra Pradesh, Tamil Nadu**
 - Focus on **REPM + import reduction**
- **Capital Goods & Container Manufacturing**
 - **Hi-Tech Tool Rooms + CIE Scheme + ₹10,000 crore scheme**
- **Textile Sector Push**

- Includes: **National Fibre Scheme, Samarth 2.0, Tex-Eco Initiative**
- Focus on **Mega Textile Parks**
- **Gram Swaraj & Sports Goods**
 - Strengthening **khadi, handloom, handicrafts**
 - Sports goods manufacturing initiative
- **Legacy Industrial Sectors**
 - Revival of **200 clusters**
- **Champion MSMEs**
 - **₹10,000 crore SME Growth Fund**
 - Additional **₹2,000 crore Self-Reliant India Fund**
 - **Corporate Mitras** for support

(B) Infrastructure

- **High-Speed Rail Corridors (7 routes)**
 - Example: **Mumbai–Pune, Delhi–Varanasi, Varanasi–Siliguri**
- **Freight & Waterways**
 - **Dedicated Freight Corridors (Dankuni–Surat)**
 - **20 National Waterways**
 - Cargo shift target: **6% → 12% by 2047**
- **Seaplane VGF Scheme** → Improve connectivity & tourism
- **Infrastructure Risk Guarantee Fund** → Credit support to lenders
- **City Economic Regions (CERs)**
 - Allocation: **₹5,000 crore per CER (5 years)**
- **Carbon Capture (CCUS)** → For steel & cement sectors

4. Second Kartavya: Fulfill Aspirations & Build Capacity

- **AVGC Content Creator Labs**
 - In **15,000 schools + 500 colleges**
- **National Institute of Hospitality**
 - Upgrade of existing council
- **Khelo India Mission**
 - Focus on **talent, coaching, infrastructure**
- **Medical Value Tourism**
 - **5 regional medical hubs** with AYUSH & rehab

- **Women in STEM**

- **Girls' hostel in every district**

5. Third Kartavya: Sabka Saath, Sabka Vikas

- **Bharat-VISTAAR** → AI-based agriculture advisory platform
- **SHE Marts** → Community retail outlets
- **Mental Health**
 - **NIMHANS-2 + upgrades in Ranchi & Tezpur**
- **Purvodaya & North-East**
 - **Buddhist Circuits**
 - **East Coast Industrial Corridor (Durgapur node)**
 - **5 tourism destinations**
- **Divyangjan Support** → Welfare schemes focus

6. Tax Reforms

- New Income Tax Act 2025 (from 1 April 2026)
- **No change in tax slabs**
- TCS reduced to 2%
- TDS fixed at 1% / 2%
- Decriminalization of certain offences
- Customs duty reduced (20% → 10%)
- **17 cancer drugs exempted**
- **STT increased (0.1% → 0.15%)**
- MAT exemption for non-residents
- Buyback tax shifted to shareholders

7. Strategic Incentives

- **Data centers tax holiday till 2047**
- **IFSC tax holiday extended to 20 years**
- Critical minerals duty exemption
- **IT Safe Harbour threshold** → ₹2,000 crore

8. Macroeconomic Indicators

- **Fiscal Deficit:** 4.3% of GDP
- **Debt-GDP:** 55.6% (target 50% by 2030-31)
- **Capex:** ₹12.2 lakh crore
- **Effective Capex:** ₹17.1 lakh crore
- **Nominal GDP growth:** 10.5%
- **Real GDP growth:** ~7%

9. Concerns

- Global slowdown risks
- Revenue shortfalls (GST, income tax)
- Low private consumption (~60% GDP)
- Implementation challenges
- Jobless growth risk
- Green transition resource pressure
- Uncertain capital flows (FPI, FDI)
- External aid prioritisation issues

10. Measures Suggested

- Boost demand + investment together
- Secure critical minerals supply
- Increase R&D spending
- Skill development (Skill India 2.0)
- Focus on outcomes, not outlays
- Correct inverted duty structures

Income Slabs	Tax Rate
0 – 4 Lakh rupees	NIL
4 – 8 Lakh rupees	5 per cent
8 – 12 Lakh rupees	10 per cent
12 – 16 Lakh rupees	15 per cent
16 – 20 Lakh rupees	20 per cent
20 – 24 Lakh rupees	25 per cent
Above 24 Lakh rupees	30 per cent

PART B: Schemes, Initiatives & Governance

2026 State-Wise Schemes

Viksit Bharat-Guarantee for Rozgar and Ajeevika Mission (VB-G RAM-G) Act, 2025

Background of Rural Employment in India

- Since Independence, rural development policies focused on **poverty reduction, employment generation, and infrastructure creation**.
- Early wage employment schemes:
 - Rural Manpower Programme (1960s)
 - Crash Scheme for Rural Employment (1971)
 - National Rural Employment Programme & RLEGP (1980s)
 - Jawahar Rozgar Yojana (1993)
 - Sampoorna Grameen Rozgar Yojana (1999)
- **Maharashtra Employment Guarantee Act, 1977** introduced the idea of a **statutory right to work**.
- These experiences culminated in **MGNREGA (2005)**, providing a nationwide legal guarantee of employment.

MGNREGA: Achievements and Limitations

Achievements

- Guaranteed **100 days of wage employment** per rural household.
- Improved **livelihood security and rural incomes**.
- Strong digital reforms:
 - Women's participation increased ($\approx 48\% \rightarrow$ over 58%).
 - Aadhaar seeding, ABPS, near-universal digital wage payments.
 - Geo-tagging of assets and improved monitoring.
- Significant role of **field-level staff** in sustaining implementation.

Limitations

- Persistent issues:
 - Mismatch between expenditure and physical work.
 - Use of machines in labour-intensive works.
 - Weak ground-level verification and misappropriation.
- Few households achieved full 100 days post-pandemic.
- Demand-driven, open-ended design became misaligned with **changed rural realities**.
- Incremental reforms could not address structural weaknesses.

Rationale for a New Statutory Framework

- Rural India has transformed since 2005:
 - Poverty declined from **27.1% (2011-12)** to **5.3% (2022-23)**.
 - Rising incomes, diversified livelihoods, digital penetration.

- Need to:
 - Align employment with **infrastructure creation and climate resilience**.
 - Strengthen accountability and planning.
 - Integrate rural employment with the vision of **Viksit Bharat 2047**.

Viksit Bharat-G RAM G Act, 2025: Key Features

- **125 days of guaranteed wage employment** per rural household per year.
- **Aggregated 60-day no-work period** during peak sowing and harvesting to ensure farm labour availability.
- Weekly wage payment or within **15 days maximum**.
- **Unemployment allowance** payable after 15 days if work is not provided (state liability).

Four Priority Verticals

1. Water security (water harvesting, irrigation, recharge)
 2. Core rural infrastructure (roads, connectivity)
 3. Livelihood-related infrastructure (markets, storage, production assets)
 4. Climate resilience & disaster mitigation works
- Assets integrated into **Viksit Bharat National Rural Infrastructure Stack**.
 - Decentralised planning through **Viksit Gram Panchayat Plans**, aligned with **PM Gati Shakti**.

Administrative and Financial Architecture

- Administrative expenditure ceiling raised from **6% to 9%**.
- Supports better staffing, training, remuneration, and technical capacity.
- Shift from **Central Sector Scheme to Centrally Sponsored Scheme**.
- **Normative funding** replaces purely demand-based funding:
 - Predictable, rational budgeting.
 - Employment guarantee remains legally protected.

Cost Sharing

- 60:40 (Centre:State)
- 90:10 for North Eastern & Himalayan States
- 100% Central funding for UTs without legislatures
- Total estimated annual outlay: **₹1.51 lakh crore**
 - Central share: **~₹95,692 crore**

Institutional Framework

- **Central & State Gramin Rozgar Guarantee Councils** – policy guidance and oversight.

- **National & State Steering Committees** – strategy, convergence, performance review.
- **Panchayati Raj Institutions** – planning and execution ($\geq 50\%$ works by cost at GP level).
- **District Programme Coordinators & Programme Officers** – implementation, payments, audits.
- **Gram Sabhas** – strengthened role in social audits and transparency.

Transparency, Accountability, and Governance

- Central Government empowered to:
 - Investigate complaints.
 - Suspend fund releases in case of serious irregularities.
 - Order corrective measures.
- Mandatory **social audits at least once every 6 months**.
- Use of:
 - AI tools, biometric authentication.
 - GPS and mobile-based real-time monitoring.
 - Public MIS dashboards and weekly disclosures.

Benefits of the Act For Rural Economy

- Higher household incomes due to **125-day guarantee**.

- Productive asset creation linked with employment.
- Reduced distress migration and stronger village-level demand.

For Farmers

- Assured labour availability during peak seasons.
- Prevention of wage inflation.
- Improved irrigation, storage, roads, and market access.

For Labourers

- Higher earnings and predictable employment.
- Secure digital wage payments.
- Direct benefits from durable assets.
- Legal protection through unemployment allowance.

Conclusion

- The Act marks a **decisive shift from welfare-driven employment to development-oriented employment**.
- Builds on MGNREGA's strengths while correcting its structural weaknesses.
- Integrates employment, infrastructure, climate resilience, and digital governance.
- Positions rural employment as a **strategic tool for sustainable growth**, aligned with **Viksit Bharat 2047**.

Major Initiatives Launched (2021-26)

- **Aspirational Block Initiative**
 - Central Government
 - Aimed at improving the performance of areas that are lagging on various development parameters.
- **School Initiatives and Higher Education**
 - NSDC
 - To restructure the implementation model of skill development trainings in schools from 4-year to 2-year model.
- **STRIVE**
 - Central Government
 - Increasing the aspirational value of skill development programs by increasing the marketability of skills, through better industry connect and quality assurance.
- **Community policing initiative**
 - Delhi Lieutenant governor
 - To make people aware of various schemes of Delhi police
- **WEST initiative**
 - Science technology and innovation advisory council
- **Daksh supertech initiative**
 - RBI
 - Strengthening supervisory system
- **Tele-MANAS initiative**
 - Ministry of health
 - Access to mental health care in the country
- **SETU initiative**
 - Piyush Goyal
 - Launched in San Francisco
 - Connecting Indian startups to US startups
 - SETU- Supporting Entrepreneurs in Transformation and Upskilling programme
- **India ki udaan initiative**
 - Union culture ministry in collaboration with Google
 - Make people virtually aware of the achievements of India during the last 75 years
- **Arth Ganga Initiative**
 - Ministry of jal Shakti

- Promote economic activities on Ganga banks under Namami Gange programme
- **SMILE-75 Initiative**
 - Ministry of social justice and empowerment
 - Implement welfare schemes for beggars and make arrangements for their rehabilitation through municipal corporation and NGOs
- **Platform of platforms initiative**
 - Union minister of agriculture and farmers welfare
 - Farmers are allowed to sell their products outside the state border
- **Start up school India initiative**
 - Google
 - Promote 10,000 startups in smaller cities of India through online training
- **Sujal initiative**
 - Haryana govt.
 - To conserve and regulate water supply
- **SMB Saathi Utshav Pahal**
 - Whatsapp India
 - Promote and support small enterprises to run their business online
- **Vinaya Samarasya Yojana**
 - Karnataka govt.
 - To end untouchability
- **Heal by India initiative**
 - Union ministry of health
 - Enable India's youth to work anywhere abroad in the field of health.
- **Meri policy mere haath campaign**
 - Ministry of agriculture and farmers welfare
 - Farmers should be given door-to-door crop insurance policy facility
- **Labharthiyo se rubaroo initiative**
 - Ministry of housing and urban affairs
 - Check the progress of scheme by directly interacting with the beneficiaries of pradhan mantra awas yojana
- **Super 50 initiative**
 - Indian army
 - Children of J & K to prepare for free medical exam
- **Samarth initiative**
 - Ministry of MSME
 - Encourage women's entrepreneurship
- **Sambhav aur swavlamban initiative**
 - Ministry of MSME
 - To encourage young entrepreneurs
- **Bhasha Sangam initiative**
 - Ministry of education
 - Teach school children daily use sentences in 22 languages
- **Rakshak initiative**
 - Government of Odisha
- Train people working in area near road accident prone places
- **MusQan initiative**
 - Ministry of health and family welfare
 - Avail quality public health facilities to reduce child mortality rate
- **e- crop survey initiative**
 - Maharashtra
 - Provide information to farmers regarding crops
 - Implemented in collaboration with the department of revenue and agriculture and tata trust
- **Prerna initiative**
 - Ministry of Education
 - Aims to empower students of classes IX to XII with leadership qualities and provide them with a meaningful, unique, and inspiring experience.
- **Skill on wheels initiative**
 - Union Minister Dharmendra Pradhan & Speaker of Lok Sabha Om Birla
 - 60,000 youth will be empowered over a period of five years with the objective of improving livelihood of rural households by providing relevant skills training to its youth population.
- **SARTHIE 1.0 initiative**
 - MoU signed between Department of Social Justice & Empowerment and National Legal Services Authority (NALSA)
 - to empower disadvantaged communities like Scheduled Castes, Transgenders, and Nomadic Tribes. The initiative aims to raise awareness and provide legal support to promote effective access to social welfare schemes.
- **AGNI initiative**
 - Ministry of AYUSH
 - to provide a platform for Ayurveda practitioners to report their innovative practices & and experiences in various disease conditions along with promoting the culture of evidence-based practice among Ayurveda Practitioners.
- **Digital Detox initiative**
 - Karnataka Government
 - aim is to spread awareness about the ills of spending too much time in the digital world and instead create an environment of responsible gaming.
- **Mission Basundhara 3.0**
 - Assam Government
 - to make land revenue services more accessible to citizens.
- **Ghar Ghar Solar Initiative**
 - Tata Power Solar Limited

- In Uttar Pradesh Starting from Varanasi: Residents can avail a maximum subsidy of up to Rs. 1,08,000 on rooftop solar installation.
- **BHARATI Initiative**
 - Launched by APEDA (Agricultural and Processed Food Products Export Development Authority) under the Ministry of Commerce & Industry
 - Full Form: Bharat's Hub for Agritech, Resilience, Advancement and Incubation for Export Enablement
 - A flagship program to empower 100 agri-food and agri-tech startups, boost innovation, and drive India's agri-food exports towards a \$50 billion target by 2030.
- **Space City & Defence Hubs Project – Andhra Pradesh initiative**
 - Launched by Andhra Pradesh government
 - Partner: Skyroot Aerospace – a Hyderabad-based space startup founded by ex-ISRO scientists
 - To establish India's first private Space City in Tirupati and two Defence Manufacturing Hubs in Madakasira, boosting aerospace innovation, satellite launch capability, and defence production in Andhra Pradesh.
- **Adishakti Abhiyan**
 - Maharashtra Government
 - to empower women and streamline welfare schemes at the grassroots level.
- **TALASH Initiative**
 - Launched by Ministry of Tribal Affairs through the National Education Society for Tribal Students (NESTS), in Partnership with UNICEF India.
 - goal is to foster holistic development of tribal students studying in Eklavya Model Residential Schools (EMRSs).
- **CROPIC Initiative**
 - Launched by Ministry of Agriculture & Farmers Welfare under the Pradhan Mantri Fasal Bima Yojana (PMFBY)
 - CROPIC= Collection of Real-Time Observations and Photographs of Crops
 - to collect geotagged crop photographs for better crop health monitoring, validation, and damage assessment.
- **Balpan Ki Kavita Initiative**
- Launched by Ministry of Education (Department of School Education & Literacy)
- Aim is to restore and popularize Bharatiya rhymes/poems for young children in Hindi, regional languages, and English, aligning with the National Education Policy (NEP) 2020 emphasis on mother tongue learning.
- **Padhai with AI Initiative**
 - Launched by Himachal Pradesh government
 - Chief Minister Sukhvinder Singh Sukhu launched in Bilaspur district.
 - aims to provide a fully digital learning environment with continuous academic counselling, ensuring access to quality study materials and guidance for students preparing for competitive exams.
- **Mahatma Gandhi Gram Swaraj Initiative**
 - Launched by Central Government
 - announced in the Union Budget 2026-27, is a comprehensive framework designed to build rural self-reliance in khadi, handloom, and handicrafts.
- **Nirbhaya Nisha Initiative**
 - Launched by Kerala Police
 - to ensure the safety of women traveling at night. Operating from 9:00 PM to 5:00 AM, it provides immediate assistance through the 112 emergency helpline, the Pol-App SOS button, and increased night patrols in vulnerable areas, aimed at deterring harassment.
- **Arogya Van Initiative**
 - Launched by National Highways Authority of India (NHAI) – Nitin Gadkari
 - to plant medicinal trees on vacant land along National Highways. It aims to enhance roadside biodiversity, boost climate resilience, and promote traditional healthcare systems like Ayurveda.
- **One District-One River Initiative**
 - Launched by Uttar Pradesh Government under the Namami Gange Mission
 - The primary goal is to clean and restore disappearing or choked small rivers and their tributaries (e.g., Gomti in Pilibhit, Neem in Bulandshahr, and Noon in Kanpur).
- **Stree Ride Initiative**

- launched by the Telangana Women's Safety Wing in Hyderabad
- It trains and equips women to drive electric bikes, autos, and cabs. The project connects female drivers directly with major app-based aggregators to provide secure, all-women transportation options.
- **Jan Bhagidari Sabse Door Sabse Pehle Initiative**
 - Launched by Ministry of Tribal Affairs
 - To bring government welfare schemes and essential services directly to remote tribal villages.
- **"One Case One Data" initiative**
 - launched by the Supreme Court
 - It integrates judicial records from every tier of the Indian judiciary—including the Supreme Court, High Courts, district courts, and taluka courts—into a single digital network.
 - the Supreme Court also launched an AI-powered chatbot named "Su Sahay" to help litigants easily access court-related services.

- **Para Élan Initiative**
 - a three-year collaborative program between the [Paralympic Committee of India](#) (PCI) and the [French Institute in India](#) (IFI).
 - The initiative aims to raise awareness about para sports among approximately 10,000 students across IFI partner schools over the next three years.
- **DAANVEER Initiative**
 - crowdsourcing program launched by the **Ministry of Panchayati Raj** to help citizens donate computer systems and digital hardware directly to Gram Panchayats in India.
- **'Pillale Sampada' (Children are Wealth) initiative**
 - Launched by Andhra Pradesh Government
 - to encourage larger families and address declining birth rates.
 - Third Child: Families receive a one-time financial assistance of **₹30,000**.
 - Fourth Child: Families receive a one-time financial assistance of **₹40,000**.

Mobile Apps launched by Government

- **ULLAS**
 - Launched by Union Minister of Education & Minister of Skill Development & Entrepreneurship- Dharmendra Pradhan
 - To Facilitate Widespread access to basic literacy.
- **Sinh Suchna**
 - Launched by Gujrat Chief Minister Bhupendra Patel
 - Empowers people to report lion sightings directly to the forest department, paving the way for real-time tracking and rapid conflict resolution.
- **SAMUDRA**
 - Launched by INCOIS (Ministry of Earth Sciences)
 - Ocean-related information, benefiting seafarers and the fishing community.
- **Sanchar Saathi**
 - Government of India, Department of Telecommunications
 - Aims to strengthen the security of mobile users or subscribers in the country.
 - To block or trace their stolen or lost mobile phones.
- **Flood Watch**
 - Launched by Central Water Commission (Shri Kushvinder Vohra)
 - Aim of using mobile phones to disseminate information related to the flood situation and forecasts up to 7 days on a real-time basis to the public.
- **Mobile-Dost-App**
 - Launched by Jammu & Kashmir Government
 - To enhance accessibility and convenience ensuring that every individual of J&K will get benefited from government services at their fingertips.
- **Shiksha Vani**
 - Launched by CBSE
 - Disseminates crucial information to students and parents in a timely manner.
- **E-Chhawani App**
 - Launched by Ministry of Defence
 - To provide online civic services to the residents of contentment boards across India.
- **Udyam Sarathi App**
 - Launched by CM of Uttar Pradesh
 - To avail information related to self-employment and job vacancies in industries of the state.
- **SUVAS App**
 - Launched by Supreme Court of India

- To promote regional languages in judicial procedure.
- **Digi Yatra**
 - Launched by Union Minister of Civil Aviation, Jyotiraditya Scindia
 - To achieve contactless, seamless processing of passengers at airports based on facial recognition technology.
- **Aab Prahari Mob. App**
 - Launched by IIT Delhi
 - For the problems of water logging in urban areas
- **Jaldoot app**
 - Ministry of Rural Development
 - Tracking water level in wells across villages
- **SCALE App**
 - Education minister Dharmendra Pradhan
 - Employment opportunities and skill development in the field of leather industry
- **Lucky Bill App**
 - Kerala Govt.
 - To prevent evasion in GST
- **Shaili app**
 - Kerala Govt.
 - Prevention of lifestyle ailments
- **Bal Raksha Mob. App**
 - AYUSH ministry
 - Awareness regarding prevention of diseases in children through Ayurveda
- **Y-Break App**
 - AYUSH ministry
 - Importance of YOGA
- **ABHA mobile app**
 - National Health Authority
 - Linking health records created at ABDMpliant health facility and view them in the smart phones.
- **AAYU app**
 - Karnataka Chief Minister
 - Help chronic diseases through Yoga and meditation
- **Dishaank app**
 - Government of Karnataka
 - Easy digital availability of land records
- **Jan Nigrani App**
 - J&K
 - Facilitate people for online complains related to govt. schemes
- **Kaawal Uthavi**
 - Tamil Nadu govt.
 - Polish assistant to people in case of emergency
- **SAARTHI mobile app**
 - SEBI
 - Accurate information to investors about Mutual funds, market per se. trading, KYC
- **Digital Sansad App**
 - Lok Sabha Secretariat
 - To make available the proceedings of parliament
- **Kisan mobile App**
 - IIT Roorkee
 - Launched in Uttarakhand
 - For agricultural and meteorological services to farmers
- **Yogyata App**
 - Common services centres
 - Providing skill based vocational education to the youth in rural areas
- **Lokpal App**
 - Union ministry of rural Development and Panchayati Raj
 - Make MNREGA more transparent in all states and UTs
- **Garuda App**
 - Election commission of India
 - Direct mapping of all polling stations to speed up and bring transparency in electoral work
- **Chalo mobile app**
 - Maharashtra Tourism department
 - For the facility of digital and advance purchase of bus tickets as well as mobile smart cards
- **ASIGMA App**
 - Indian Army
 - Messaging app with features such as multi level security, tracking, data transfer etc.
- **My Parking app**
 - Ministry of information and broadcasting
 - Availability of on-spot and advance booking of vehicle parking digitally
- **Fishwale App**
 - Government of Assam
 - Avoid role of intermediaries in fisheries
 - India's first e-fish market app
- **e-Sarkar App**
 - Government of Gujarat
 - Making administrative tasks paperless
- **e-Nagar App**
 - Government of Gujarat
 - 52 types of services will be provided such as emergency, property taxes etc.
- **e-Rupi**
 - Central Government

 - **Uttarakhand 7th Rank** (103 Medal: 24 Gold, 35 Silver, 44 Bronze)
- **Raja Bhalindra Singh Trophy 2025**
 - It is awarded to the **team with the highest number of gold medals** at the **National Games of India**.
 - **Winner:** Services (68 Gold)
 - This marked **SSCB's fifth win** of the Raja Bhalindra Singh Trophy.

- Maharashtra won the trophy (37th National Games) for the **first time since 1994**, ending SSCB's long reign.

About the National Games:

The **National Games of India** are a **multi-sport event** modeled after the **Olympic Games**, where athletes representing **states and Union Territories** compete across various disciplines.

Sports Development in India:

- The **national sports budget** has seen a significant rise—from **₹800 crore in 2014** to **₹3,800 crore by 2025-26**
- India has set its sights on hosting the **Olympic Games in 2036**.
- Athletes are being supported through initiatives like the **Target Olympic Podium Scheme (TOPS)** to enhance international performance

Historical Background of the National Games

Origin:

- The National Games began as the **All India Olympic Games** (first few Olympic Games, now renamed as National Games) in **1924**, held in **Lahore** (then part of undivided India).
- These games were organized to select athletes for the **1924 Paris Olympics**.

Founding Figures:

- **Dorabji Tata** – Industrialist and sports patron
- **Harry Crowe Buck** – Founder of YMCA College of Physical Education, Chennai
- **Dr. A.G. Noehren** – Director of the same college
- These pioneers helped establish the **Indian Olympic Association (IOA)** in 1927.

Renaming:

- The event was officially renamed **National Games** during the **9th edition in Bombay (1940)**.

7th Khelo India Games 2025

- **Host City:** Bihar (Patna, Rajgir, Gaya, Bhagalpur, Begusarai) + select events (shooting, gymnastics, and track cycling) in New Delhi.
- **First time** hosted by Bihar.
- **Dates:** May 4–15, 2025
- **Athletes:** Over 8,500 from 36 states and union territories
- **Mascot:** Gajasimha – a fusion of elephant strength and lion courage
- **Theme:** Khel Ke Rang, Bihar Ke Sang! – celebrating Bihar's cultural legacy
- **Sports:** 28 disciplines including traditional Indian sports like Mallakhamb, Gatka, Kalaripayattu, and demonstration of **E-sports** for the first time

Medal Tally Highlights

- **Top State:** Maharashtra (158 medals: 58 gold, 47 silver, 53 bronze) (Consecutively 3rd times)
- **Runner-up:** Haryana, 3rd Rajasthan
- **Host State Bihar:** Finished 15th with 7 golds

Historical Background

- **Launched:** 2018 as Khelo India School Games in New Delhi
- **Renamed:** Became Khelo India Youth Games in 2019 after Indian Olympic Association joined the initiative
- **Mission:** Identify and nurture grassroots talent; provide ₹5 lakh annual scholarship for 8 years to top 1,000 athletes
- **2024 Host City:** Chennai, Tamil Nadu, Winner: Maharashtra

2nd Khelo India Para Games 2025

- **Dates:** March 20–27, 2025
- **Location:** New Delhi
- **Venues:**
 - Jawaharlal Nehru Stadium (Para Athletics, Archery, Powerlifting)
 - Indira Gandhi Stadium Complex (Para Badminton, Table Tennis)
 - Dr. Karni Singh Shooting Range (Para Shooting)
- **Mascot:** Ujjwala —a spirited house sparrow that symbolizes resilience, determination, and hope.

 - Arabian Sea

Operation Sindoor 2025

● 1. Pahalgam Terror Attack – April 22, 2025

- **Location:** Baisaran Valley, Pahalgam, Jammu & Kashmir
- **Casualties:** 26 civilians killed (25 Hindu tourists + 1 local Muslim), 20 injured
- **Perpetrators:** Terrorists from The Resistance Front (TRF), a proxy of Lashkar-e-Taiba (LeT)
- **Modus Operandi:**
 - Tourists were asked to recite Islamic verses to identify non-Muslims
 - Victims were shot point-blank in front of their families
 - Attackers used **AK-47s** and **M4 carbines**
- **Significance:** Deadliest civilian attack since 2008 Mumbai attacks

✂ 2. India's Retaliatory Strike – Operation Sindoor (May 7, 2025)

- **Name "Sindoor":** Symbolizes **honor, sacrifice, and national resolve**—especially in memory of the Hindu victims
- **Objective:** Punish planners and destroy terrorist infrastructure in Pakistan and PoK
- **Duration:** 25-minute precision strike (1:05 AM – 1:30 AM)
- **Targets:** 9 confirmed terror camps linked to LeT, JeM, Hizbul Mujahideen
- **Locations:**
 - Pakistan: Bahawalpur, Muridke, Sialkot
 - PoK: Muzaffarabad, Kotli, Bhimber

🛡 3. Actions Taken After the Attack

India launched a 7-point strategic response:

1. **Suspension of Indus Waters Treaty** – First time since 1960
2. **Closure of Attari-Wagah Border** – Halted land movement between India and Pakistan
3. **Revocation of SAARC Visa Exemption Scheme** – Cancelled all Pakistani visas
4. **Expulsion of Pakistani Defence Advisors** – Declared persona non grata
5. **Diplomatic Downsizing** – Reduced staff in Islamabad from 55 to 30
6. **Visa Ban** – All Pakistani nationals ordered to leave India
7. **Digital Countermeasures** – Blocked Pakistan's official X (Twitter) accounts

🌊 Indus Waters Treaty (IWT) – 1960

- **Signed:** September 19, 1960
- **Between:** India & Pakistan
- **Brokered by:** World Bank

🌊 River Allocation:

- **India:** Full rights over **Eastern Rivers** – Ravi, Beas, Sutlej
- **Pakistan:** Majority rights over **Western Rivers** – Indus, Jhelum, Chenab
- India can use Western Rivers for **non-consumptive purposes** like hydropower, navigation, and limited irrigation

📅 2025 Update:

- After the **Pahalgam terror attack**, India **suspended the treaty** for the first time in history

- Stopped flow from Western Rivers to Pakistan
- Closed Attari border and expelled Pakistani nationals

The suspension marked a **major diplomatic escalation**, signaling India's intent to leverage water as a strategic tool.

Shimla Agreement – 1972

- **Signed:** July 2, 1972
- **Between:** PM Indira Gandhi (India) & President Zulfikar Ali Bhutto (Pakistan)

Key Provisions:

- Convert 1971 ceasefire line into the **Line of Control (LoC)** in J&K
- Resolve all disputes **bilaterally**, excluding third-party mediation (like UN)
- Repatriation of **93,000 Pakistani POWs** and return of **13,000 sq km** of captured territory

2025 Update:

- Pakistan **suspended the Shimla Agreement** on April 24, 2025, in retaliation to India's strike and treaty suspension
- Closed airspace and trade routes with India

The Shimla Agreement has long been the **foundation of India-Pakistan diplomacy**, and its suspension marks a **major breakdown in bilateral engagement**.

4. Missiles & Weapons Used in Operation Sindoor

India deployed **high-precision, low-collateral weaponry**:

Weapon System	Type	Role in Operation
SCALP Missile	Long-range cruise missile	Deep strikes on bunkers
HAMMER Bombs	Modular guided munitions	Medium-range precision hits
BRAHMOS Missile	Supersonic cruise missile	Rapid bunker-busting
METEOR Missile	Air-to-air missile	Ensured air superiority
Loitering Munitions	Kamikaze drones	Real-time surveillance + autonomous strikes

S-400 in Operation Sindoor (2025)

- After India's precision strikes on terrorist camps in Pakistan and PoK, Pakistan launched **retaliatory aerial incursions** using fighter jets and drones.
- India **activated the Russian-made S-400 Triumf system**, which:
 - **Shot down 5 Pakistani fighter jets** attempting to breach Indian airspace
 - Intercepted **multiple drones and missiles** with pinpoint accuracy
- The S-400 was deployed in **Punjab and Western sectors**, creating a **360° air defence shield**.
- It can engage targets up to **400 km away**, including:
 - Fighter aircraft
 - Cruise missiles
 - Ballistic missiles
 - Stealth drones

Technical Highlights:

- Tracks **300 targets simultaneously**
- Engages **36 targets at once**
- Uses **four types of missiles** for layered defence
- Resistant to **electronic jamming and stealth tech**

The S-400's success in Operation Sindoor reinforced India's **air superiority and deterrence posture**.

5. Tactics Used in Operation Sindoor

- **Joint Tri-Service Coordination** – Army, Navy, Air Force operated seamlessly
- **Night-Time Strike** – Conducted between 1:05–1:30 AM for surprise and precision
- **Pinpoint Targeting** – GPS + laser-guided systems minimized collateral damage
- **Loitering Drones** – Hovered over PoK terrain to identify and strike targets

6. Other Major India-Pakistan Conflicts (Historical Context)

Conflict	Year(s)	Cause & Outcome
First War (Kashmir)	1947-48	Pakistan-backed tribal invasion; LoC established
Second War	1965	Operation Gibraltar; ended in Tashkent Agreement
Third War (Bangladesh)	1971	India supported East Pakistan; led to Bangladesh's creation
Kargil Conflict	1999	Pakistani intrusion; India recaptured peaks
Surgical Strikes	2016	Response to Uri attack; cross-LoC strikes on terror camps
Balakot Airstrikes	2019	Response to Pulwama attack; targeted JeM camps
Operation Sindoor	2025	Response to Pahalgam attack; precision strikes on 9 camps

Indian Military & Government Operations (2025-26)

Military & Strategic Operations

- **Operation Urja Suraksha (2026)**
The Indian Navy has launched a strategic operation named Urja Suraksha to ensure the safe passage of India-bound energy shipments through the **Strait of Hormuz** amid growing tensions in West Asia.
- **Mission Sudarshan Chakra (2026)**
aims to build a multi-layered air defence shield to counter drone threats, enhancing India's preparedness against modern aerial warfare.
- **Operation Sarvashakti (2025)**
Joint Army-BSF-intelligence operation to neutralize infiltration along the LoC in Kashmir.
- **Operation Gaganshakti II (2025)**
Indian Air Force's full-spectrum readiness exercise across northern and eastern sectors.
- **Operation Samudra Suraksha (2025)**
Indian Navy's anti-piracy and maritime security operation in the Arabian Sea and Gulf of Aden.

Evacuation & Humanitarian Relief Operations

- **Operation Amistad (June 2026)**
- Humanitarian Assistance and Disaster Relief (HADR) after 7.2 and 7.5 magnitude earthquakes hit Venezuela.
- Amistad: means friendship in Spanish, representing solidarity between the two nations.
- **Operation Sindhu (June 2025)**
- to rescue Indian nationals stranded in **Iran and Israel** amid the escalating **Iran-Israel war**. Triggered by missile and drone strikes between the two nations, the operation successfully evacuated over **4,400 Indian citizens**, including students, professionals, workers, and pilgrims, using **19 special flights**, including **Indian Air Force C-17 aircraft**.
- The mission also extended help to **Nepali, Sri Lankan, and OCI cardholders**, showcasing India's diplomatic agility and commitment to citizen safety during international crises.
- **Operation Brahma (2025)**
Humanitarian relief mission to Myanmar after a major earthquake; involved IAF, Navy, and NDRF.

Internal Security & Law Enforcement Operations

Project Hawk Eye (2026)

- **Launched by:** Anantnag Police, J&K
- **Purpose:** Security of Amarnath Yatra 2026
- 24x7 technology-based surveillance
- Uses 5 drones, 416 CCTV cameras, Facial Recognition System (FRS), 28 observation posts & 22 sniper teams.
- **Operation Mega Buru (2026)**
 - a major anti-Maoist counter-insurgency operation launched in **January 2026**. It targeted the dense **Saranda forest** region in **Jharkhand's West Singhbhum district**, which has long been considered one of the last major strongholds of the CPI (Maoist).

- A joint effort by the **Jharkhand Police**, the **Central Reserve Police Force (CRPF)**, and its elite **CoBRA** (Commando Battalion for Resolute Action) units.

• 🌲 **Operation Black Forest (2025)**

- India's **largest anti-Naxal counterinsurgency mission**, conducted between **April 21 and May 11** along the **Chhattisgarh-Telangana border**, specifically in the rugged **Karreguttalu Hills**.
- Key highlights:
- Led by **CRPF, CoBRA units, Special Task Force (STF)**, and **District Reserve Guard (DRG)**
- Home Minister **Amit Shah** hailed the operation as a "golden chapter" in India's fight against **Left Wing Extremism**, reaffirming the goal to make India **Naxal-free by March 2026**.

• 🏰 **Operation Shiva (2025)**

A large-scale security initiative launched by the **Indian Army** to safeguard the **Shri Amarnath Yatra** in **Jammu & Kashmir** amid heightened threats from **Pakistan-backed terror outfits**.

• 🛡️ **Operation Kavach (2025)**

CERT-In's cyber defence simulation to test India's readiness against large-scale cyberattacks.

Civic, Social & Rescue Campaigns

• 🧑 **Operation Nanhe Farishte** (Ongoing)

RPF mission to rescue and rehabilitate lost or runaway children at railway stations.

• 🙏 **Operation Maryada** (2024)

Uttarakhand Police initiative to maintain public order during **Char Dham Yatra** and at **Ganga ghats**.

• 🏠 **Operation Amrit (AMRITH)** (2024)

Kerala's public health campaign to combat antibiotic misuse and antimicrobial resistance.

International Major Operations (2025):

• 🌪️ **Operation Midnight Hammer**

- A high-stakes U.S. military strike carried out overnight on **June 21-22, 2025**, targeting Iran's key nuclear sites—**Fordow, Natanz, and Isfahan**. It involved **B-2 stealth bombers** and **Tomahawk missiles**, deploying over **420,000 pounds of precision munitions** to cripple Iran's uranium enrichment capabilities. The Pentagon confirmed all primary targets were neutralized with minimal collateral damage.

• 🦁 **Operation Rising Lion**

- **Israel's largest and most ambitious military strike** against Iran, launched in the early hours of **June 13, 2025**. The operation targeted Iran's **nuclear facilities, missile production sites, and senior military leadership**, aiming to halt uranium enrichment and disrupt Iran's strategic capabilities.

Key highlights include:

- ✈️ Over **200 Israeli fighter jets** and **drone swarms** struck sites in **Natanz, Isfahan, Kermanshah**, and near **Tehran**
- 🎯 High-value targets included nuclear scientists and top commanders of the **Islamic Revolutionary Guard Corps (IRGC)**
- ⚡ The strike caused massive damage to Iran's nuclear infrastructure and command centers
- 🌐 Global impact: Crude oil prices surged, and tensions escalated across the Middle East

The operation was named after a biblical verse symbolizing strength and resolve, reflecting Israel's determination to counter Iran's nuclear ambitions.

• 🛡️ **Operation Gideon's Chariots**

- A massive **Israeli military offensive** launched in the **Gaza Strip** to dismantle **Hamas's military and governing infrastructure**, retrieve **Israeli hostages**, and seize strategic territory.
- The operation drew intense global scrutiny, with the **UN Human Rights Office** condemning it as **ethnic cleansing**, while Hamas launched a counter-offensive called "**Stones of David**"

ISRO & Space Missions

1. Introduction to ISRO

- **Founded:** 1969
- **Founder:** Dr. Vikram Sarabhai (Father of India's Space Program)
- **Headquarters:** Bengaluru, Karnataka
- **Motto:** "Harness space technology for national development."
- **Parent Department:** Department of Space, Government of India
- **Current Chairman (as of August 2026):** Dr. V. Narayana, succeeded S. Somanath
- Formerly, ISRO was known as the **Indian National Committee for Space Research (INCOSPAR)**, which was set up in 1962 by then-Prime Minister Jawaharlal Nehru on the recommendation of scientist Vikram Sarabhai. It was renamed as ISRO in 1969.

2. Major Space Centres in India

Space Centre	Location	Main Function
Vikram Sarabhai Space Centre (VSSC)	Thiruvananthapuram	Design & development of launch vehicles
U R Rao Satellite Centre (URSC)	Bengaluru	Designing & testing of satellites
Satish Dhawan Space Centre (SDSC-SHAR)	Sriharikota, Andhra Pradesh	Launching of rockets and satellites
ISRO Propulsion Complex (IPRC)	Mahendragiri, Tamil Nadu	Testing and integration of rocket engines
Space Applications Centre (SAC)	Ahmedabad	Communication & remote-sensing payloads
ISRO Telemetry, Tracking and Command Network (ISTRAC)	Bengaluru	Tracking and control of satellites/missions
Liquid Propulsion Systems Centre (LPSC)	Thiruvananthapuram	Development of liquid propulsion systems

3. Types of Satellites / Spacecrafts

Type	Purpose	Example
Communication Satellites	Telecom, broadcasting, telemedicine	INSAT, GSAT series
Earth Observation Satellites	Mapping, meteorology, agriculture	CARTOSAT, RESOURCESAT, OCEANSAT
Navigation Satellites	Accurate position and timing	NAVIC (IRNSS) series NVS-02 is part of the second-generation NavIC constellation, launched on January 29, 2025 via GSLV-F15 (India's 100th launch from Sriharikota). ○ NVS-01 launched on 29 May 2023 vic GSLV-F12. • Its primary function is to provide accurate regional navigation services over India and surrounding areas. • It carries L1 band signals for enhanced compatibility with civilian devices like smartphones. • It also includes rubidium atomic clocks for precise timekeeping.
Scientific Satellites	Space research, exploration	Chandrayaan, Mangalyaan, Aditya-L1
Technology Demonstration Satellites	Testing new space tech	Microsat, INS series

4. ISRO's Launch Vehicles

Launch Vehicle	Full Form	Key Details
SLV	Satellite Launch Vehicle	India's first rocket, launched Rohini-1 (1980)
ASLV	Augmented Satellite Launch Vehicle	Improved version of SLV

PSLV	Polar Satellite Launch Vehicle	ISRO's workhorse for polar orbits; highly reliable multi-orbit launcher
GSLV	Geosynchronous Satellite Launch Vehicle	Used for heavier payloads to higher (geostationary) orbits
LVM3 (GSLV Mk-III)	Launch Vehicle Mk-III	India's most powerful rocket, used for Chandrayaan-2 & 3
HLVM3	Human-rated LVM3	Used for Gaganyaan mission (crewed launch vehicle)
SSLV	Small Satellite Launch Vehicle	Quick, low-cost, on-demand launch system
RLV	Reusable Launch Vehicle	Prototype for reusable space shuttle technology
NGLV	Next Generation Launch Vehicle- Under Development	Future heavy-lift vehicle for crewed and deep space missions • Reusable stages • Payload capacity up to 16 tonnes to LEO • Methane-based propulsion systems

Mission Accomplished by ISRO

Aryabhata - India's first satellite

- **Launched by:** Soviet Union using **Kosmos-3M** rocket
- **Launch Date:** 19 April 1975
- **Launch site:** Kapustin Yar, USSR
- **Weight:** 360 kg
- **Shape:** 26-sided polygon (polyhedron), covered with solar cells
- **Purpose:** To conduct **scientific experiments** in X-ray astronomy, solar physics, and aeronomy

Significance for India

- Named after the ancient Indian mathematician and astronomer **Aryabhata (476–550 CE)**.
- Though it lost communication after 5 days, it remained in orbit for **17 years**, re-entering Earth's atmosphere in 1992.
- It laid the foundation for India's future space missions like **INSAT, IRS, and Chandrayaan**.

CMS-03 Satellite

- **Launched by:** Indian Space Research Organisation (ISRO)
- **Launch Date:** **November 2, 2025**
- **Launch Site:** Second launch pad, **Satish Dhawan Space Centre**, Sriharikota, Andhra Pradesh
- **Launch Vehicle:** LVM3-M5, nicknamed '**Bahubali**'
- **Satellite Weight:** Approximately **4,400 kilograms**
- **Distinction:** **Heaviest communications satellite** ever launched from Indian soil

Purpose & Coverage

- **Type:** Multi-band **communications satellite**
- **Functions:**
 - Strengthens **mobile networks, television, and internet services**
 - Enhances **maritime communications**
- **Coverage Area:** Entire **Indian Ocean** and surrounding oceanic regions
- **Service Duration:** Expected to operate for **at least 15 years**

Why LVM3 is Called 'Bahubali'

- The nickname '**Bahubali**' comes from the **popular Indian film character known for immense strength and resilience**.
- LVM3 is ISRO's **most powerful and heaviest rocket**, capable of lifting **satellites over 4 tonnes** into geosynchronous orbit.
- It has successfully launched missions like **Chandrayaan-2, Chandrayaan-3**, and now **CMS-03**, earning its reputation as India's **muscle rocket**.

NISAR (NASA-ISRO Synthetic Aperture Radar)

- **Launched Date:** 30 July 2025 (GSLV-F16) from Satish Dhawan Space Centre, India
- **Type:** Earth observation satellite with **dual-band radar (L (NASA) & S (ISRO))**
- **Objective:** Monitor land deformation, glaciers, forest biomass, natural disasters
- **Orbit:** Polar/Sun-synchronous orbit (SSO), revisits every 12 days (**To achieve temporal resolution for global coverage and land deformation monitoring**)
- **Duration:** 5 years
- **Significance:** First major NASA-ISRO collaboration; world's most powerful radar satellite

Axiom Mission 4 (Ax-4) 2025:

- **Launch/Completion Date:** 25 June 2025
- **Launch Vehicle:** SpaceX Falcon 9
- **Launch Site:** NASA Kennedy Space Center, Florida
- **Operator:** Axiom Space (US-based private space infrastructure company)
- **Spacecraft:** SpaceX Crew Dragon (reusable crew module)
- **Duration:** 18 days, completing 320 orbits and covering 8.4 million miles
- **Splashdown:** July 15, 2025
- Experiments onboard were **developed by ISRO and Indian academic institutions**

Mission Goals

- To **redefine access to low-Earth orbit** through private-public partnerships
- To **elevate national space programs** of emerging spacefaring nations
- To **demonstrate the viability of commercial astronaut missions** for scientific and diplomatic purposes

Crew Members

- **Group Captain Shubhanshu Shukla** (India)
- **Peggy Whitson** (USA, Commander)
- **Sławosz Uznański** (Poland)
- **Tibor Kapu** (Hungary)

Historic Significance:

- It marked the **first government-sponsored human spaceflight in over 40 years for India, Poland, and Hungary**.
 - Though **Ax-4 was a commercial ISS (International Space Station) mission** by Axiom Space, it marked a historic milestone for India:
 - Indian astronaut **Shubhanshu Shukla** flew to the ISS; ISRO payloads included experiments on microgravity, cognition, and agriculture
 - **Group Captain Shubhanshu Shukla** became the **first Indian to visit the International Space Station (ISS) in 2025**, marking India's return to human spaceflight after four decades.
 - **Second Indian astronaut in space since Rakesh Sharma (1984)**

RLV-LEX3 mission (Reusable Launch Vehicle – Landing Experiment 3)

- **Date:** June 23, 2024
- **Location:** Aeronautical Test Range (ATR), Chitradurga, Karnataka
- **Vehicle:** Pushpak – ISRO's winged RLV prototype
- **Drop Altitude:** Released from an **Indian Air Force Chinook helicopter** at 4.5 km

Objectives & Achievements

- **Goal:** Validate **autonomous landing capability** of a reusable spaceplane
- **Challenge Conditions:**
 - **Cross-range** of 500 meters (vs 150 m in LEX-2)
 - **Severe wind conditions**

- Pushpak executed **cross-range correction maneuvers**
- Achieved **precise horizontal landing** on runway centerline
- Marked a **hat-trick of success** after LEX-01 and LEX-02

Strategic Significance

- Paves the way for **India's future reusable space launch systems**
- Reduces cost of access to space through **reusability**
- Enhances ISRO's capabilities in **autonomous navigation, control, and landing**

INSAT-3DS (India's latest advanced meteorological satellite)

- **Satellite Name:** INSAT-3DS
- **Launch Date:** February 17, 2024
- **Launch Vehicle:** GSLV-F14 (Geosynchronous Satellite Launch Vehicle)
- **Launch Site:** Satish Dhawan Space Centre, Sriharikota
- **Orbit:** Initially placed in **Geosynchronous Transfer Orbit (GTO)**; later maneuvered into **Geostationary Orbit**

Purpose & Capabilities

- **Type:** **Meteorological satellite** (identical to INSAT-3D and 3DR)
- **Primary Payloads:**
 - **6-channel Imager:** Captures cloud patterns, storm systems, and land/ocean surfaces
 - **19-channel Sounder:** Measures atmospheric temperature and humidity profiles
- **Objectives:**
 - Improve **weather forecasting accuracy**
 - Enhance **cyclone tracking and storm warnings**
 - Support **oceanographic and environmental monitoring**
 - Aid in **search and rescue operations** via transponders

Applications

- **Disaster management:** Real-time alerts for cyclones, floods, and storms
- **Agriculture:** Rainfall prediction and drought assessment
- **Aviation & Marine:** Weather updates for flight and shipping safety
- **Climate studies:** Long-term data for climate modeling and research

System Integration

- Part of the **INSAT series**, India's largest domestic satellite system
- Controlled by **Master Control Facilities** in **Hassan** and **Bhopal**

XPoSat – India's First X-ray Polarimetry Mission

- **Launch Date:** 1 January 2024
- **Launch Vehicle:** PSLV-C58
- **Launch Site:** Satish Dhawan Space Centre, Sriharikota
- **Orbit:** Low Earth Orbit (LEO) at ~640 km altitude
- **Mission Duration:** 5 years

Scientific Objectives

- Study **polarization of X-rays** from high-energy cosmic sources
- Understand the **geometry, magnetic fields, and emission mechanisms** of:
 - **Black holes**
 - **Neutron stars**
 - **Pulsars**
- Provide insights into **extreme astrophysical environments**

Payloads

1. **POLIX** (Polarimeter Instrument in X-rays)
 - Developed by **Raman Research Institute**, Bengaluru

2. **XSPECT** (X-ray Spectroscopy and Timing)
 - Developed by **UR Rao Satellite Centre (URSC)**
 - Provides **timing and spectral data**

Significance

- First Indian mission dedicated to **X-ray polarimetry**
- Places India among select nations exploring **high-energy astrophysics**
- Complements global missions like NASA's **IXPE**

● **Chandrayaan-1 (2008) – India's First Lunar Mission**

- **Launch Date:** 22 October 2008 (PSLV-C11 from Sriharikota)
- **Objective:** High-resolution mapping of the Moon's surface and mineral composition
- **Key Achievement:** First to discover **water molecules on the Moon** using NASA's M3 instrument
- **Orbit Type:** 100 km polar orbit around the Moon
- **Duration:** Originally planned for 2 years, but contact lost after 312 days
- **International Collaboration:** Carried payloads from NASA, ESA, and Bulgaria
- **Significance:** Positioned India among elite lunar explorers

● **Chandrayaan-2 (2019) – Orbiter + Lander + Rover**

- **Launch Date:** 22 July 2019 (GSLV Mk III from Sriharikota)
- **Components:** Orbiter, Vikram Lander, Pragyan Rover
- **Objective:** Soft landing near Moon's south pole and study surface composition
- **Outcome:**
 - **Orbiter:** Successful; continues to send data
 - **Lander (Vikram):** Lost contact during descent
 - **Rover (Pragyan):** Couldn't deploy due to lander failure
- **Scientific Payloads:** Terrain mapping, X-ray spectrometer, solar radiation study
- **Significance:** Advanced India's lunar tech and paved way for Chandrayaan-3

● **Chandrayaan-3 (2023) – Historic Lunar Triumph**

- **Launch Date:** 14 July 2023 (from Sriharikota)
- **Landing Date:** 23 August 2023
- **Launch Vehicle:** LVM3-M4
- **Objective:** Soft landing near Moon's south pole and deploy rover for surface analysis
- **Components:** Vikram Lander and Pragyan Rover (no orbiter; used Chandrayaan-2's orbiter)
- **Key Achievement:**
 - **India became the first country to successfully land near the Moon's south pole**
 - Demonstrated indigenous landing technology and rover mobility
- **Scientific Payloads:**
 - ChaSTE: Thermal properties of lunar surface
 - ILSA: Seismic activity
 - LRA: NASA's retroreflector for laser ranging
 - LIBS: Detected sulphur and other elements
- **Significance:** Boosted India's global space leadership and paved way for future lunar missions

AstroSat - India's first dedicated multi-wavelength space observatory,

- **Launch Date:** 28 September 2015
- **Launch Vehicle:** PSLV-C30
- **Launch Site:** Satish Dhawan Space Centre, Sriharikota
- **Orbit:** 650 km altitude, inclined at 6° to the equator
- **Mass:** 1515 kg

Scientific Objectives

- To conduct **simultaneous multi-wavelength observations** of cosmic sources.
- To study black holes, neutron stars, white dwarfs, supernovae, and active galactic nuclei.

- To investigate **stellar evolution**, **star formation regions**, and high-energy processes in the universe.

Payloads and Instruments

AstroSat carries five major payloads:

1. **Ultraviolet Imaging Telescope (UVIT)** – Observes in Near and Far UV.
2. **Soft X-ray Telescope (SXT)** – Studies soft X-ray emissions.
3. **Large Area X-ray Proportional Counter (LAXPC)** – Detects hard X-rays.
4. **Cadmium Zinc Telluride Imager (CZTI)** – Captures high-energy X-rays.
5. **Scanning Sky Monitor (SSM)** – Monitors transient X-ray sources.

These instruments cover a wide energy range from **0.3 keV to 100 keV**, enabling detailed spectral and temporal studies.

Unique Features

- **Simultaneous multi-band observation** from a single satellite—rare among global observatories.
- Enables **correlated studies** of cosmic events across different wavelengths.

Mission Status

- While its designed life was **five years**, Astrosat has surpassed this and continues to operate, **completing 10 years of service in September 2025**.
- All payloads are **functioning well** and actively contributing to scientific research.

Mars Orbiter Mission (MOM) (Mangalyaan-1) - India's first interplanetary mission

- **Launch Date:** November 5, 2013, at 14:38 IST
- **Launch Vehicle:** PSLV-C25 (Polar Satellite Launch Vehicle)
- **Launch Site:** Satish Dhawan Space Centre, Sriharikota
- **Orbital Insertion:** Successfully entered Mars orbit on September 24, 2014
- **Mission Duration:** Planned for 6 months, but lasted over 7 years
- **End of Contact:** April 2022

Technical Details

- **Satellite Mass:** ~1,337 kg
- **Power:** ~840 watts
- **Orbit:** Highly elliptical Mars orbit (Periareon ~421 km, Apoareon ~76,993 km)
- **Satellite Bus:** I-1K platform

Scientific Objectives

- Demonstrate India's capability to design, launch, and operate an interplanetary mission
- Study **Martian surface features, morphology, mineralogy, and atmosphere**
- Investigate **methane presence and dust storms**

Payloads (5 Instruments)

- **Mars Colour Camera (MCC)** – captured stunning images of Mars
- **Methane Sensor for Mars (MSM)** – searched for methane traces
- **Thermal Infrared Imaging Spectrometer (TIS)** – studied surface temperature
- **Lyman Alpha Photometer (LAP)** – measured hydrogen escape
- **Mars Exospheric Neutral Composition Analyzer (MENCA)** – analyzed upper atmosphere

Global Significance

- **ISRO became the fourth space agency** to reach Mars (after NASA, Roscosmos, ESA)
- **Cost-effective:** Total mission cost was **₹450 crore (~\$74 million)**, one of the cheapest Mars missions ever
- **Symbol of India's scientific prowess** and frugal engineering

Aditya-L1 (2023) - India's First Solar Mission

- **Launch Date:** 2 September 2023
- **Launch Vehicle:** PSLV-XL C57 from Sriharikota

- **Mission Type:** Solar observatory – focused on studying the Sun's outer atmosphere
- **Orbit:** Halo orbit around Lagrange Point 1 (L1), ~1.5 million km from Earth
- **Mission Duration:** 5.2 years (planned)
- **Developed By:** ISRO, with payloads built by Indian institutes like IUCAA, IIA, and ISAC

Scientific Objectives

- Study the **solar corona**, **solar wind**, and **magnetic field dynamics**
- Monitor **solar flares** and **Coronal Mass Ejections (CMEs)**
- Understand **space weather** and its impact on satellites, aviation, and communication
- Help predict **geomagnetic storms** that affect power grids and GPS systems

Payloads and Instruments

Aditya-L1 carries **7 indigenous payloads**, each targeting different aspects of solar physics:

- **VELC (Visible Emission Line Coronagraph):** Main instrument to study solar corona
- **SUIT (Solar Ultraviolet Imaging Telescope):** Captures UV images of the Sun's photosphere and chromosphere
- **ASPEX (Aditya Solar wind Particle Experiment):** Studies solar wind composition
- **PAPA (Plasma Analyser Package):** Measures solar wind ions
- **SoLEXS (Soft X-ray Spectrometer):** Detects solar flares
- **HEL10S (High Energy L1 Orbiting X-ray Spectrometer):** Monitors energetic solar events
- **Magnetometer:** Measures interplanetary magnetic field at L1

Historic Achievements

- India's first dedicated solar observatory mission
- **First Indian spacecraft to operate from Lagrange Point 1**, joining elite missions like NASA's SOHO and ESA's Solar Orbiter
- All payloads **designed and built in India**, showcasing indigenous scientific capability
- Strengthens India's role in **space weather forecasting**, crucial for satellite safety and aviation
- Enhances global understanding of **solar dynamics and heliophysics**

Other Accomplished Missions:

Mission	Launch Date	Launch Vehicle	Other Facts
SpaDeX	30 Dec 2024	PSLV-C60	• ISRO's pioneering mission to demonstrate in-orbit docking technology, marking India's entry into an elite group of spacefaring nations.
One Web India-1	October 2022	LVM3-M2	• First commercial mission of LVM3 and 36 satellites were launched.
DS-EO Mission	June 2022	PSLV-C53	• 3 satellites of Singapore and two Indian start-up companies were launched
GSAT-24	June 2022	Ariane5	• DTH service provider to TATA company
EOS-04	February 2022	PSLV-C52	• Radar imaging satellite, accompanied by INS-2TD and INSPIRESat-1
EOS-03	August 2021	GSLV-F10	• India's first state of the art earth satellite which failed
Amazonia-01	February 2021	PSLV-C51	• First earth observation satellite developed by Brazil

ISRO's Upcoming Missions

Gaganyaan Missions (1, 2, 3) – India's First Human Spaceflight Programme

- **Gaganyaan 1:** The **first uncrewed test flight** of India's human spaceflight program. This mission will carry the **humanoid robot Vyommitra** to test life support systems and other critical technologies before the first crewed mission.
- **Gaganyaan-2:** 2nd Uncrewed test flights to validate systems like crew escape, life support, and re-entry

◦ **Expected Launch:** 2026

◦ **Launch Vehicle:** Human-rated LVM3

◦ Includes robotic payloads and microgravity experiments

- **Gaganyaan-3:** First crewed mission with 3 Indian astronauts in Low Earth Orbit (~400 km) for 3 days
 - Expected Launch: 2027
 - Developed by ISRO, HAL, DRDO; training support from Russia
- **Significance:** India will become the **fourth country** (after USA, Russia, China) to send humans to space

♀ Shukrayaan-1 – India's First Venus Mission

- **Launch Date:** 29 March 2028 (planned)
- **Type:** Venus orbiter mission to study surface and atmosphere
- **Payloads:** Synthetic Aperture Radar, Ground Penetrating Radar
- **Orbit:** Cytherocentric (Venus-centric), 200–600 km altitude
- **Significance:** India's entry into inner planet exploration; global interest in Venus due to its extreme climate

● Mangalyaan-2 (Mars Lander Mission)

- **Launch Date:** Expected around 2031
- **Type:** Mars lander + rover + helicopter (rotorcraft)
- **Objective:** Study Martian surface, mineralogy, atmosphere
- **Significance:** India's first attempt at soft landing on Mars; builds on Mangalyaan-1's orbital success

ShaktiSAT

It is a groundbreaking global initiative to empower girls through space education, aiming to launch a female-led satellite under ISRO's Chandrayaan-4 mission.

🌐 Vision and Purpose

- ShaktiSAT, spearheaded by **Space Kidz India (SKI)**, is designed to **train 12,000 girls from 108 countries** in space technology and satellite development.
- The mission seeks to **foster international cooperation**, break gender stereotypes, and inspire a new generation of female leaders in STEM fields.

🚀 Mission Highlights

- **Satellite Launch Goal:** The satellite is planned to be launched as part of **ISRO's Chandrayaan-4 lunar mission**, marking a historic moment for female-led space exploration.
- **Global Participation:** From each of the 108 participating countries, **108 girls will be selected**, totaling 12,000 students globally.
- **Hands-on Training:** One student per country will travel to India for **intensive, hands-on training** in payload design, spacecraft prototyping, and satellite systems.
- **Curriculum and Collaboration:** The program includes a structured curriculum, webinars, and mentorship, encouraging cross-cultural learning and collaboration.

💡 Educational Impact

- The initiative is not just about building a satellite—it's about **building confidence, leadership, and technical skills** in young girls.
- It aligns with the broader goals of **inclusive education, gender equality, and global peace through science and cooperation**.

🏛️ Organizational Support

- ShaktiSAT is an initiative of the **SKI Star Foundation**, with support from educators, scientists, and international partners.
- The mission also **invites volunteers, ambassadors (called "Devis")**, and curriculum partners to contribute to its success.

● Chandrayaan-4 – Lunar Sample Return Mission

- **Launch Date:** 2027 (planned)
- **Type:** Multi-module mission to land, collect, and return lunar samples

- **Launch Strategy:** Dual LVM3 rockets with docking in lunar orbit
- **Landing Site:** Near Shiv Shakti Point
- **Significance:** India joins elite group (USA, Russia, China) in sample return capability

Chandrayaan-5 – LUPEX (Lunar Polar Exploration)

- **Launch Date:** 2027 – 2028 (planned)
- **Launch Vehicle:** H3-24L Rocket (Japan)
- India and Japan have Jointly Planned to study the **Moon's surface and the subsurface** for locating **lunar water and ice deposits**.

LUPEX (Lunar Polar Exploration Mission) – ISRO + JAXA

- **Launch Date:** 2028–2029 (planned)
- **Partners:** ISRO (lander), JAXA (rover)
- **Objective:** Explore Moon's south pole for water ice and survival tech
- **Launch Vehicle:** H3 rocket from Japan
- **Significance:** Strengthens India–Japan space collaboration; supports future lunar habitation

Bharatiya Antariksha Station (BAS) – India's Space Station

- **First Module Launch:** 2028 (planned)
- **Completion Target:** 2035
- **Orbit:** ~400–450 km altitude; inclination 51.5°
- **Crew Capacity:** 3–4 astronauts; stays of 3–6 months
- **Significance:** India's leap into orbital infrastructure and space tourism; part of Space Vision 2047

Space Vision 2047 – India's Strategic Space Roadmap

Space Vision 2047 is ISRO's forward-looking blueprint to transform India into a global space power by the centenary of independence in **2047**. It outlines ambitious goals across human spaceflight, planetary exploration, orbital infrastructure, and commercial space.

Key Objectives of Space Vision 2047

- **Establish Bharatiya Antariksha Station (Indian Space Station)** by 2035
- **Send Indian astronauts to the Moon** after successful Gaganyaan missions
- **Launch interplanetary missions** to Venus (Shukrayaan), Mars (Mangalyaan-2), and asteroids
- **Develop reusable launch vehicles** and advanced propulsion systems
- **Expand satellite constellations** for communication, navigation, and Earth observation
- **Boost private sector participation** via IN-SPaCE and NSIL
- **Enhance space-based services** for agriculture, disaster management, and climate monitoring
- **Promote space education and innovation** through national programs and global collaboration

Significance

- Positions India among top spacefaring nations
- Aligns with Amrit Kaal vision for technological self-reliance
- Encourages indigenous R&D, global partnerships, and space diplomacy
- Supports sustainable development and national security through space assets

ISRO's Space Situational Awareness (SSA) program

It is crucial for protecting India's space assets, ensuring safe satellite operations, and contributing to global space traffic management.

Strategic Importance

- India has over 50 active satellites in orbit, supporting critical sectors like communication, navigation, defense, and disaster management. SSA helps **track and protect these assets** from collisions and space debris.
- With increasing satellite launches and mega-constellations, **space is becoming congested**. SSA enables India to **monitor orbital traffic** and avoid potential hazards.

ISRO's Capabilities and Initiatives

- ISRO has developed the **IS4OM system** (ISRO System for Safe and Sustainable Space Operations Management) to provide real-time monitoring, collision avoidance, and risk assessment.
- The SSA program includes **conjunction analysis, collision avoidance for launch vehicles, and passivation strategies** to reduce debris creation.

Global Relevance

- SSA supports **international cooperation** in space safety and contributes to **global norms for responsible behavior** in outer space.
- ISRO's SSA efforts align with the goals of **Space Traffic Management (STM)**, ensuring safe and sustainable space operations for all nations.

Research and Innovation

- ISRO conducts **research on fragmentation events, debris growth, and mitigation techniques**, helping India stay at the forefront of space safety science.
- The SSA program also supports **space weather monitoring**, which is vital for predicting solar storms that can disrupt satellite operations.

Educational Outreach

- ISRO organizes workshops and publishes reports like the **Indian Space Situational Assessment Report (ISSAR)** to engage students, researchers, and policymakers.

Generative Design in Aerospace Systems Engineering

Generative design is an AI-driven engineering approach that uses algorithms to automatically generate multiple design solutions based on defined constraints like **weight, strength, material usage, and performance**.

- It mimics **natural evolution**, exploring thousands of configurations to find the most efficient and innovative designs.

Application in Aerospace

- In aerospace systems, generative design helps optimize:
 - **Structural components** of launch vehicles (LVs)
 - **Weight distribution** for fuel efficiency and payload capacity
 - **Thermal and stress resilience** under extreme conditions
- It is especially useful for **complex geometries** that are difficult to model manually.

ISRO's Use of Generative Design

- ISRO increasingly uses generative design software to:
 - **Minimize structural mass** without compromising strength
 - **Improve aerodynamic efficiency** of LV components
 - **Accelerate design cycles** for missions like Gaganyaan and CMS-03
- It complements **3D printing and advanced simulation tools** in ISRO's design workflow.

Common Misconception

- Generative design tools are **not limited to cryogenic fuel tanks** or PSLV variants.
- They are applied across **multiple launch systems**, including LVM3, SSLV, and HLV3.

Other Country's Major Space Missions

NASA's Apollo program (1961-1972)

It was a landmark series of missions that successfully landed humans on the Moon and returned them safely to Earth, culminating in Apollo 11's historic moonwalk in 1969.

● Mission Goals

- To **land humans on the Moon**, explore its surface, and return safely.
- To demonstrate **U.S. technological superiority** during the Cold War space race.
- To conduct **scientific exploration** and gather lunar samples.

🚀 Key Achievements

- **Apollo 11 (1969)**: First successful Moon landing. Neil Armstrong and Buzz Aldrin walked on the lunar surface while Michael Collins orbited above.
- **Six lunar landings**: Apollo 11, 12, 14, 15, 16, and 17.
- **Apollo 17 (1972)**: Final Moon mission; included geologist Harrison Schmitt, the only scientist to walk on the Moon.

🛠️ Technology and Legacy

- Used the **Saturn V rocket**, still the most powerful rocket ever flown.
- Introduced the **Command Module, Service Module, and Lunar Module** architecture.
- Returned **382 kg of lunar samples**, revolutionizing planetary science.
- Paved the way for **space stations, shuttle programs**, and future Moon missions like Artemis.

📅 Timeline

- **1961**: Program announced by President John F. Kennedy.
- **1969**: First Moon landing (Apollo 11).
- **1972**: Final Moon mission (Apollo 17).

The Apollo program officially ended in 1972 after Apollo 17. However, its legacy continues through NASA's Artemis program, which aims to return humans to the Moon.

Artemis II:

- Launch Date: 1 April 2026
- Splashdown: 10 April 2026
- **Mission Type**: Crewed lunar flyby (no landing)
- **Launch Date**: Scheduled between February and April 2026
- **Trajectory**: Free-return trajectory — loops around the Moon and returns to Earth
- **Rocket**: Space Launch System (SLS) — the most powerful rocket ever built
- **Spacecraft**: Orion — designed for deep space travel
- Crew reached **252,756 miles from Earth**, setting a new record for the farthest humans have travelled from Earth.
- It is **NASA's first crewed lunar mission in over 50 years.**
- This will be the **first crewed flight** of both the SLS and Orion systems

👥 Crew Members

- **Reid Wiseman** (Commander, NASA)
- **Victor Glover** (Pilot, NASA)
- **Christina Koch** (Mission Specialist, NASA) – first woman to travel on a lunar mission
- **Jeremy Hansen** (Mission Specialist, Canadian Space Agency)- first non-American to travel on a lunar mission.

🎯 Mission Objectives

- **Test life support systems** in deep space
- **Validate navigation, communication, and thermal protection systems**
- **Demonstrate safe return procedures** from lunar orbit
- **Lay groundwork for Artemis III**, which aims to land astronauts on the Moon

LEXI (Lunar Environment heliospheric X-ray Imager)

It is a NASA mission launched in January 2025 to study Earth's magnetosphere from the Moon using soft X-ray imaging.

- It is part of NASA's **Artemis campaign** and was delivered to the lunar surface via the **Blue Ghost 1**

- LEXI captures **global images of Earth's magnetosphere**, helping scientists understand how **solar wind interacts with Earth's magnetic field**.
- The mission uses a **soft X-ray telescope** to observe faint emissions caused by solar particles colliding with the magnetosphere.
- Its data supports **space weather prediction**, astronaut safety, and future lunar exploration.
- LEXI began science operations in **July 2025**, marking a new era of Moon-based space environment monitoring.

Hubble Space Telescope - NASA's iconic space observatory

- **Launch Date:** April 24, 1990
- **Launch Vehicle:** Space Shuttle Discovery (STS-31)
- **Orbit:** Low Earth Orbit, ~515 km above Earth
- **Speed:** ~8 km/s, completing one orbit every 95 minutes

Scientific Objectives

- To explore the **formation and evolution of galaxies, stars, and planets**
- To study **black holes, nebulae, supernovae, and dark energy**
- To observe **exoplanet atmospheres** and distant cosmic phenomena

Instruments and Capabilities

- Hubble carries advanced instruments like:
 - **Wide Field Camera 3 (WFC3)**
 - **Advanced Camera for Surveys (ACS)**
 - **Cosmic Origins Spectrograph (COS)**
 - **Space Telescope Imaging Spectrograph (STIS)**
- It observes in **ultraviolet, visible, and near-infrared wavelengths**, offering unmatched clarity due to its position above Earth's atmosphere.

Major Discoveries

- Confirmed the existence of **supermassive black holes** at galaxy centers
- Helped determine the **rate of expansion of the universe**
- Provided evidence for **dark energy**
- Captured stunning images like the **Pillars of Creation, Deep Field, and Jupiter's auroras**

Servicing and Longevity

- Hubble was designed to be **serviced by astronauts**, with five missions between 1993 and 2009 upgrading its instruments and systems.
- Despite its age, Hubble remains **operational and scientifically productive** in 2025, often working in tandem with newer observatories like **James Webb Space Telescope (JWST)**.

Legacy and Impact

- Named after astronomer **Edwin Hubble**, who discovered the universe's expansion.
- Pioneered **public engagement with space science**, inspiring generations through its breathtaking imagery.
- Continues to contribute to **cutting-edge astrophysics**, planetary science, and cosmology.

James Webb Space Telescope (JWST) world's most powerful space observatory

- **Launch Date:** December 25, 2021
- **Launch Vehicle:** Ariane 5 rocket
- **Launch Site:** Guiana Space Centre, French Guiana
- **Orbit:** Sun-Earth Lagrange Point 2 (L2), ~1.5 million km from Earth
- **Partners:** NASA, ESA (European Space Agency), CSA (Canadian Space Agency)

Scientific Objectives

- Study **formation of the first galaxies** after the Big Bang
- Observe **star and planet formation** in distant nebulae
- Analyze **atmospheres of exoplanets** for signs of habitability

🚀 Key Features

- **Primary Mirror:** 6.5 meters wide, made of **18 gold-coated beryllium segments**
- **Sunshield:** 5-layer, tennis-court-sized shield to block heat from Sun, Earth, and Moon
- **Instruments:**
 - **NIRCam** (Near Infrared Camera)
 - **NIRSpec** (Near Infrared Spectrograph)
 - **MIRI** (Mid-Infrared Instrument)
 - **FGS/NIRISS** (Fine Guidance Sensor/Near Infrared Imager and Slitless Spectrograph)

🔭 Discoveries So Far

- Captured **deep field images** showing thousands of galaxies
- Detected **water vapor and carbon dioxide** in exoplanet atmospheres
- Revealed **stellar nurseries** and **dying stars** in unprecedented detail

🏆 Significance

- Successor to the **Hubble Space Telescope**
- Designed for a **10-year mission**, extendable to **20 years**
- Revolutionizing our understanding of the **early universe and alien worlds**

Voyager Mission

NASA's Voyager mission consists of two spacecraft—Voyager 1 and Voyager 2—launched in 1977 to explore the outer planets and now traveling through interstellar space, making them humanity's most distant and enduring explorers.

🚀 Launch and Objectives

- **Voyager 2** launched first on **August 20, 1977**, followed by **Voyager 1** on **September 5, 1977**, both from **Cape Canaveral, Florida**, aboard **Titan-Centaur** rockets.
- Originally designed for a **five-year mission** to study **Jupiter and Saturn**, the mission was extended to include **Uranus and Neptune**, making it the only spacecraft to visit all four outer planets.

🏆 Major Achievements

- Explored **48 moons**, planetary **rings**, and **magnetic fields** of the outer planets.
- Voyager 1 became the **first spacecraft to enter interstellar space** in **2012**, followed by Voyager 2 in **2018**, crossing the heliosphere—the Sun's protective bubble.
- Provided iconic images like the **"Pale Blue Dot"**, showing Earth from 6 billion kilometers away.

🔭 Scientific Legacy

- Carried the **Golden Record**, a 12-inch gold-plated copper disk with sounds and images representing Earth's diversity, intended for any extraterrestrial life it might encounter.
- Continues to send data on **cosmic rays, magnetic fields, and plasma waves**, helping scientists understand the interstellar medium.

📡 Current Status (2025)

- Both spacecraft are in **extended mission phase**, still transmitting data despite being **over 22 billion kilometers** from Earth.
- Operated by NASA's **Jet Propulsion Laboratory (JPL)** in Pasadena, California.
- Voyager 1 and 2 are expected to continue operating until **around 2030**, when their power sources will no longer support communications.

Chang'e 6 Mission

It is China's historic lunar mission that successfully returned the world's first samples from the far side of the Moon in June 2024.

🟡 Mission Overview

- **Chang'e 6** is part of China's ambitious lunar exploration program, named after the Chinese moon goddess Chang'e.
- It is the **first mission in human history to collect and return samples from the Moon's far side**, a region

Key Components

The spacecraft consisted of four modules:

- **Orbiter:** Remained in lunar orbit to support communications and sample return.
- **Lander:** Touched down on the Moon's far side to collect samples.
- **Ascender:** Lifted off from the lunar surface carrying the samples.
- **Returner:** Brought the samples back to Earth.

Timeline of Events

- **March 20, 2024:** Queqiao-2 relay satellite launched to enable communication between Earth and the Moon's far side.
- **May 3, 2024:** Chang'e 6 launched aboard a Long March-5 rocket from Wenchang Space Launch Site.
- **May 8, 2024:** Entered lunar orbit after near-moon braking.
- **June 25, 2024:** Returner landed in north China, completing the mission and delivering the samples.

Scientific Importance

- The far side of the Moon has a **distinct geological composition**, offering insights into the Moon's formation and evolution.
- These samples may help scientists understand **lunar volcanism, impact history**, and even the early solar system.

Global Collaboration

- Chang'e 6 carried **international payloads** from France, Italy, Sweden, and Pakistan, showcasing China's openness to global scientific cooperation.

Future Implications

- This mission sets the stage for **Chang'e 7 and 8**, which aim to explore lunar resources and establish infrastructure for a **robotic lunar research station**.
- It also strengthens China's position in the global space race and contributes to humanity's long-term goal of **deep space exploration**.

Tianwen-1 and 2

Tianwen-1 was China's first Mars mission launched in 2020, while Tianwen-2 is China's first asteroid sample-return and comet exploration mission launched in 2025. Both are part of China's ambitious Tianwen planetary exploration program.

Tianwen-1: Mars Mission

- **Launch Date:** 23 July 2020
- **Launch Vehicle:** Long March 5
- **Mission Type:** Mars orbiter, lander, and rover
- **Achievements:**
 - Entered Mars orbit on 10 February 2021
 - Successfully landed the **Zhurong rover** on 15 May 2021 in Utopia Planitia
 - China became the **first country to orbit, land, and deploy a rover on Mars in its maiden attempt**
- **Scientific Goals:**
 - Study Martian geology, climate, and magnetic field
 - Search for signs of water and past life
 - Map the surface and analyze soil composition

Tianwen-2: Asteroid and Comet Mission

- **Launch Date:** 28 May 2025
- **Launch Vehicle:** Long March 3B
- **Mission Type:** Asteroid sample return + comet orbiter/lander
- **Targets:**
 - **469219 Kamo'oalewa** (near-Earth asteroid): Sample collection and return by 2027
 - **311P/PANSTARRS** (main-belt comet): Orbital insertion 2035 for long-term study

- **Scientific Goals:**
 - Understand the **formation and evolution of asteroids**
 - Investigate **early solar system materials**
 - Explore cometary activity and structure

Program Significance

- Both missions are part of the **Tianwen series** under the **China National Space Administration (CNSA)**.
- They showcase China's growing capabilities in **interplanetary exploration**, autonomous navigation, and sample-return technology.
- Tianwen-2 marks China's entry into **asteroid mining and deep space resource studies**, while Tianwen-1 laid the foundation for future Mars sample-return missions.

Proba-3 Mission (ESA)

Proba-3 is the European Space Agency's (ESA) groundbreaking solar mission launched on 5 December 2024 aboard ISRO's PSLV-XL rocket. It is the world's first precision formation flying mission designed to study the Sun's corona by creating artificial solar eclipses in space.

Mission Concept

- Proba-3 consists of **two spacecraft flying in formation**:
 - **Coronagraph spacecraft**: Observes the Sun's corona.
 - **Occulter spacecraft**: Blocks the Sun's bright disk to simulate a solar eclipse.
- This setup allows **continuous observation of the solar corona** for up to **6 hours every 19.6-hour orbit**, far longer than natural eclipses.

Launch and Timeline

- **Launch Date**: 5 December 2024
- **Launch Vehicle**: PSLV-XL (ISRO)
- **Mission Duration**: 24 months
- **Science Operations Started**: 3 July 2025

Scientific Goals

- Study the **structure and dynamics of the solar corona**, which is key to understanding solar wind and space weather.
- Demonstrate **high-precision autonomous formation flying**, paving the way for future missions like **LISA**, which will detect gravitational waves using spacecraft formations.

Technical Innovation

- The two spacecraft maintain a **precise 150-meter separation** using advanced navigation and control systems.
- Instruments include:
 - **ASPIICS coronagraph**: Captures high-resolution images of the corona.
 - **DARA**: Supports alignment and data acquisition.

International Collaboration

- ESA leads the mission, with support from **ISRO for launch services**.
- It showcases **Europe-India cooperation** in cutting-edge space science.

LUNA Mission - Soviet lunar exploration missions

The Luna mission was a series of Soviet lunar exploration missions conducted between 1959 and 1976, marking the first successful human-made contact with the Moon.

Mission Overview

- **Program Name**: Luna (also known as Lunik)
- **Operator**: Soviet Union (USSR)
- **Duration**: 1959 to 1976
- **Total Missions**: 24 officially numbered missions (Luna 1 to Luna 24)

Key Milestones

Luna 1 (1959) First spacecraft to reach the Moon but missed impact but entered orbit. **Luna 2 (1959)** First spacecraft to reach the Moon but missed impact but entered orbit. **Luna 3 (1959)** First spacecraft to reach the Moon but missed impact but entered orbit. **Luna 4 (1959)** First spacecraft to reach the Moon but missed impact but entered orbit. **Luna 5 (1959)** First spacecraft to reach the Moon but missed impact but entered orbit.

- **Luna 2 (1959):** First human-made object to impact the Moon.
- **Luna 3 (1959):** First photographs of the Moon's far side.
- **Luna 9 (1966):** First successful soft landing on the Moon; transmitted images from the surface.
- **Luna 10 (1966):** First spacecraft to orbit the Moon.
- **Luna 16, 20, 24:** Sample return missions that brought lunar soil back to Earth.

Scientific Contributions

- Provided early data on **lunar surface composition, magnetic field, and radiation environment**.
- Helped develop **soft-landing technology**, paving the way for future robotic and crewed missions.

Legacy

- The Luna program was a **cornerstone of Soviet space exploration**, rivaling NASA's early lunar efforts.
- It laid the foundation for modern lunar missions and remains a **historic achievement in planetary science**.

2025-2026 Science & Technology Highlights

2026

- NASA unveiled the **PRAXIS Mission** to study the **rings of Saturn, Uranus and Neptune**.
- India's **first and deepest two geothermal wells** were commissioned at **Puga Valley, Ladakh**.
- India's first dengue vaccine **Qdenga** was developed by **Takeda**.
- Indian-origin NASA astronaut **Anil Menon** reached the ISS aboard **Soyuz MS-29**.
- **Geneva, Switzerland** will host the **Global AI Summit 2027**.
- **Punjab** became the first Indian state to make **Artificial Intelligence a core and compulsory subject from Classes 1-12**.
- India's first AI-enabled **Rural Internal Audit Portal** was launched by **Shivraj Singh Chouhan**.
- **Anil Menon** became the **third astronaut of Indian origin to complete a spacewalk outside the ISS**.
- **Razorpay** launched India's first AI-powered payment foundation model **Razorpay Vulcan**.
- **23 August** was observed as **National Space Day 2026**.
- **Sophie Adenot** became the **first French woman and second European woman astronaut to complete a spacewalk outside the ISS**.
- India's first dedicated **Quantum and AI University** campus will be established at **Amaravati, Andhra Pradesh**.
- **Rajasthan** became the first Indian state to grant an exploration licence for a **Rare Earth Element (REE) block**.
- **Param Pragma** AI supercomputing facility was inaugurated at **IIT Delhi's Sonapat campus**.
- India's first privately developed **800 kN Full-Flow Staged Combustion rocket engine** was named **Everest**.
- India's first indigenous **Stratospheric Super Pressure Balloon "VISTA"** was launched from **Andhra Pradesh**.
- **Chandigarh University** became India's first private university to establish an **IndiaAI Data Lab** in collaboration with **Intel India**.
- NASA's **MAVEN Mission** was primarily designed to study **Mars**.
- **Varanasi** became the first Indian city to be integrated under the **Easy Connect** model.
- The **International Space Station (ISS)** is planned to be decommissioned by **2030**.
- India's first **AI-enabled hyperscale data center** will be established in **Jamnagar, Gujarat**.
- **NASA** announced a 4-member crew for the **Artemis-III Mission**.
- **Dr. Soumya Swaminathan** became the second Indian woman scientist to be elected as a Fellow of the **Royal Society**.
- **ISRO** received the **Goddard Astronautics Award 2026** for the **Chandrayaan-3 Mission**.
- **IIT Kanpur** Director **Manindra Agrawal** was elected as a Fellow of the **Royal Society** for his contribution to **Theoretical Computer Science and Mathematics**.
- South Korea introduced its first humanoid robot monk named **Gabi**.
- **VERVE-102** gene therapy proved effective against **LDL cholesterol**.
- India's first **SkyCast System** was launched at **IGI Airport, New Delhi**.
- **Donanemab** is used for the treatment of **Alzheimer's Disease**.
- India's first AI orbital data center satellite "**Pathfinder**" was announced by **Pixxel and Sarvam**.
- **IIT Madras** established its first international center for deep-tech startups in the **USA**.
- **Oil India Limited** discovered a new natural gas reserve in the **Dandewala area of Rajasthan**.
- **Adani Green Energy Limited** launched the world's second-largest **Battery Energy Storage System (BESS)** at **Khavda, Gujarat**.
- India's first **Prosopis Juliflora-based Green Methanol Plant** will be established at **Kandla, Gujarat**.

- India's first carbon-absorbing **Algae Tree** was introduced in **Bhopal**.
- India's first semi high-speed railway corridor was approved in **Gujarat**.
- India's first satellite-tagged soft-shell turtle was released in **Kaziranga National Park**.
- India's first USD-based debit card was launched by **ICICI Bank** in collaboration with Visa.
- India's first **Human-Elephant Conflict Research Centre** will be established in **Jharkhand**.
- The first SME-led semiconductor chip manufacturing facility was inaugurated in **Bhiwadi, Rajasthan**.
- India's first **Air Train Project** will be launched in **Delhi**.
- GalaxEye** launched its first commercial satellite "**Drishiti**" through SpaceX's Falcon-9 rocket.
- India will establish its third ISRO launch center at **Sriharikota, Andhra Pradesh**.
- Iran launched **Paya Zafar-2 and Kosar-1.5 satellites** using Russia's Soyuz rocket.
- India's first national-level AI research institute has been set up at **GIFT City, Gujarat**.
- South Korea has implemented the world's first comprehensive AI law (**AI Basic Act**).
- India's first integrated private satellite plant foundation was laid at **Sanand, Gujarat**.
- India's first government AI clinic was inaugurated in **Greater Noida**.
- DRDO's **SWaDeS technology** is related to a portable water purification system for soldiers.
- ISRO's **DEX experiment** is associated with the **XPoSat mission**.
- The **Bhairav Battalion** is linked to **drone technology**.
- The **Param Shakti supercomputer** was launched at **IIT Madras**.
- China has launched the world's largest **compressed-air energy storage plant**.
- Kotak Mahindra Bank issued India's first fully digital **foreign portfolio investor license**.
- Andhra Pradesh Assembly became the first to use **AI-based face recognition** for MLA attendance.
- India launched its first **national biobank** dedicated to rare diseases.
- India is hosting the **Global South AI Impact Summit 2026** for the first time.
- India's first **CBDC system** was launched in **Gandhinagar**.
- India's first private **helicopter assembly line** started in **Karnataka**.
- Indian doctors performed the world's first **remote ultrasound** in **Antarctica**.
- India's first **AI-powered university** was launched in **Meerut**.
- India will introduce **hydrogen-powered buses** in **Kochi**.
- NATO launched the **Arctic Sentry Mission**.
- WHO approved **nOPV2 polio vaccine** developed by **Biocon Limited (India)**.

- India joined the US-led strategic alliance **Pax Silica** for AI, semiconductors, and critical minerals.
- India's first **underwater road-cum-rail tunnel** will be built under the **Brahmaputra River**.
- CERN scientists discovered a new particle **Xi-cc-plus baryon** at **Geneva, Switzerland**.
- Indian startup **Spacetime 4D Printing Solutions** developed the **Akasha300 3D printer** for ISRO.
- India's largest pregnancy cohort study is named **GARBH-INI**.
- India's first **microalgae tower air purifier** was installed in **New Delhi**.
- India's first **OTEC-based plant** will be set up in **Kavaratti, Lakshadweep**.
- India's first indigenous **amphibious drone** is named **Avataar**.

2025

- India's **Genome-Enhanced Rice Breakthrough**
 - India became the **first country** to develop **genome-edited rice varieties**—**DRR Dhan 100** and **Pusa DST Rice 1**—using **CRISPR-Cas9 technology**.
 - These varieties offer **higher yields, drought tolerance, and reduced methane emissions**, marking a major advancement in **climate-resilient agriculture**.
- Quantum Leap in Andhra Pradesh**
 - IBM and TCS** partnered with the Andhra Pradesh government to install **India's largest quantum computer** at the Quantum Valley Tech Park in Amaravati. Featuring a **156-qubit Heron processor**, the initiative supports **India's National Quantum Mission** and boosts research and innovation.
- Global Space Exploration Conference (GLEX 2025)**
 - India hosted the **12th GLEX** in **New Delhi** from **May 7–9, 2025**. Organized by **ISRO** and the **International Astronautical Federation**, the event highlighted **India's leadership in space exploration and global collaboration**.
- DRDO Missile Testing Range in Nagayalanka**
 - Prime Minister Modi laid the foundation stone for **DRDO's new missile testing range** in **Nagayalanka, Andhra Pradesh**. Designed to support **Phase-2 Ballistic Missile Defence systems**, it strengthens **India's strategic defence infrastructure**.
- Multi-Influence Ground Mine (MIGM)**
 - DRDO** and the **Indian Navy** successfully tested the **MIGM**, an advanced underwater mine capable of detecting **acoustic, magnetic, and pressure signatures**. It enhances **India's naval defence** against

stealth submarines and unmanned underwater threats.

India's Clean Energy Milestone

- India surpassed Germany in 2024 to become the world's third-largest producer of wind and solar energy. With 24 GW of solar capacity added, clean energy now accounts for 22% of India's electricity generation.

Largest Renewable Energy Complex in Andhra Pradesh

- ReNew Power is investing ₹22,000 crore to build India's largest renewable energy complex in Anantapur, Andhra Pradesh. The facility will include 2.8 GW of solar and wind capacity and a 2 GWh battery storage system.

AI Data Center Park in Raipur

- Chhattisgarh inaugurated its first AI Data Center Park in Nava Raipur. Spanning 13.5 acres, the ₹1,000 crore facility will support AI-driven solutions in agriculture, education, and governance, creating thousands of jobs.

Bhargavastra Anti-Drone System

- Solar Defence & Aerospace Ltd. developed Bhargavastra, a multi-layered micro-missile system to counter drone swarms. It uses guided and unguided munitions and advanced sensors to neutralize aerial threats with precision.

Google's AI First India 2025 Accelerator

- Google launched the AI First India 2025 accelerator to support startups building core AI products. Selected startups receive mentorship, cloud credits, and access to advanced AI tools like Gemini and Imagen.

EMM-Negative Blood Group Discovery

- India identified the rare EMM-negative blood group in a 65-year-old patient, making it the ninth known case globally. Recognized by the International Society of Blood Transfusion, it adds a new classification to global blood systems.

Second Indian in Space: Shubhanshu Shukla

- Group Captain Shubhanshu Shukla became the second Indian astronaut in space, joining Axiom Mission 4 to the ISS. His mission marks India's re-entry into human spaceflight after four decades.

ConvEx-3 Nuclear Emergency Exercise

- India participated in ConvEx-3, the IAEA's largest nuclear emergency drill hosted by Romania. The exercise tested global readiness for radiological crises and showcased India's nuclear safety

SIPRI Yearbook 2025: India's Nuclear Arsenal

- India was reported to possess 180 nuclear warheads, surpassing Pakistan's 170. The SIPRI report highlighted India's modernization of delivery systems and development of a robust nuclear triad.

Google Safety Engineering Center (GSEC) in Hyderabad

- Google launched GSEC in Hyderabad, its first in Asia. The center focuses on cybersecurity, AI safety, and digital protection, supporting India's digital infrastructure and policy collaboration.

Diu District Fully Solar-Powered

- Diu became India's first district to meet its entire daytime power demand through solar energy. With 11.88 MW capacity, it sets a benchmark for renewable adoption and energy independence.

Virtual Afforestation in Kerala

- Kerala launched the Vithoot programme, a tech-driven afforestation initiative using aerial seed ball distribution. It aims to restore ecosystems, reduce human-wildlife conflict, and promote climate resilience.

Energy Transition Index 2025

- India ranked 71st in the World Economic Forum's Energy Transition Index, reflecting progress in energy access and efficiency. However, challenges remain in infrastructure and transition readiness.

ISRO's 5th Chairman K. Kasturirangan Passed Away

- Dr. K. Kasturirangan, a visionary space scientist, passed away at age 84 in Bengaluru on April 25, 2025. He led ISRO from 1994 to 2003, steering key missions like PSLV, GSLV, and the INSAT/IRS satellite systems. He was awarded the Padma Vibhushan in 2000.

Dire Wolf Species Revived

- Scientists at Colossal Biosciences successfully revived the extinct Dire Wolf using CRISPR gene editing and ancient DNA. Three pups—Romulus, Remus, and Khaleesi—were born, marking the first functional de-extinction of a vertebrate species.

Gaia Mission Ended (ESA)

- ESA's Gaia spacecraft, launched in 2013, ended operations on March 27, 2025. It mapped 2 billion stars, revolutionizing our understanding of the Milky Way's structure and evolution. Final data releases will continue until 2030.

- **India's First Quantum Computing Village – Amravati**
 - Amravati, Andhra Pradesh, is set to host **India's first Quantum Computing Village**, featuring **IBM's Quantum System Two**. The project spans **50 acres**, aims for **global leadership in quantum tech**, and is backed by **IBM, TCS, and L&T**.
- **Google Unveiled 7th-Gen AI Chip Ironwood**
 - Google launched **Ironwood**, its **most powerful TPU**, designed for **AI inference**. It scales up to **9,216 chips**, delivering **42.5 Exaflops**, surpassing the world's largest supercomputer. It powers **LLMs and MoEs** with **unmatched efficiency**.
- **Meta Launched Advanced AI Model Llama-4**
 - Meta released **Llama-4**, a **multimodal AI model** with **MoE architecture**, supporting **text and image inputs**. It includes variants like **Scout (17B)** and **Maverick (128x17B)**, optimized for **visual reasoning, multilingual tasks, and code generation**.
- **Skyroot Aerospace Tested Kalam-100 Engine**
 - Skyroot successfully **test-fired the Kalam-100 engine**, powering the **third stage of Vikram-1 rocket**. The engine ran for **102 seconds**, achieving **100 kN thrust**, and featured **flex nozzle control**. It's a major step for **India's private space sector**.
- **Japan Built World's First 3D Printed Railway Station in 6 Hours**
 - In **Arida, Japan**, **JR West and Serendix** constructed a **3D-printed railway station** overnight. The **reinforced concrete structure** was assembled in **under 6 hours**, showcasing **rapid, sustainable infrastructure innovation**.
- **DRDO Test-Fired Long Range Glide Bomb Gaurav**
 - DRDO successfully tested **Gaurav**, a **precision-guided glide bomb** from a **Sukhoi-30 MKI**. It demonstrated a range of **~100 km**, uses **INS and satellite guidance**, and enhances **India's stand-off strike capability**.
- **India Became 4th Country to Test Laser Guided Weapon System**
 - India tested the **30-kW Sahastra Shakti laser weapon**, joining the **US, Russia, and China**. It neutralizes **drones and sensors** with **directed energy**, marking a leap in **asymmetric warfare tech**.
- **Himalayan Climate Center Inaugurated in Udhampur, J&K**
 - India launched the **Himalayan High-Altitude Atmospheric & Climate Research Centre** in **Nathatop, Udhampur**. It studies **cloud formation and aerosols in the clear**

conditions and hosts the **Indo-Swiss ICE-CRUNCH project**.

- **India Approved ₹63,000 Crore Deal for Rafale Marine Jets**
 - India signed a **₹63,000 crore deal** with **France** for **26 Rafale-M jets** to operate from **INS Vikrant and Vikramaditya**. Includes **indigenous weapons integration, logistics, and training**. Deliveries begin **2029**, complete by **2031**.
- **SpaceX Launched FRAM2 Mission to Earth's Polar Orbit**
 - FRAM2 became the **first human spaceflight in polar orbit**, launched by **SpaceX** on **April 1, 2025**. The crew conducted **22 experiments**, including the **first X-ray in space** and **mushroom cultivation**, returning after **3.5 days**.
- **Amaravati to Become World's First City Fully Powered by Renewable Energy**
 - Amaravati aims to be the **first city globally powered entirely by renewables**, targeting **2,700 MW** from **solar, wind, and hydro**. It mandates **rooftop solar, green buildings, and EV infrastructure**, backed by a **₹65,000 crore investment**.
- **Bhutan Announced Adoption of Green Cryptocurrency**
 - Bhutan is mining **cryptocurrency** using **100% hydropower**, making it **carbon-neutral**. Partnering with **Bitdeer**, it holds **\$600M+ in Bitcoin**, and plans a **digital bank and blockchain currency** in **Gelephu Mindfulness City**.
- **ISRO & SCL Developed 32-bit Microprocessors: Vikram 3201 & Kalpana 3201**
 - ISRO and SCL unveiled **Vikram 3201** (custom ISA) and **Kalpana 3201** (SPARC V8), India's first **indigenous 32-bit space-grade microprocessors**. Validated during **PSLV-C60**, they support **Ada and C**, boosting **Atmanirbharata in avionics**.
- **Chandrayaan-5 to Be Operated in Collaboration with JAXA**
 - India and Japan signed a pact for **Chandrayaan-5 / LUPLEX**, targeting the **lunar south pole**. ISRO will build the **lander**, JAXA the **rover**, and launch via **H3 rocket**. The mission will study **lunar water in permanently shadowed regions**.
- **Google Launches Gemma 3 AI Model**
 - Google unveiled **Gemma 3**, its latest lightweight open-source AI model optimized for **on-device performance** and **multilingual tasks**, enhancing accessibility and privacy in AI applications.

- DRDO successfully test-fired the **Astra air-to-air missile** from **LCA Tejas** at **Chandipur**, validating its integration and boosting India's indigenous aerial combat capabilities.
- **Bharti Airtel & Jio Partner with SpaceX**
 - India's telecom giants **Bharti Airtel** and **Jio** signed agreements with **SpaceX** to deploy **Starlink-based high-speed internet**, especially targeting **remote and rural regions**.
- **Space Museum Inaugurated in Jhansi, Uttar Pradesh**
 - A new **Space Museum** opened in **Jhansi**, showcasing **ISRO's achievements**, interactive exhibits, and inspiring youth toward careers in space science.
- **Semiconductor Park to Be Established in Noida**
 - A **semiconductor park** is planned in **Noida**, Uttar Pradesh, under India's **chip manufacturing mission**, aiming to boost **electronics self-reliance** and attract global investments.
- **New Spider Species Discovered in Kerala**
 - Scientists discovered **two new jumping spider species** in **Shendurney Wildlife Sanctuary**, Kerala, contributing to India's biodiversity mapping.
- **Assam to Launch Its Own Satellite**
 - The **Assam government** announced plans to launch its **first satellite**, focusing on **disaster management, agriculture monitoring, and climate resilience**.
- **India Becomes World's 2nd Largest Arms Importer**
 - According to the **SIPRI Yearbook 2025**, India ranked as the **second-largest arms importer**, reflecting its ongoing **defence modernization efforts**.
- **AI Chatbot 'Sarathi' Launched by Haryana**
 - Haryana introduced '**Sarathi**', an **AI-powered chatbot** offering **instant access to 17,820+ government documents**, enhancing **citizen services and transparency**.
- **Digital Crop Survey (DCS) System Launched**
 - The **Ministry of Agriculture** launched the **Digital Crop Survey**, using **mobile-based geo-tagging** to collect **real-time crop data**, improving **agricultural planning and insurance**.
- **Rashtriya Karmayogi Jan Seva Programme by AYUSH**
 - The **Ministry of AYUSH** launched this programme to **train officials in leadership, motivation, and service orientation**, under the **Mission Karmayogi framework**.
- ISRO announced plans for the **Bharatiya Antariksha Station**, with the **first module launching in 2028**, aiming for full deployment by **2035**.
- **India's First Biopolymer Plant in Lakhimpur Kheri**
 - Uttar Pradesh laid the foundation for a **₹2,850 crore biopolymer plant** producing **PLA-based bioplastics** from sugarcane, promoting **eco-friendly manufacturing**.
- **India's First Offshore Airport Planned Near Mumbai**
 - A new **offshore airport** is planned on an **artificial island near Vadhvan**, Mumbai, modeled after **Hong Kong and Osaka airports**, enhancing **aviation and maritime logistics**.
- **Microsoft Introduced AI Model 'Magma'**
 - Microsoft launched **Magma**, a **multimodal AI model** capable of **UI navigation and robotic manipulation**, bridging **digital and physical environments**.
- **₹20,000 Crore Nuclear Energy Mission for SMRs**
 - India announced a **₹20,000 crore mission** to develop **Small Modular Reactors (SMRs)**, aiming to operationalize **five indigenous units by 2033**.
- **₹600 Crore Allocated for Deep Ocean Mission**
 - The **Union Budget 2025-26** provisioned **₹600 crore** for the **Samudrayaan project**, enabling **manned submersible exploration up to 6,000 meters**.
- **DRDO Successfully Tested VSHORADS in Chandipur**
 - DRDO conducted **three successful trials** of the **Very Short Range Air Defense System (VSHORADS)**, showcasing its ability to **neutralize low-altitude aerial threats**.
- **North India's First 1-MW Green Hydrogen Plant in Himachal**
 - Himachal Pradesh started a **1-MW green hydrogen plant** in **Dabhota**, producing **423 kg/day**, supporting its goal to become **India's first green energy state**.
- **HJT-36 Renamed 'Yashas' by HAL**
 - HAL's **HJT-36 jet trainer** was renamed '**Yashas**' after upgrades in **spin recovery, avionics, and armament capabilities**, enhancing **Stage-II pilot training**.
- **AI Action Summit 2025 Co-Chaired by PM Modi in Paris**
 - PM Modi co-chaired the **AI Action Summit** with **President Macron**, advocating for **inclusive AI governance, Global South access**, and announcing **India as next host**.
- **AI for Entrepreneurship Initiative Launched**
 - The **Ministry of Skill Development** and **Entrepreneurship** launched a program to **train and mentor**

youth in AI and entrepreneurial thinking, with certification from NSDC and Intel.

▪ **Grok 3 AI Chatbot Launched by xAI**

- Elon Musk's **xAI** launched **Grok 3**, a **reasoning-focused chatbot** trained on **Colossus supercomputer**, outperforming peers in **math, coding, and logic tasks**.

▪ **Microsoft's Magma AI Model Reaffirmed**

- Reiterating, **Magma** is a **foundation model** for **multimodal AI agents**, excelling in **robotics, UI navigation, and spatial reasoning**.

▪ **AMRSense Developed by IIIT-Delhi**

- IIIT-Delhi launched **AMRSense**, an **AI ecosystem** for tracking **antibiotic resistance** using **hospital data**, aiding **real-time surveillance and stewardship**.

▪ **Nayanamritham 2.0 Launched by Kerala**

- Kerala introduced **Nayanamritham 2.0**, the **world's first government-led AI eye screening program** for **DR, glaucoma, and AMD**, using **Remidio's AI fundus cameras**.

▪ **ISRO & IIT Madras Developed Indigenous IRIS Chip**

- The **IRIS chip**, based on **RISC-V architecture**, was jointly developed by **ISRO and IIT Madras** to power future **space-grade processors**, enhancing India's self-reliance in **microelectronics**.

▪ **India to Host Next Global AI Summit**

- India will host the **Global AI Summit in 2026**, focusing on **ethical AI, inclusivity, and AI for development**, with participation from **G20 nations and tech leaders**.

▪ **Project Waterworth by Meta**

- Meta announced **Project Waterworth**, a **50,000 km submarine cable** connecting **India and the USA**, aimed at boosting **internet speed and data capacity** across continents.

▪ **India Implements Digital Pilot License**

- India became the **second country globally** after the **USA** to implement **digital pilot licenses**, streamlining **aviation documentation** and enhancing **security and transparency**.

▪ **Tezz: India's First Private Supersonic Ramjet Engine**

- Hyprix unveiled **Tezz**, India's **first private supersonic ramjet engine**, capable of **Mach 3+ speeds**, marking a breakthrough in **aerospace propulsion**.

▪ **India's First Wildlife Bio Bank in West Bengal**

- Established at **Padmaja Naidu Himalayan Zoological Park**, the **wildlife bio bank** stores **genetic material** of endangered species for **conservation and research**.

▪ **BIOLUMPIVAXIN Vaccine for Lumpy Disease**

- **Bharat Biotech and ICAR** developed **BIOLUMPIVAXIN**, India's first **DNA-based vaccine for Lumpy Skin Disease**, offering rapid protection for **cattle**.

▪ **ISRO Germinates Cowpea Seeds in Space**

- ISRO successfully **germinated cowpea seeds aboard a space module**, advancing **space agriculture** and food sustainability for long-duration missions.

▪ **Bhargavastra Counter-Drone System by Economic Explosives Ltd.**

- **Bhargavastra**, developed by **Economic Explosives Ltd.**, is a **multi-layered anti-drone system** capable of neutralizing **swarm attacks** using **AI-guided munitions**.

▪ **Nag MK-2 Anti-Tank Missile Tested by DRDO**

- DRDO successfully tested the **Nag MK-2 missile** in **Pokhran**, featuring **top-attack capability** and **fire-and-forget guidance**, enhancing India's anti-armor arsenal.

▪ **First Green Hydrogen Hub: Andhra Pradesh**

- Under the **National Green Hydrogen Mission**, **Andhra Pradesh** launched India's **first hydrogen hub**, focusing on **production, storage, and export** of green hydrogen.

▪ **BAANKNET Portal for E-Auction of Properties**

- The **BAANKNET** portal streamlines **e-auctions of distressed assets**, integrating banks, NBFCs, and buyers for **transparent property transactions**.

▪ **V. Narayanan Appointed ISRO Chairman**

- On **January 14, 2025**, **V. Narayanan**, known for leading **cryogenic propulsion**, was appointed as the **Chairman of ISRO**, succeeding **S. Somanath**.

▪ **India Achieves Unmanned Docking in Space**

- India became the **4th country** to achieve **unmanned docking**, a key milestone for future **space station missions** and **orbital servicing**.

▪ **PRSC-EO1 Satellite Launched by China for Pakistan**

- China launched **PRSC-EO1**, a **remote sensing satellite** for **Pakistan**, enhancing its **earth observation and strategic surveillance** capabilities.

▪ **AI Policy Task Force by Maharashtra**

- Maharashtra constituted a **16-member AI Policy Task Force** to draft a **state-level AI governance framework**, focusing on **ethics, education, and innovation**.

▪ **Automated Battlefield Surveillance System 'Sanjay'**

- Defence Minister **Rajnath Singh** inaugurated **'Sanjay'**, an **AI-powered battlefield**

surveillance system integrating drones, sensors, and analytics.

- **CipAir App for Asthma Testing by Cipla**
 - Cipla launched **CipAir**, an app using **AI and spirometry** to enable **remote asthma diagnosis**, improving access to **respiratory care**.
- **Nuclear-Powered Diamond Battery by University of Bristol**
 - Researchers developed a **diamond battery** using **carbon-14**, capable of powering devices for **5,700 years**, ideal for **space missions and medical implants**.
- **Business Ready (B-Ready) Report 2024 by World Bank**
 - The **B-Ready Report** replaced **Doing Business**, evaluating **regulatory frameworks, public services, and operational efficiency** across **50 economies**.
- **India-America Sonobuoy Co-Production**
 - India and the US began **co-producing sonobuoys** for **Undersea Domain Awareness**, enhancing **anti-submarine warfare capabilities**.
- **Saman-1 & Fakhr-1 Satellites Launched by Iran**
 - Iran launched **Saman-1** (orbital transfer vehicle) and **Fakhr-1** (military cubesat), marking its **heaviest payload deployment** to date.
- **Operation Deep Manifest by DRI**
 - DRI launched **Operation Deep Manifest**, seizing **Pakistani-origin goods** misdeclared via **Dubai**, enforcing India's **import ban** post-terror attacks.
- **India's First Green Data Centre: Uttar Pradesh**
 - The **CEL-ESDS Green Data Centre** in **Ghaziabad** is India's first **energy-efficient data hub**, supporting **cloud services and sustainability goals**.
- **India's First National Biobank: New Delhi**
 - Inaugurated at **CSIR-IGIB**, the **National Biobank** collects **genomic and clinical data** from **10,000 individuals** for **personalized medicine**.
- **World's Largest Hydropower Dam: China**
 - China began constructing the **Motuo Dam** on the **Yarlung Tsangpo River**, expected to generate **60 GW**, raising **geopolitical and environmental concerns**.
- **Nvidia Reaches \$4 Trillion Market Value**
 - Nvidia became the **first company** to hit **\$4 trillion**, driven by dominance in **AI infrastructure and GPU technology**.
- **One Airport, One Product: Tuticorin Airport, Tamil Nadu**

- Tuticorin Airport launched the **One Airport, One Product** initiative, specializing in **seafood, flowers, and bananas**, boosting **regional exports**.

- **National Turmeric Board HQ: Nizamabad, Telangana**
 - The **National Turmeric Board** was inaugurated in **Nizamabad**, aiming to boost **turmeric exports to \$1 billion by 2030**.
- **International Potato Center (CIP) Regional Center: Uttar Pradesh**
 - CIP established its **South Asia Regional Centre** in **Agra**, focusing on **climate-resilient potato varieties** and **farmer prosperity**.
- **Pralay Missile User Trials by DRDO**
 - DRDO conducted **two successful tests** of the **Pralay missile** from **Dr APJ Abdul Kalam Island**, validating its **range and precision**.
- **Astra Missile Test-Fired from Sukhoi-30 Mk-I in Odisha**
 - The **Astra BVRAAM** was test-fired from **Sukhoi-30 Mk-I**, demonstrating **pinpoint accuracy** and validating its **indigenous RF seeker**.
- **EV Manufacturing Cluster in Tamil Nadu**
 - Tamil Nadu announced a **dedicated EV cluster** in **Thoothukudi**, with **VinFast's ₹4,000 crore plant**, aiming to become India's **all-electric auto hub**.
- **India's Space Station by 2035**
 - India plans to establish its own '**India Space Station**' by **2035**, marking a major milestone in the nation's **space exploration roadmap**.
- **National Designated Authority (NDA)**
 - India has set up a **National Designated Authority (NDA)** under the **Paris Agreement** to manage **carbon emissions trading**.
- **ISRO's Heaviest Rocket (LMLV)**
 - ISRO will launch its **heaviest rocket**, named **Lunar Module Launch Vehicle (LMLV)**, by **2035**.
- **Hope Analogue Mission – ISRO**
 - ISRO has launched the **Hope Analogue Mission** in **Tso Kar Valley, Ladakh**, to simulate **human life-support systems** for **future lunar missions**.
- **Deep Sea Mission (2021)**
 - India launched its **Deep Sea Mission** in **2021**, achieving a record **5,002 m manned dive** in the **Atlantic Ocean**.
- **Sudarshan Chakra Mission**
 - The **Sudarshan Chakra Mission**, announced by **PM Modi** on **Independence Day 2025**, is

an indigenous multi-layer air-defence system.

- **Spy Satellite 'Ofek-19' Launched by Israel**
 - Israel launched its spy satellite 'Ofek-19' using the Shavit rocket, enhancing its space surveillance capabilities.
- **Satellite Tracking Station in Mauritius**
 - The Government of India signed an agreement with Mauritius to establish a satellite tracking station, strengthening space cooperation in the Indian Ocean Region.
- **India's First Indigenous Vaccine 'Adfalsivax'**
 - India granted licences to private companies to produce the first indigenous vaccine 'Adfalsivax', developed for malaria prevention.
- **Space City and Defence Hubs in Andhra Pradesh**
 - The Chief Minister of Andhra Pradesh announced the establishment of a Space City and two Defence Hubs to boost aerospace and defence innovation.
- **Long-range Cruise Missile 'Fleming' by Ukraine**
 - Ukraine successfully tested its first indigenous long-range cruise missile 'Fleming', marking a major milestone in defence technology.
- **Cancer Vaccine 'Enteromix' Unveiled by Russia**
 - Russia unveiled the world's first cancer vaccine 'Enteromix', a breakthrough in oncological immunotherapy.
- **India's First Indigenously Developed Microprocessor 'Vikram-32'**
 - India launched its first indigenous microprocessor 'Vikram-32', a key step toward self-reliance in semiconductor technology.
- **Missile-Defence Laser System 'Iron Beam'**
 - Israel's 'Iron Beam' system, a laser-based missile defence technology, has been in the news for its capability to intercept short-range threats.
- **UN AI Centre of Excellence – IIT Madras**
 - IIT Madras has been nominated by India as a UN Artificial Intelligence Centre of Excellence, focusing on ethical AI innovation.
- **Rocket 3D Printing Facility in Chennai**
 - Spaceteck startup Agnikul Cosmos launched India's first rocket 3D printing

facility in Chennai, marking progress in space manufacturing technology.

- **Agni-Prime Missile Test by DRDO**
 - DRDO successfully test-fired the Agni-Prime missile for the first time from a rail-based mobile launcher system, enhancing India's strategic missile capabilities.
- **'LEAP' Programme for Innovation**
 - The Government of Karnataka launched the ₹1,000 crore 'LEAP' programme to promote research, startups, and technological innovation in the state.
- **Dravya Portal Launched by Ministry of AYUSH**
 - The Ministry of AYUSH launched the 'Dravya Portal', a digital database aimed at promoting research and knowledge of medicinal plants.
- **Discovery of Natural Gas in Andaman Basin**
 - The Ministry of Petroleum and Natural Gas announced the first-ever discovery of natural gas in the Andaman Basin, expanding India's energy exploration frontier.
- **Mahi Banswara Nuclear Power Project**
 - The Mahi Banswara Nuclear Power Project, with a total capacity of 4×700 MW, represents India's continued push towards clean nuclear energy.
- **First Hypersonic Missile 'Dhruv'**
 - India's first hypersonic missile 'Dhruv' has been in the news for its high-speed flight technology and strategic defence advancement.
- **NAMO Semiconductor Laboratory**
 - Approval has been granted to establish the 'NAMO Semiconductor Laboratory' at IIT Bhubaneswar, marking a major step toward self-reliance in chip manufacturing.
- **Semiconductor Innovation Museum in Hyderabad**
 - India inaugurated its first Semiconductor Innovation Museum in Hyderabad, showcasing milestones in the country's electronics and chip design journey.
- **Indigenous Antibiotic 'Nafithromycin' Developed by India**
 - India developed its first indigenous antibiotic 'Nafithromycin', a key achievement in the field of medical biotechnology.

PART H: International Affairs & Reports

International Conferences & Summits 2025-2026

- **Full Form:** Bay of Bengal Initiative for Multi-Sectoral Technical and Economic Cooperation
- **Founded:** June 6, 1997 (via Bangkok Declaration)
- **Headquarters:** Dhaka, Bangladesh
- **Members:** Bangladesh, Bhutan, India, Myanmar, Nepal, Sri Lanka, Thailand
- **Next Summit:** Expected in **Bangladesh**, under its current chairmanship
- **Date:** April 4, 2025
- **Location:** Bangkok, Thailand
- **Theme: "Prosperous, Resilient, and Open BIMSTEC"**
Focused on strengthening regional cooperation, economic integration, and shared security challenges

✓ **Declarations & Agreements**

- **Bangkok Vision 2030:** First-ever BIMSTEC vision document outlining a roadmap for prosperity and resilience
- **Summit Declaration:** Captures leaders' directives and future cooperation goals
- **Agreement on Maritime Transport Cooperation:** Boosts regional connectivity and trade
- **MoUs Signed:**
 - With **IORA** (Indian Ocean Rim Association) for strategic collaboration
 - With **UNODC** (United Nations Office on Drugs and Crime) for joint action on shared priorities

🏛️ **Institutional Strengthening**

- **Rules of Procedure** adopted for BIMSTEC mechanisms
- **BIMSTEC Centres of Excellence** announced by India:
 - Disaster Management
 - Sustainable Maritime Transport
 - Traditional Medicine
 - Agriculture Research & Training

India's Initiatives

- **BODHI Program:** Skill development and capacity-building across BIMSTEC nations
- **Cancer Care Capacity Building:** Regional health initiative
- **Digital Public Infrastructure Pilot:** Enhancing governance and service delivery
- **UPI Integration Proposal:** Linking India's digital payment system with BIMSTEC

India proposed:

- **BIMSTEC Athletics Meet (2025)**
- **First BIMSTEC Games (2027)**
- **Traditional Music Festival**
- **Young Leaders' Summit & Hackathon**
- **Young Professional Visitors Program**

G20 Summit 2025

- **Dates:** November 22–23, 2025
- **Host Country:** South Africa, Johannesburg
- **Presidency:** South Africa (Dec 2024 – Nov 2025)
- **Theme: "Solidarity, Equality, Sustainability"**
- **Current Members:** Argentina, Australia, Brazil, Canada, China, France, Germany, India, Indonesia, Italy, Japan, Mexico, Russia, Saudi Arabia, South Africa, South Korea, Turkey, the United Kingdom, the United States, the European Union, and **the African Union**, which is the **newest member**, officially added during the 2023 summit in India.

🔑 **Key Agenda Priorities**

🌱 **Global Economic Recovery**

- Inflation control and debt relief for developing nations
- Strengthening global supply chains
- Sustainable investment frameworks

🌱 **Climate Action**

- Green financing and carbon markets
- Phasing out coal dependency
- Biodiversity protection, especially in Africa

AI & Digital Governance

- Ethical frameworks for AI
- Cybersecurity cooperation
- Bridging the global digital divide

Global Health Security

- Pandemic preparedness
- Equitable vaccine distribution
- Strengthening health systems

Food Security

- G20 Ministerial Statement on global food security
- Agriculture and industrialization discussions in Nigeria

Wealth Inequality

- Launch of **G20 Experts Taskforce** to study global wealth inequality and its impact on growth and multilateralism

India's Role

India, a key G20 member, is expected to:

- Advocate for digital public infrastructure
- Push for inclusive development and South-South cooperation
- Support climate finance and green tech transitions
- Promote AI governance and cybersecurity norms

The **Group of Twenty (G20)** was founded in **1999** in response to the Asian financial crisis, originally as a forum for Finance Ministers and Central Bank Governors. It was elevated to a **leaders' summit level in 2008** following the global financial crisis, becoming the **premier forum for international economic cooperation**. The G20 has **no permanent headquarters**—instead, it operates through a **rotating presidency**, with the host country setting the agenda each year.

India's Key Contributions

- **Founding Member:** India has been part of the G20 since its inception.
- **Presidency in**
- **2023:** India hosted the G20 Summit in New Delhi, marking a historic moment by successfully advocating for the **African Union's permanent membership**.
- **Global Leadership:** India has championed digital public infrastructure, climate action, inclusive development, and South-South cooperation.

52nd G7 Summit 2026

The **Group of Seven (G7)** is an informal forum of the world's most advanced economies: **Canada, France, Germany, Italy, Japan, the United Kingdom, and the United States**. It was founded in **1975** in **Rambouillet, France**, originally as the **G6** (Canada joined in 1976). The G7 has **no permanent headquarters** or formal charter—it operates through a **rotating presidency** and annual summits. Though not legally binding, its decisions carry immense global influence due to the economic and political weight of its members.

India is **not a member**, but has been invited as a **special outreach partner** multiple times, including in **2025**, reflecting its growing global stature.

G7 Summit 2026 – Key Details

- **Dates:** June 15–17, 2026
- **Location:** Evian-les-Bains, France
- **Host:** Emmanuel Macron
- **Theme:** Forging New Partnerships and Rebuilding International Solidarity.
- **Current Members:** Canada, France, Germany, Italy, Japan, the United Kingdom, and the United States. Additionally, the European Union participates as a non-enumerated member. The group originally began as the G6 in 1975, and **Canada is the newest country**, having joined in 1976 to form the G7.
- India participated as a **partner country**.
- Major focus areas included **Ukraine, Middle East, Critical Minerals, Artificial Intelligence, Economic Resilience and International Partnerships**.

- 53rd G7 Summit: 2027, USA

36th NATO Summit 2026

The **North Atlantic Treaty Organization (NATO)** was founded on **April 4, 1949**, in **Washington, D.C.**, through the signing of the North Atlantic Treaty. It is a **military alliance** formed to ensure collective defense—meaning an attack on one member is considered an attack on all. NATO's **headquarters** is located in **Brussels, Belgium**. India is **not a NATO member**, but has engaged in **dialogue and cooperation** with NATO on issues like counterterrorism, cyber defense, and maritime security. India's strategic relevance is growing, especially in the Indo-Pacific context.

Sweden is the newest member, officially joining NATO in **2024**.

🏛️ NATO Summit 2026 – Key Details

- **Dates:** 7 – 8 July 2026
- **Venue:** Ankara, Türkiye
- **Chair:** Nato Secretary General Mark Rutte
- **Key Decisions and Outcomes:**
 - **Defense Spending:** Progress reviewed toward the **5% of GDP target by 2035**.
 - **Support for Ukraine:** **€70 billion assistance pledged for 2026**, with a similar commitment for 2027.
 - **Industrial Capacity:** **NATO Front Door for Industry** launched to strengthen defence production and joint procurement.
 - **Advanced Capabilities:** Over **€50 billion procurement deals** announced for advanced technology, air defence and uncrewed systems.

BRICS Summit 2025

BRICS Summit 2026 – India, 12-13 Sep 2026

BRICS is a group of major emerging economies: **Brazil, Russia, India, China, and South Africa**. It was launched in **2006** (originally as BRIC), and **South Africa joined in 2010**. BRICS has **no permanent headquarters**—it operates through annual summits and rotating presidencies. The group aims to promote **economic cooperation, multipolarity, and reform of global governance**.

India is a **founding member** and plays a central role in shaping BRICS' agenda, especially around digital public infrastructure, climate finance, and Global South solidarity.

🏛️ BRICS Summit 2025 – Key Details

- **Edition:** 17th BRICS Summit
- **Dates:** July 6–7, 2025
- **Location:** Rio de Janeiro, Brazil
- **Host:** President Luiz Inácio Lula da Silva
- **Theme:** "Strengthening Global South Cooperation for a More Inclusive and Sustainable Governance"

👥 Member & Partner Countries

Full Members (as of 2025):

- Brazil, Russia, India, China, South Africa
- Egypt, Ethiopia, Iran, UAE, **Indonesia (newest member)**

New Partner Countries:

- Belarus, Bolivia, Kazakhstan, Cuba, Nigeria, Malaysia, Thailand, Vietnam, Uganda, Uzbekistan

🔑 Key Outcomes

📜 Declarations & Frameworks

- **Rio de Janeiro Declaration:** Strategic shift toward expansion and inclusive governance
- **Climate Finance Framework:** Mobilizing funds for developing nations
- **AI Governance Statement:** Ethical and inclusive use of artificial intelligence
- **BRICS Partnership for Eliminating Socially Determined Diseases**

⚙️ Global Governance Reform

- Strong push for reforming UN, IMF, and World Bank structures
- Support for the UN's Pact for the Future and Global Digital Compact

- Opposition to rising global militarization
- Call for development-focused approaches to climate and poverty challenges

India's Role

Prime Minister **Narendra Modi** attended in person and:

- Called for **reform of global institutions** to reflect today's realities
- Proposed a **BRICS Science & Research Repository** to support the Global South
- Advocated for **responsible AI governance** and **critical mineral supply chain resilience**
- Reaffirmed India's commitment to **inclusive development and climate justice**

SCO Summit 2026

The **Shanghai Cooperation Organisation (SCO)** was founded in **2001** in **Shanghai, China**, evolving from the earlier "Shanghai Five" group. Its founding members were **China, Russia, Kazakhstan, Kyrgyzstan, Tajikistan, and Uzbekistan**. The SCO is a **Eurasian political, economic, and security alliance**, with its **headquarters in Beijing, China**.

India became a **full member in 2017**, alongside Pakistan, marking a major expansion of the group's influence. SCO now includes **10 member states, 2 observers, and 17 dialogue partners**, representing over **40% of the world's population and 23% of global GDP**.

SCO Summit 2026 – Key Details

- **Edition:** 26th Meeting of the Council of Heads of State
- **Dates:** August 31 to September 1, 2026
- **Location:** Bishkek, Kyrgyzstan
- **Host & Chair:** Kyrgyz President **Sadyr Japarov**; marked the **25th anniversary of SCO**.
- **Theme:** "25 Years of the SCO: Together for Sustainable Peace, Development and Prosperity"
- **Current Members:** China, Russia, Kazakhstan, Kyrgyzstan, Tajikistan, Uzbekistan, India, Pakistan, Iran, and **Belarus (under process)**, which is the **newest member**, having officially joined the SCO in **July 2024**.

Key Outcomes

- **Bishkek Declaration:** Focused on **counter-terrorism, regional security and economic cooperation**.
- **Official Language:** **English** adopted as an official language of the SCO.
- **Security:** Enhanced cooperation against **drug trafficking and terrorism**.
- **Cultural Capital:** **Lahore, Pakistan** designated SCO Tourism and Cultural Capital for **2026–27**.
- **Next Chair:** **Pakistan** assumed SCO chairmanship and will host the **2027 Summit**.

QUAD Summit 2025

The **Quadrilateral Security Dialogue (QUAD)** is a strategic forum comprising **India, the United States, Japan, and Australia**. It was first proposed in **2007** by Japanese PM Shinzo Abe during an informal meeting at the ASEAN Summit. After a period of dormancy, it was **revived in 2017** to counter growing regional challenges, especially in the Indo-Pacific. QUAD has **no formal headquarters or secretariat**—it functions through summits, ministerial meetings, and joint initiatives. Though not a military alliance, it promotes a **free, open, inclusive, and rules-based Indo-Pacific**.

India is a **founding member** and a driving force behind QUAD's evolution, especially in areas like digital infrastructure, maritime security, and critical minerals.

QUAD Summit 2025 – Key Details

- **Dates:** November 10–11, 2025
- **Location:** New Delhi, India
- **Host:** Prime Minister Narendra Modi
- **Theme:** "Securing the Indo-Pacific: Innovation, Resilience, and Partnership"

Key Outcomes

Strategic Cooperation

- **QUAD Critical Minerals Initiative** launched to diversify supply chains and reduce dependence on China

- Expansion of Indo-Pacific Maritime Domain Awareness (IPMDA) program to include Southeast Asian partners

Emerging Technologies

- Joint framework on AI governance and cybersecurity
- Collaboration on digital public infrastructure and e-waste recycling

Security & Defense

- Enhanced coordination on counterterrorism, illegal fishing, and transnational crime
- QUAD naval exercises announced for 2026 in the Bay of Bengal

Climate & Health

- QUAD Green Corridors Initiative for clean energy trade
- Joint preparedness framework for health emergencies and pandemics

IN India's Role

India's leadership was pivotal:

- Hosted the summit for the **first time**, reinforcing its strategic centrality
- Championed the **Digital Public Infrastructure pilot** across QUAD nations
- Proposed a **QUAD Youth Fellowship and Innovation Challenge** to engage next-gen leaders
- Called for **inclusive Indo-Pacific partnerships**, inviting ASEAN and Indian Ocean nations to future dialogues

ASEAN Summit 2026

The **Association of Southeast Asian Nations (ASEAN)** was founded on **August 8, 1967**, in **Bangkok, Thailand**, by five original members: Indonesia, Malaysia, Philippines, Singapore, and Thailand. ASEAN's **headquarters** is located in **Jakarta, Indonesia**.

Its mission is to promote **regional peace, economic growth, and cultural cooperation**. India is **not a member**, but is a **Strategic Partner** and actively engages through the **ASEAN-India Dialogue Partnership**, which is a key pillar of India's **Act East Policy**.

ASEAN Summit 2026 – Key Details

- **Edition:** 48th ASEAN Summit 2026
- **Dates:** May 7-8, 2026
- **Host Country:** Philippines
- **Chairperson:** Philippine President Ferdinand R. Marcos Jr.
- **Theme:** "Navigating our Future, Together"
- Major focus: **ASEAN 2045, Energy Security, Food Security and Regional Stability**.
- **49th ASEAN Summit Venue:** November 2026 Metro Manila, Philippines

World Hydrogen Summit 2025

The **World Hydrogen Summit & Exhibition** is the **largest global event dedicated to hydrogen energy**, organized annually by the **Sustainable Energy Council (SEC)** and **RX Global**, in partnership with the **Dutch Government, Province of South Holland, City of Rotterdam, and Port of Rotterdam**. It serves as the **official meeting place for hydrogen deals**, policy discussions, and technology showcases. The summit has **no fixed headquarters**, but is traditionally hosted in **Rotterdam, Netherlands**.

World Hydrogen Summit 2025 – Key Details

- **Dates:** May 20-22, 2025
- **Location:** Rotterdam Ahoy, Netherlands NL
- **Theme:** "Navigating Challenges with Solid Form of Financial Investment Decisions (FIDs)"
- **Edition:** 6th annual summit
- **Participants:** Over 15,000 industry professionals, 700+ exhibitors, 400+ speakers

Summit Highlights

Global Focus Areas

- Renewable hydrogen production

- Investment strategies and policy frameworks
- Hydrogen certification and trade mechanisms
- H₂ Tech Series and World Hydrogen Awards
- Site visits to hydrogen projects in the Port of Rotterdam

Technology & Innovation

- Presentations from leading hydrogen companies
- Showcases of fuel cell electric vehicles (FCEVs), hydrogen-powered rail, and industrial applications
- Discussions on biomass gasification and electrolysis using solar energy

India's Role & Initiatives

India made a strong impression at the summit through its delegation led by **Santosh Kumar Sarangi**, Secretary, Ministry of New & Renewable Energy (MNRE):

IN Key Contributions

- Highlighted India's **National Green Hydrogen Mission**, launched in 2023 with a \$2.4 billion allocation
- Target: **5 million metric tonnes of green hydrogen production by 2030**
- Showcased India's **223 GW renewable energy capacity**, including 108 GW solar and 51 GW wind
- Introduced the **Green Hydrogen Certification Scheme (GHCS)** for market credibility
- Announced **Green Hydrogen Hubs** at Kandla, Paradip, and Tuticorin ports

International Collaboration

- India is partnering with **Japan, Australia, and UAE** for technology transfer and investment in hydrogen infrastructure

This summit reinforced India's ambition to become a **global hub for green hydrogen**, aligning with its goals for **energy independence by 2047** and **net-zero emissions by 2070**.

COP 30 (2025)

COP stands for **Conference of the Parties** to the **United Nations Framework Convention on Climate Change (UNFCCC)**. It was established in **1995** as the supreme decision-making body for global climate negotiations. COP summits are held annually, with **no permanent headquarters**, and rotate among host countries. The goal is to assess progress, negotiate climate agreements, and set global targets for reducing emissions and adapting to climate impacts.

COP30 – Key Details

- **Dates:** November 10–21, 2025
- **Host Country:** Belem, Brazil
- **Next COP 31:** Antalya, Turkiye
- This conference marks the **10th anniversary of the Paris Agreement**.

Major Outcomes

- **Belém Package (29 decisions)** → Focus on *implementation over discussion*
- **Global Mutirão Agreement** → Cooperation-based approach, no new strict targets
- **Global Mutirão Platform (Brazil)** → Digital platform to speed climate action
- **Just Transition Mechanism (BAM/JTM)** → Supports shift from fossil fuels (no assured funding)
- **Implementation Tracker + 1.5°C Mission** → Track countries' real progress
- **Adaptation Push** → Plan to *triple adaptation finance by 2030*
- **Global Goal on Adaptation (GGA)** → 59 indicators for tracking adaptation
- **Tropical Forests Forever Facility (TFFF)** → \$125B forest protection fund
- **Belém 4x Pledge** → Increase sustainable fuels 4 times by 2035
- **Gender Action Plan + Health Plan** → Focus on inclusion & climate-health link

India's Role at COP30:

- **Climate Finance Demand** → Called for *grant-based & predictable funding* (not loans)
- **\$1.3 Trillion Goal Support** → Pushed for large-scale finance mobilisation
- **Equity Principle (CBDR-RC)** → Developed nations must take more responsibility
- **Opposition to Carbon Taxes (CBAM)** → Called it unfair trade barrier

[@RBEducation](#) → Equal importance to adaptation + support for vulnerable nations

[@rbe_ssc](#)

[@RBE_S](#)

[@RBElearning](#)

7303666097

- **Adaptation Gap Highlighted** → Funding needs far higher than current levels
- **India claim to have met by July 2025:** 50% of installed power generation capacity from non-fossil sources.
- The Germanwatch [Climate Risk Index](#) 2026 report, presented at COP30 in Belém, Brazil, ranks India as the 9th most affected country by extreme weather events (EWEs) over the past three decades (1995-2024).

Other Conferences & Summits:

- **4th India AI Impact Summit 2026**
 - **Venue:** New Delhi
 - **Host Country:** India
 - **Theme:** Anchored on three pillars – “People, Planet and Progress.”
 - **2027 venue:** Geneva, Switzerland
 - **2028 venue:** UAE
- **Quad Foreign Ministers Meeting 2026**
 - Venue: New Delhi, India
 - India will also host the next Quad at Sea Ship Observer Mission
 - External Affairs Minister: Dr. S. Jaishankar
- **4th Green Hydrogen 2025**
 - **Venue:** Dwarka, New Delhi
 - **2024 Venue:** ADNEC Centre Abu Dhabi
 - to establish a comprehensive Green Hydrogen ecosystem to drive global decarbonization efforts
- **Global Maritime India Summit 2025**
 - Mumbai
- **G-20 parliamentary speakers’ summit 2025**
 - 11th edition
 - Held in Cape town, South Africa
 - Hosted by South Africa
 - Theme: Harnessing Parliamentary Diplomacy for Realisation of Global Solidarity, Equality and Sustainability.
- **ISA (international solar alliance) assembly 2025**
 - 8th edition
 - Venue – New Delhi
 - One Sun One World One Grid Programme was introduced to build regional solar interconnections across continents.
 - US announced its withdrawal from the ISA, 5 years after joining in 2021.
- **World sustainable development summit 2026**
 - 25th edition
 - Venue – New Delhi
- Theme: “Transformations: Vision, Voices and Values for Sustainable Development.”
- **International yoga festival 2026**
 - Rishikesh, Uttarakhand (The Yoga Capital of the World)
- **Defence expo 2025**
 - **15th edition**
 - **Chennai, Tamil Nadu**
- **International film festival of India 2025**
 - 56th edition
 - Permanent Venue – Goa, India
 - Theme – Young Filmmakers – the future is now
 - Satyajit Ray Lifetime Achievement Award - Rajinikanth
- **Sherpa meeting of India’s G20 Presidency 2024**
 - **4th and Final**
 - **Venue – Manesar, Haryana**
- **2nd India-Arab Foreign Ministers’ Meeting 2026**
 - Co-chaired by India and the UAE
 - First time India hosted the event.
 - Delhi Declaration 2026 adopted
 - Executive Programme (2026-2028)
- **Arab League Summit 2025**
 - **34th edition**
 - **Venue – Baghdad**
- **56th WEF Annual Meeting 2026**
 - Venue: Davos-Klosters, Switzerland
 - Theme: A Spirit of Dialogue
 - Headquarters: Geneva, Switzerland
 - Founded: 1971
- **9th Indian Ocean Conference 2026**
 - **Venue:** Port Louis, Mauritius
 - Indian Representative: External Affairs Minister **Dr. S. Jaishankar**
 - **Theme:** Collective Management for Indian Ocean Governance
 - **First time** the annual conference was hosted in an African region
- **World health assembly 2026**
 - 70th edition

- Venue – Geneva, Switzerland

Index & Rankings (2024-26)

World Competitiveness Ranking 2026

- Issued by management development institute (IMD)
- Total Economies – 70
- First rank (Overall) – Singapore (1st), Hong Kong (2nd), Switzerland (3rd)
- First Rank in Infrastructure: Switzerland
- The IMD World Competitiveness Ranking evaluates countries across four dimensions:
 - Economic Performance
 - Government Efficiency
 - Business Efficiency
 - Infrastructure
- In 2024, Singapore was ranked #1 overall, while Switzerland held 1st position in the **Infrastructure dimension**.
- In 2025, Switzerland became #1 overall, and again held 1st position in Infrastructure.
- **India's rank (Overall) – 44 (2026), 41 (2025), 39 (2024), 40 (2023)**
- **India's Factor Wise Rank –**
 - **Economic Performance = 15th**
 - **Business Efficiency = 37th**
 - **Government Efficiency = 46th**
 - **Infrastructure = 54th**

Global gender gap index 2025

- Issued by world economic forum
- Total countries – 148
- Four key dimensions: Economic Participation and Opportunity, Educational Attainment, Health and Survival, and Political Empowerment.
- First rank – Iceland (for the 16th consecutive year, with over 90% parity.)
- **India's rank – 131 (2025), 129 (2024) 127 (2023) 135 (2022)**
- India's overall gender parity score was 64.1%, placing it among the lowest-ranked countries in South Asia.
- India showed improvement in education (97.1%) and economic participation (40.7%), but declined in political empowerment, with female representation in Parliament dropping from 14.7% to 13.8%.

Global Unicorn index 2026

- Issued by Hurun Research Institute

- The index tracks privately held startups valued at over USD 1 billion, known as unicorns, across 52 countries.
- First rank – USA with 806 unicorns, followed by China with 381.
- **India's rank – 4th (2026), 3rd (2025, 2024, 2023)**
- India has 61 unicorns, a slight drop from 64 in 2025.

World happiness index/Report 2026

- Issued by Wellbeing Research Centre at the University of Oxford, in collaboration with Gallup and the UN Sustainable Development Solutions Network
- Six key indicators were used:
 - GDP per capita
 - Healthy life expectancy
 - Social support
 - Freedom to make life choices
 - Generosity
 - Perception of corruption
- Total countries – 147
- First rank – Finland for the 9th consecutive year, Iceland (2nd), Denmark (3rd)
- Bottom-ranked country: Afghanistan (147th), Sierra Leone (146th) and Malawi (145th)
- **India's rank – 116th (2026), 118th (2025), 126th (2024 & 2023), 136th (2022)**
- India continues to trail behind several neighbours; Nepal (99) and Pakistan (104) rank higher, while Bangladesh (127th) and Sri Lanka (134th) are Lower.

World Press Freedom Index 2026

- Issued by Reporters without Borders (France)
- five indicators: Political context, Legal framework, Economic context, Sociocultural context, and Safety
- Total Countries – 180
- First Rank – Norway, 10th consecutive year, Netherlands (2nd), Estonia (3rd), Denmark (4th)
- **India's Rank – 157th (2026), 151 (2025), 159 (2024) 161 (2023) but still remains in the "very serious" category.**
- Bottom-ranked country: Eritrea (180th), followed by North Korea (179th) and China (178th).

- Most Dangerous Region: The Middle East and North Africa (MENA)
- For the first time in the Index's history, more than half of the 180 countries assessed (52.2%) are categorised as having a "difficult" or "very serious" situation for journalism.

Global terrorism index 2026

- Issued by institute for economics and peace
- Total Countries – 163
- First rank – Pakistan, Burkina Faso (2nd), Niger (3rd), Nigeria (4th)
- India's rank – 13th (2026) (Score 6.428), 14th (2025 & 2024), 13th (2023)

International IP index 2026

- Issued by US Chamber partner whiteshield
- Total countries – 55
- First rank – USA, 14th consecutive year due to strong performance in patents, copyrights, trademarks, enforcement, and innovation support.
- India's rank – 42 (2026, 2025, 2024 & 2023)

Henley passport index 2026

- Issued by Henley and partners
- Total countries – 199
- Top by – Singapore (192 visa-free destinations), 2nd Japan and 3rd south Korea
- Bottom Ranked – Afghanistan, Iraq and Syria
- India's rank – 75th (2026), 77th (2025) 85th (2024), 80 (2023)
- Visa-Free Access: 56 countries
- India ranks above several South Asian Countries: Bangladesh, Pakistan and Nepal, while Maldives ranks substantially higher in the region.

Climate change performance index 2026

- Issued by German watch
- Total countries – 63 + EU
- Ranks 1 to 3 remain vacant, as no country met the "very high" benchmark across all categories
- 4th rank – Denmark, followed by UK (5th)
- India's rank – 23 (2026), 10 (2025), 7 (2024), 8 (2023), 10 (2022)

Economic freedom index 2026

- Issued by heritage (US Think Tank)
- Total countries – 184
- First country – Singapore (Score 84.4) followed by Switzerland and Ireland

- India's rank – 132 (2026, 52.5 score), 128 (2025), 126 (2024), placing it in the mostly unfree" category
- This is India's lowest score in 7 years, reflecting challenges in areas like government integrity, labour freedom, and fiscal health
- India ranked 29th out of 39 countries in the Asia-Pacific region

Global Peace Index 2026

- Issued by institute for economic and peace
- Total countries – 163
- First rank – Iceland (for 18th consecutive year (from 2008)
- Bottom Rank: Russia
- Most Peaceful Country in South Asia: Bhutan, ranked 16th globally
- India's rank – 127 (2026), 115(2025), 116 (2024), 126 (2023)

Global Firepower Index 2026

- Issued by Global Firepower
- Total countries – 145
- First rank – USA, 2nd Russia, 3rd China, 4th India, 5th South Korea
- Behind India: South Korea followed by France, Japan and UK
- India's rank – 4th (2026, 2025 & 2024),

Sustainable Development Goals (SDG) Index 2026

- Issued by UN SDSN
- Total Countries: 169
- First Rank: Finland, followed closely by Sweden and Denmark
- Bottom: Chad, the Central Africa Republic, South Sudan
- India's Rank: 94th (2026), 99th (2025), (109th 2024)

Energy Transition Index 2026

- Issued by: World Economic Forum (WEF)
- Published in the report titled "Fostering Effective Energy Transition 2025".
- Total countries: 120
- Top country: Sweden, followed by Finland and Denmark
- India's rank: 70 (2026), 71 (2025), 63 (2024)
- Category: Emerging transition (India shows progress but faces readiness and sustainability challenges)

Global innovation index 2025

- Issued by intellectual property organization
- Total countries – 133

- First rank – Switzerland (15th Consecutive year), Sweden (2nd), USA (3rd), South Korea (4th) & Singapore (5th)
- India's rank – 38th (2025), 39 (2024), 40 (2023)

Human development index 2025

- Issued by united nations development program (UNDP)
- Total countries – 193
- First rank – Iceland, Norway (2nd) and Switzerland (3rd)
 - In 2024 Switzerland (ranked first for the 14th consecutive year), Norway (2nd), Iceland (3rd), Denmark (4th) & Germany (5th)
- India's rank – 130 (2025), 134 (2024), 132(2021), classified under “medium human development”

Global hunger index 2025

- Issued by Welthungerhilfe (German organization)
- Indicators used: Undernourishment, Child Stunting, Child Wasting, Child Mortality
- Total countries – 123
- First rank
 - (Least hunger) – Belarus, Armenia, Bosnia & Herzegovina
 - (highest hunger) – Somalia with a score of 42.6, followed by South Sudan and Congo
 - 2024: 22 countries (Belarus, China, Croatia, Estonia, Hungary, Kuwait (scores below 5)
- India's rank – 102 (2025) 105 (2024), 111 (2023), 107 (2022)
- India's GHI score 2025: 25.8 (27.3 in 2024), placing it in the “serious” category

World air quality report 2025

- Issued by Swiss firm IQAir
- The report analyzed data from over 40,000 air quality monitoring stations.
- Total countries – 143
- First rank – Chad, 2. Bangladesh, 3. Pakistan, 4. Congo
- India's rank – 6th (2025), 5th (2024), 8th (2023)
- Most Polluted city: Loni in Uttar Pradesh
- New Delhi remains the most polluted capital for the 8th consecutive year.

- 66 of the world's 100 most polluted cities are in India, including major cities like Delhi, Byrnihat and Ghaziabad.
- The report highlights that only 14% of cities worldwide met WHO's PM2.5 guidelines, emphasizing the global air pollution crisis.

Global Democracy Index 2025

- Issued by Economist Intelligence Unit
- Total Countries – 167
- First Rank – Norway, followed by New Zealand, Iceland, and Sweden
- Bottom-ranked country: Afghanistan, with a score of 0.00, classified as an “authoritarian regime”
- India's Rank – 41 (2024), 66 (2023) 46th (2022)

Corruption Perceptions Index (CPI) 2025

- Issued by Transparency International
- Total countries – 180
- First rank – Denmark (Score 89), for the 8th consecutive year
- Bottom Ranked: Somalia and South Sudan (Score 9)
- India's rank – 91st (2025), 96th (2024), with a score of 39/100,

Global labour resilience index 2023

- Issued by CEMS Corporate partner Whiteshield
- based on their ability to absorb, adapt, and transform in response to labour market shocks such as COVID-19, technological disruptions, and the green economy transition.
- Total countries – 136
- First rank – Denmark, cyclical pillar and ranked 4th in the structural pillar,
- India's rank – 65th (2023) with South Asian peers like Pakistan (97th) ranking even lower.

Logistics performance index 2023

- Issued by world bank
- six key parameters: customs, infrastructure, international shipments, logistics competence, tracking & tracing, and timeliness.
- Total country – 139
- First rank – Singapore, followed by Finland and Germany
- India's rank – 38th (2023)
- India ranked 22nd in the International Shipments category.
- The improvement is attributed to initiatives like PM GatiShakti, National

Logistics Policy (NLP), and ULIP (Unified Logistics Interface Platform).

- Total countries – 187
- First rank – Singapore followed by UAE and Republic of Korea
- India's rank – 55 (2023) 48 (2022)

Global aviation safety ranking 2023

- Issued by ICAO

Reports & Indexes released by NITI Aayog:

NITI Aayog (National Institution for Transforming India) is the apex public policy think tank of the Government of India, established on 1 January 2015 to replace the Planning Commission.

Nature: Advisory body (not constitutional or statutory)

Leadership

- **Chairperson:** Prime Minister of India (currently Narendra Modi)
- **Vice Chairperson (2025):** Suman Bery
- **CEO (2025):** B. V. R. Subrahmanyam
- **First Vice Chairperson:** Dr. Arvind Panagariya
- **First CEO:** Sindhushree Khullar

NITI Aayog publishes several indexes to **measure and improve performance across different sectors**. The goal of these indexes is to **encourage a competitive and cooperative federalism model**.

- NITI Aayog also works to improve India's ranking in the [Global Innovation Index](#) in collaboration with the World Intellectual Property Organization (WIPO).

2nd Edition of Fiscal Health Index 2026

Key Highlights:

- **Top Performer:** Odisha, Goa, Jharkhand
- **Front Runners:** Gujarat, Maharashtra, Chhattisgarh, Telangana, Uttar Pradesh, Karnataka.
- **Bihar has improved** from Aspirational to Performer, signalling better deficit management.
- **Tamil Nadu has slipped** from Performer to Aspirational, indicating emerging fiscal pressures.
- **Aspirational (Bottom Performers):** West Bengal, Kerala, Andhra Pradesh, Punjab
- **North-Eastern and Himalayan States:**
 - **Achievers:** Arunachal Pradesh and Uttarakhand
 - **Performers:** Assam Meghalaya, Mizoram, Sikkim, Tripura

- **Aspirational:** Himachal Pradesh, Manipur, Nagaland

FHI 2026 – Policy Measures

- **Boost Revenue** → Broaden GST tax base, improve compliance, strengthen property tax, excise, stamp duties; use digital tax administration & data analytics.
- **Control Spending** → Curb committed expenditures (pension, salary), rationalise subsidies; *unconditional cash transfers = 20.2% of total subsidy spending*.
- **Improve Capital Outlay** → Improve composition & quality of capital spending for long-term growth.
- **Fiscal Discipline** → Maintain ~3% fiscal deficit of GSDP (FRBM); Centre target = *3.5% of GDP by 2030–31*.
- **Transparency** → Control off-budget borrowings, improve cash management, use verified CAG data.

First Edition of Fiscal Health Index 2025

- **Purpose:** To assess and understand the **fiscal health of Indian states**.
- **Significance:** States account for **two-thirds of public spending** and **one-third of total revenue**, making their fiscal performance vital for **national economic stability**.
- **Methodology:** A **composite index** evaluates each state's performance using data from the **Comptroller and Auditor General of India (CAG)** for FY 2022-23.
- **Objective:** Enables **comparison and benchmarking** among states to encourage **sound fiscal practices** and better financial management.
- **Coverage:** Analysis includes **18 major states** contributing significantly to India's GDP, population, and fiscal stability.
- **Top Performer:** Odisha ranked first, followed by Chhattisgarh, Goa, Jharkhand, and Gujarat.

Five Core Parameters of the Fiscal Health

Index 2025

These parameters assess the fiscal strength and sustainability of states:

1. **Own Tax Revenue to GSDP Ratio** – Measures a state's ability to generate revenue internally.
2. **Revenue Expenditure to Capital Outlay Ratio** – Indicates the balance between spending on operations vs. long-term assets.
3. **Interest Payment to Revenue Receipts Ratio** – Reflects debt servicing burden.
4. **State's Debt to GSDP Ratio** – Assesses debt sustainability.
5. **Gross Fiscal Deficit to GSDP Ratio** – Measures overall fiscal prudence.

These indicators are normalized and aggregated into a composite index to rank states.

Categories of States Based on Performance

States are grouped into three categories:

- **Top Performers:** Strong fiscal health and efficient financial management
Examples: Odisha, Chhattisgarh, Goa
- **Middle Performers:** Moderate fiscal strength with scope for improvement
Examples: Maharashtra, Tamil Nadu, Rajasthan
- **Bottom Performers:** Weak fiscal indicators and higher debt burden
Examples: Punjab, Kerala, West Bengal

SDG India Index 2023-24:

Not released every year, but rather in a periodic, non-annual manner.

It was first released in **2018**, followed by editions in **2019, 2020-21, and 2023-24**.

- **Purpose:** Tracks India's progress on the 17 UN Sustainable Development Goals (SDGs) across states and UTs.
- **Framework:** Developed by NITI Aayog in collaboration with Ministry of Statistics and Programme Implementation (MoSPI) and UNDP India.
- **Indicators:** Over 100 national indicators aligned with global SDG targets, covering poverty, health, education, gender, climate, and governance.
- **Methodology:**
 - A composite score is calculated for each state based on its performance across various indicators. States are classified into categories: '**aspirant**' (0-49),

'performer' (50-64), 'front runner' (65-99), and 'achiever' (100).

- **India's overall SDG score: 71** (up from 66 in 2020-21 and 57 in 2018).
- **State score range: From 57 to 79**, showing marked improvement from the 2018 range of 42 to 69.
- **All states and UTs showed progress**, indicating successful localization of SDGs.

Top Performing Goals

India made **significant progress** in the following SDGs:

- **SDG 1 (No Poverty):** Driven by schemes like PM Awas Yojana, Jan Dhan Yojana, and PM-KISAN.
- **SDG 8 (Decent Work and Economic Growth):** Boosted by Startup India, PM Mudra Yojana, and Skill India Mission.
- **SDG 13 (Climate Action) and SDG 15 (Life on Land):** Improved through renewable energy expansion and forest conservation efforts.

Government Interventions That Accelerated Progress

- **Health & Sanitation:** Ayushman Bharat, Ayushman Arogya Mandir, Swachh Bharat Mission.
- **Energy & Infrastructure:** Ujjwala Yojana, Saubhagya Scheme.
- **Financial Inclusion:** Direct Benefit Transfer, Jan Dhan, PM-Mudra.
- These initiatives helped uplift vulnerable populations and improve access to basic services.

Best Performing States:

- **Kerala and Uttarakhand** topped the rankings, each securing 79 points, making them the highest-scoring states in the assessment.

Lowest Performing States:

- **Bihar** recorded the lowest performance with 57 points, while Jharkhand followed with 62 points.

Front-Runner Category:

- A total of **32 states and union territories** have been placed in the front-runner group, which now includes **10 new members** such as Arunachal Pradesh, Assam, Chhattisgarh, and Uttar Pradesh.

4th Edition Export Preparedness Index (EPI) 2024 (released in Jan 2026):

The Export Preparedness Index (EPI) is a **data-driven tool** published by NITI Aayog in **collaboration with the Institute for Competitiveness**, designed to assess how well Indian states and union territories are prepared for exports.

First edition: 2020

Measures the export readiness of Indian states and UTs across four key pillars.

Four Pillars of EPI 2024

- Export Infrastructure, Business Ecosystem, Policy and Governance, Export Performance
- For Comparative Assessment, States and UTs are grouped into large States, Small States, North-Eastern States, and Union Territories, and classified as **Leaders (High export preparedness)**, **Challengers (Moderate preparedness with scope for improvement)**, and **Aspirers (Early-stage export ecosystems)** promoting peer learning, cooperative federalism, and focused reforms.
- States are grouped into **Four Categories**: Champions, Aspirants, Emerging and Beginners.

Top Performing States and UTs (Overall Ranking)

- **(Champions) Large States** – Maharashtra (1st), Tamil Nadu (2nd), Gujarat (3rd), Uttar Pradesh (4th) and Andhra Pradesh (5th)
- **(Champions) Small States, North-Eastern States, and Union Territories** – Uttarakhand (1st), Jammu and Kashmir, Nagaland, Dadra & Nagar Haveli and Daman & Diu and Goa.

Aspirers:

- States with lower export infrastructure, weak policy support, or limited industrial ecosystem.
- **Bihar, Odisha, Chhattisgarh, Rajasthan and Jharkhand**
- **In UTs: Delhi (12th)** which comes along with Meghalaya, Ladakh and Himachal Pradesh
- These states need better export infrastructure, trade facilitation, institutional support, and policy clarity.

India Innovation Index 2022:

The index aims to provide a framework for states to evaluate their innovation environment, work on their strengths, and address weaknesses to improve their performance.

First edition: 2019; this is the **third edition**

- There are **7 pillars** in the index - five 'Enabler' pillars measure the inputs and two 'Performance' pillars measure the output.
- **Seven Pillars of Innovation:** Human Capital, Investment, Knowledge Output, Knowledge Diffusion, Business Environment, Safety & Legal Environment, Enablers

🏆 Top Performers

- **Major States:**
 - **1st: Karnataka** – Maintained top rank across all three editions.
 - **2nd: Telangana**
 - **3rd: Haryana**
- **Northeast & Hill States:**
 - **1st: Manipur**
- **Union Territories & City States:**
 - **1st: Chandigarh**
- **Lowest Performers**
 - **Bihar** – Faced challenges in innovation infrastructure and human capital.

National Multidimensional Poverty Index 2023:

- **Based on:** National Family Health Survey (NFHS-5) data (2019–21).
- **Aligned with:** **SDG Target 1.2** – to reduce poverty in all its forms by at least half by 2030.

📊 Key Findings

- **13.5 crore people** moved out of multidimensional poverty between **2015–16 and 2019–21**.
- **Poverty rate declined** from **24.85% to 14.96%** in this period.
- **Rural poverty** fell from **32.59% to 19.28%**, showing faster improvement than urban areas.
- **India is on track** to achieve **SDG Target 1.2** well before 2030.

🏆 Top Performing States (Highest Reduction in Poor Population)

1. **Uttar Pradesh** – 3.43 crore people exited poverty.

2. Bihar
3. Madhya Pradesh

These states contributed the most to India's overall poverty reduction.

12 MPI Indicators (Grouped under 3 Dimensions)

Health:

- Nutrition, Child & adolescent mortality, Maternal health

Education:

- Years of schooling, School attendance

Standard of Living:

- Cooking fuel, Sanitation, Drinking water, Electricity, Housing, Assets, Bank accounts

Composite Water Management Index (2019)

The CWMI is an initiative by NITI Aayog, launched in 2019, to evaluate states and Union Territories on their water management practices. It aims to:

- Promote sustainable water use
- Encourage competitive federalism
- Support data-driven policymaking

The index is developed in collaboration with the Ministry of Jal Shakti and technical support from international and national experts, including the World Bank.

Structure of the Index

CWMI evaluates states on 9 broad themes, subdivided into 28 indicators, including:

1. Source augmentation (groundwater and surface water)
2. Major and medium irrigation
3. Watershed development
4. Participatory irrigation practices
5. Sustainable on-farm water use
6. Urban and rural drinking water
7. Policy and governance

States are categorized into:

- Non-Himalayan states
- North-Eastern and Himalayan states
- Union Territories

Key Highlights from CWMI 2.0 (2019)

- **Top Performers (Non-Himalayan):** Gujarat, Andhra Pradesh, and Madhya Pradesh led the rankings.
- **Top Performers (North-Eastern & Himalayan):** Himachal Pradesh, Uttarakhand, and Tripura performed best.

- **Low Performers:** States like Uttar Pradesh, Bihar, and Nagaland showed urgent need for improvement.

CWMI 2.0 also introduced a **year-on-year improvement score**, highlighting states making the most progress, not just those with high absolute scores.

Why CWMI Matters

- **40% of Indians may not have access to drinking water by 2030**, as per NITI Aayog's own projections.
- The index helps identify **gaps in water governance**, promotes **best practices**, and guides **targeted interventions**.
- It supports **Jal Jeevan Mission** and **Atal Bhujal Yojana** by aligning state efforts with national goals.

Historical Context

- CWMI 1.0 was released in 2018, covering 2015-16 data.
- CWMI 2.0, released in August 2019, covered 2017-18 data.
- No newer editions have been officially released since CWMI 2.0, but the methodology continues to influence water policy.

School Education Quality Index 2019

The School Education Quality Index (SEQI) was launched by NITI Aayog in 2019 to evaluate the performance of Indian states and UTs in school education.

Purpose of SEQI

- Developed by NITI Aayog in collaboration with the Ministry of Human Resource Development and the World Bank.
- Aims to shift focus from inputs to **outcomes** in school education policy.
- Provides a **diagnostic tool** for states to identify strengths and weaknesses and undertake corrective measures.

Structure of the Index

SEQI evaluates states and UTs across **two categories**:

1. **Outcomes (70% weight):**
 - Learning outcomes
 - Access outcomes
 - Equity outcomes
2. **Governance processes (30% weight):**
 - Teacher availability
 - Administrative efficiency

- School infrastructure
- Transparency and accountability

States are grouped into:

- Large states
- Small states
- Union Territories

🏆 Top Performers in SEQI 2019

- Kerala, Manipur, and Chandigarh topped the overall performance rankings.
- Haryana, Meghalaya, and Daman & Diu showed the most improvement over time.

📌 Why SEQI Matters

- It complements other initiatives like **Performance Grading Index (PGI)** by the Ministry of Education.
- Encourages **competitive federalism** and **data-driven reforms**.
- Helps align state efforts with national goals under **Samagra Shiksha Abhiyan** and **NEP 2020**.

No subsequent editions have been published, but PGI reports now serve as the primary benchmarking tool for school education quality.

Performance Grading Index 2.0 2025-26

A tool developed by the Ministry of Education to assess the performance of states and Union Territories in school education.

The Performance Grading Index (PGI) 2.0 for 2025-26 was released by the Ministry of Education on July 2026.

Overall Standings: Top-performing regions include Chandigarh, Punjab, and Kerala, while states like Meghalaya, Arunachal Pradesh, and Bihar continue to lag behind.

It evaluates education systems across **five key domains**:

1. Learning Outcomes
2. Access
3. Infrastructure & Facilities
4. Equity
5. Governance Process

PART I: Environment, Ecology & Geography

Important GI Tags

States	GI Tag Products
Assam	Kaji Nemu (Lemon), Muga Silk, Joha Rice, Tezpur Litchi, Judima Rice wine, Majuli Mask, Japi Hat, Assam Bihu Dhol, Chokuwa Rice, Gamosa, Boka Chaul, Bodo Narzi, Bodo Jou Gishi, Tungbuk, Pumtong Pulit, Assamese Bihu Pepa, Karbi Anglong Handloom Products, Assam Bamboo Crafts, Assam Deori Handloom Products

Haryana	Sirsa Kinnow

UNESCO World Heritage Sites in India

- **Total Sites in India: 45 (as of August 2026)**
- **World Heritage Day: 18 April**
- **Maximum Heritage Sites – Maharashtra (6)**
- **First Heritage Sites – Ajanta Caves, Ellora Caves, Agra fort and the Taj Mahal**
- **UNESCO Headquarter – Paris**
- **Newest Site:**
 - Ancient Buddhist site of Sarnath, Uttar Pradesh (July 2026)
 - Maratha Military Landscapes of India, Maharashtra & Tamil Nadu (2025)
 - Moidams – the Mound-Burial System of the Ahom Dynasty (2024)

Cultural 37

- Agra Fort (1983)
- Ajanta Caves (1983)
- Archaeological Site of Nalanda Mahavihara at Nalanda, Bihar (2016)
- Buddhist Monuments at Sanchi (1989)
- Champaner-Pavagadh Archaeological Park (2004)
- Chhatrapati Shivaji Terminus (formerly Victoria Terminus) (2004)
- Churches and Convents of Goa (1986)
- Dholavira: a Harappan City (2021)
- Elephanta Caves (1987)
- Ellora Caves (1983)
- Fatehpur Sikri (1986)
- Great Living Chola Temples (1987, 2004)
- Group of Monuments at Hampi (1986)
- Group of Monuments at Mahabalipuram (1984)
- Group of Monuments at Pattadakal (1987)
- Hill Forts of Rajasthan (2013)
- Historic City of Ahmadabad (2017)
- Humayun's Tomb, Delhi (1993)
- Jaipur City, Rajasthan (2019)
- Kakatiya Rudreshwara (Ramappa) Temple, Telangana (2021)
- Khajuraho Group of Monuments (1986)
- Mahabodhi Temple Complex at Bodhi Gaya (2002)
- Mountain Railways of India (1999, 2005, 2008)
- Qutb Minar and its Monuments, Delhi (1993)

- Rani-ki-Vav (the Queen's Stepwell) at Patan, Gujarat (2014)
- Red Fort Complex (2007)
- Rock Shelters of Bhimbetka (2003)
- Sacred Ensembles of the Hoysalas (2023)
- Santiniketan (2023)
- Sun Temple, Konârak (1984)
- Taj Mahal (1983)
- The Architectural Work of Le Corbusier, an Outstanding Contribution to the Modern Movement (2016)
- The Jantar Mantar, Jaipur (2010)
- Victorian Gothic and Art Deco Ensembles of Mumbai (2018)
- Moidams – the Mound-Burial System of the Ahom Dynasty (2024)
- Maratha Military Landscapes of India, Maharashtra & Tamil Nadu (2025)
- Ancient Buddhist Site of Sarnath, Uttar Pradesh (2026)

Natural 7

- Great Himalayan National Park Conservation Area (2014)
- Kaziranga National Park (1985)
- Keoladeo National Park (1985)
- Manas Wildlife Sanctuary (1985)
- Nanda Devi and Valley of Flowers National Parks (1988, 2005)
- Sundarbans National Park (1987)
- Western Ghats (2012)

Mixed 1

- Khangchendzonga National Park (2016)

List of RAMSAR Sites in India

- There are **101 RAMSAR** sites in India. (As of Aug 2026) (Making it the country with the highest number of Ramsar sites in Asia and the third highest in the world).
- According to WWF-India, wetlands are one of the **most threatened of all ecosystems in India**. Loss of vegetation, salinization, excessive inundation, water pollution, invasive species, excessive development and road building, have all damaged the country's wetlands.
- **World Wetlands Day: 2nd February**
- The surface-area covered by Ramsar Sites are around **1,359,434 hectares**.
- **Tamil Nadu** has the highest number of RAMSAR Sites in India with **20 RAMSAR Sites**.
- **Largest site:** Sundarban Wetland in West Bengal
- **Smalles Sites:** Renuka Lake (Himachal Pradesh) and Vembannur Wetland Complex (Tamil Nadu)
- **First Sites:** Chilika Lake (Odisha) and Keoladeo Ghana National Park (Rajasthan) were designated in 1981.

2026 Added New Ramsar Sites:

1. **97th** - Patna Bir Sanctuary: Etah, UP
2. **98th** - Chhari-Dhand: Gujarat
3. **99th** - Shekha Jheel Bird Sanctuary: Aligarh, UP
4. **100th** - Jai Prakash Narayan Bird Sanctuary (Surha Tal): Ballia, UP

5. 101th – Glaw Lake, Arunachal Pradesh – state first wetland

State/UT	Number of Sites	Names of sites
Tamil Nadu	20	Chitrangudi Bird Sanctuary, Gulf of Mannar Marine Biosphere Reserve, Kanjirankulam Bird Sanctuary, Karaivetti Bird Sanctuary, Karikili Bird Sanctuary, Koonthankulam Bird Sanctuary, Longwood Shola Reserve Forest, Pallikarnai Marsh Reserve Forest, Pichavaram Mangrove, Point Calimere Wildlife and Bird Sanctuary, Suchindram Theroor Wetland Complex, Udhayamarthandapuram Bird Sanctuary, Vadavur Bird Sanctuary, Vedanthangal Bird Sanctuary, Vellode Bird Sanctuary, Vembannur Wetland Complex, Nanjarayan Bird Sanctuary, Kazuhveli Bird Sanctuary, Sakkarakottai Bird Sanctuary, Therthangal Bird Sanctuary
Uttar Pradesh	13	Bakhira Sanctuary, Haiderpur Wetland, Nawabganj Bird Sanctuary, Parvati Arga Bird Sanctuary, Saman Bird Sanctuary, Samaspur Bird Sanctuary, Sandi Bird Sanctuary, Sarsai Nawar Jheel, Sur Sarovar, Upper Ganga River, Patna Bird Sanctuary, Shekha Jheel Bird Sanctuary, Jai Prakash Narayan Bird Sanctuary (Surha Tal)
Odisha	6	Ansupa Lake, Bhitarkanika Mangroves, Chilika Lake, Hirakud Reservoir, Satkosia Gorge, Tampara Lake
Punjab	6	Beas Conservation Reserve, Harike Wetland, Kanjli Wetland, Keshopur-Miani Community Reserve, Nangal Wildlife Sanctuary, Ropar Wetland
Jammu and Kashmir	5	Hokersar Wetland, Hygam Wetland Conservation Reserve, Shallbugh Wetland Conservation Reserve, Surinsar-Mansar Lakes, Wular Lake,
Gujarat	5	Khijadiya, Nalsarovar, Thol Lake, Wadhvana Wetland, <i>Chhari-Dhand</i>
Madhya Pradesh	5	Bhoj Wetland, Sakhya Sagar, Sirpur Lake, Yashwant Sagar, Tawa Reservoir
Himachal Pradesh	3	Chandra Taal, Pong Dam Lake, Renuka Lake
Kerala	3	Ashtamudi Wetland, Sasthamkotta Lake, Vembanad-Kol Wetland
Maharashtra	3	Lonar Lake, Nandur Madhameshwar, Thane Creek
Haryana	2	Sultanpur National Park, Bhindawas Wildlife Sanctuary
Ladakh	2	Tso Kar, Tsomoriri Lake
Rajasthan	5	Keoladeo National Park, Sambhar Lake, Khichan Wetland, Menar Wetland, <i>Siliserh Lake</i>
West Bengal	2	East Kolkata Wetlands, Sundarban Wetland
Andhra Pradesh	1	Kolleru Lake
Assam	1	Deepor Beel
Bihar	6	Kanwar Lake, Nagi Bird Sanctuary, Nakti Lake, Gokul Jalashay and Udaipur Jheel, Gogabeel Lake (Katihar district)
Goa	1	Nanda Lake
Karnataka	4	Ranganathittu Bird Sanctuary, Ankasamudra Bird Conservation Reserve, Aghanashini Estuary, Magadi Kere Conservation Reserve
Manipur	1	Loktak Lake
Mizoram	1	Pala Wetland
Tripura	1	Rudrasagar Lake
Uttarakhand	1	Asan Barrage
Sikkim	1	Khecheopalri Wetland
Jharkhand	1	Udhwa Lake
Chhattisgarh	1	<i>Kopra Jalashay</i>
Arunachal Pradesh	1	<i>Glaw Lake</i>

National Parks & Wildlife Sanctuaries in India

- There are 107 National Parks (Simlipal of Odisha is the 107th National Park of India.) and 573 Wildlife Sanctuaries in India recently.
- Madhya Pradesh has the maximum number of National Parks (11 National Parks), and the Union Territory of Andaman and Nicobar Islands has the maximum number of Wildlife Sanctuaries (96 Wildlife Sanctuaries) in India.

- India officially declared its **first butterfly sanctuary in June 2025**, by renaming the Aralam Wildlife Sanctuary in Kannur district, Kerala as the Aralam Butterfly Sanctuary.
- Omkareshwar Sanctuary in Madhya Pradesh was notified as a tiger reserve in 2025.
- Spiti Valley was declared India's first "Cold Desert Biosphere reserve under UNESCO in 2025.

Gir Forests	Home of Asiatic Lion (Gujarat)
Kaziranga Sanctuary	One Horned Rhino (Assam)
Manas Sanctuary	One Horned Rhino (Assam)
Chandraprabha Sanctuary	II Home of Asiatic Lion (Uttar Pradesh)
Ghana or Keoladeo Bird Sanctuary	Bharatpura (Rajasthan)
Dachigam Sanctuary	Home of the Hangul or Kashmiri Stag (Kashmir)
Bandhavgarh National Park	Home of Royal Bengal Tiger (Madhya Pradesh)
Jim Corbett National Park	II Home of Royal Bengal Tiger (Uttarakhand)
Kanha National Park	Madhya Pradesh
Shiv Puri National Park	Madhya Pradesh
Hazaribagh National Park	Jharkhand
Periyar National Park	For Elephant, Kerala
Dudhwa National Park	Uttar Pradesh
Vedanthangal Bird Sanctuary	Tamil Nadu
Nokrek National Park	Meghalaya
Sariska Sanctuary	Rajasthan
Ranthambhor National Park	Rajasthan
Namdapha National Park	Arunachal Pradesh
Keibul Lamjo Floating National Park	Manipur
Simlipal National Park	Odisha
Ranganthitoo Bird Sanctuary	Mysore, Karnataka
Nagarhole National Park	Karnataka
Mudumalai Sanctuary	Tamil Nadu
Balpakram National Park	Meghalaya
Bandipur Sanctuary	Karnataka-Tamil Nadu Border
Jaldapara Sanctuary	For Rhinos (West Bengal)
Wild Ass Sanctuary	For Wild Ass (Little Rann of Kutch, Gujarat)

Project Cheetah (Cheetah Translocation)

- Project Cheetah was launched on 17 September 2022 under the Ministry of Environment, Forest and Climate Change and is spearheaded by the National Tiger Conservation Authority (NTCA).
- Its aim is to **reintroduce cheetahs in India**, which became extinct in India in 1952.
- It is the world's **1st intercontinental wild carnivore translocation project**.
- The project aims to restore **cheetah population**, revive **savanna ecosystems**, promote **ecotourism**, and create **local livelihoods**.
- It is implemented by NTCA along with **Madhya Pradesh Forest Department** and **Wildlife Institute of India (WII)**.
- In 2023, a **Steering Committee** was formed to guide the project.
- Cheetah Habitat Designation:** Kuno National Park and Gandhi Sagar Wildlife Sanctuary (Madhya Pradesh) currently serve as the **primary habitats** for translocated cheetahs, with Nauradehi Wildlife Sanctuary (Madhya Pradesh) identified for **future expansion** of the cheetah landscape.
 - 9 Cheetahs (6 females & 3 males) from Botswana at Kuno National Park (MP) on 28 Feb 2026.
 - 12 Cheetahs (7 males & 5 females) from South Africa at Kuno National Park (MP) on Feb 2023.
 - First Batch of 8 Cheetahs from Namibia at Kuno National Park (MP) on September 2022.
 - On **9 March 2026**, Namibian cheetah **Jwala gave birth to 5 cubs** at Kuno National Park.
- With this addition, India's cheetah count now stands at **53**, which includes **33 Indian-born cubs** born at Kuno National Park. – **10th successful cheetah litter on Indian soil**.

PART J: Monthly One Liner Current Affairs (2025-2026)

May & June 2025

1. In May 2025, the United Kingdom has handed over the sovereignty of the Chagos Archipelago located in the Indian Ocean to which country?--> **Mauritius**
2. Which campaign has been launched by the Ministry of Environment, Forest and Climate Change (MoEFCC) on World Environment Day 2025?--> **One Nation, One Mission: End Plastic Pollution**
3. Which state has recently become the first fully literate state of the country?--> **Mizoram**
4. Golden Dome missile defense shield program is related to which country?--> **America**
5. Who has been appointed as the first Prime Minister after the civil war in Sudan in 2023?--> **Kamil Idris**
6. Geeta Samota has become the first woman officer of which security force to climb Mount Everest?--> **CISF**
7. Recently, which initiative has been launched by Union Home Minister Amit Shah as a pilot project in Delhi to speed up the investigation of cyber crime?--> **e-Zero FIR**
8. Who won the gold medal at the Miss World 2025 Sports Challenge in Hyderabad?--> **Eliise Randmaa**
9. Where was the first edition of Khelo India Beach Games 2025 held from 19 to 25 May 2025?--> **Diu**
10. In May 2025, renowned astrophysicist Dr. Jayant Vishnu Narlikar passed away at the age of 87, in which year he was awarded the Padma Vibhushan?--> **2004**
11. Where was the BRICS Energy Ministers' Meeting held on 19 May 2025, in which Power Minister Manohar Lal represented India?--> **Brazil**
12. Sakurajima volcano, which was in the news due to its recent eruption, is located in which country?--> **Japan**
13. Recently, President Draupadi Murmu has sought advice from the Supreme Court under which article of the Indian Constitution?--> **Article 143**
14. Who has written the recently published book PMO: Prime Minister's Office Through the Years?--> **Himanshu Roy**
15. Which is the state with the highest GST revenue collection in the financial year 2024?--> **Maharashtra**
16. In May 2025, Jamia Millia Islamia suspended all Memorandum of Understanding (MoU) with all educational institutions affiliated to which country?--> **Türkiye**
17. Who has become the third Indian startup to join the Unicorn club in 2025?--> **Porter**
18. In May 2025, the World Health Organisation (WHO) has declared a polio outbreak in which country?--> **Papua New Guinea**
19. India is set to become the world's third largest producer of wind and solar power electricity in 2024, surpassing which country?--> **Germany**
20. In April 2025, who among the following had commented that Article 142 of the Constitution has become a nuclear missile?--> **Jagdeep Dhankhar**
21. According to reports published on the occasion of World TB Day in March 2025, which state has become the best performing state by achieving 95% of Niti Aayog's TB elimination target in the year 2024?--> **Gujarat**
22. Which Indian Grandmaster has recently won the title of Superbet Chess Classic Romania 2025 in Bucharest, Romania?--> **R Praggnanandhaa**
23. Which ministry has recently launched the "Ek Desh Ek Dhadkan" (One Nation, One Heartbeat) initiative?--> **Ministry of Culture**
24. Which state topped the medal tally at the Khelo India Youth Games 2025 held in Bihar?--> **Maharashtra**
25. Which country's player Kathryn Bryce has been selected as the ICC Women's Player of the Month for April 2025?--> **Scotland**
26. Which country has named the cyclone 'Shakti' rising in the Bay of Bengal?--> **Sri Lanka**
27. In which state did the Indian Army conduct 'Teesta Prahar Exercise' on 8-10 May 2025?--> **West Bengal**
28. Which athlete was recently awarded the title of Honorary Lieutenant Colonel in the Territorial Army?--> **Neeraj Chopra**
29. In which state will the country's largest renewable energy complex be established?--> **Andhra Pradesh**
30. Who has recently been appointed the President of the BRICS Chamber of Commerce and Industry (CCI)?--> **Harvansh Chawla**
31. Anak Krakatoa volcano, which was in the news recently, is located in which country?--> **Indonesia**
32. 'Bhargavastra' has been developed by whom to counter swarms of drones?--> **Solar Defence & Aerospace Limited**
33. Which is the first glacier in Nepal and Asia that has become dead recently?--> **Yala Glacier**
34. Which tech company has recently launched "Startups Accelerator: AI First India 2025"?--> **Google**
35. Recently, fisheries scientist Dr. Subbanna Ayyappan passed away at the age of 70, in which year was he awarded Padma Shri?--> **2022**

36. Balochistan is a part of which country, which has recently declared independence?--> **Pakistan**
37. India is set to become the world's third largest producer of wind and solar power electricity in 2024, surpassing which country?--> **Germany**
38. Which will be the first assembly in the country to be completely run by solar energy?--> **Delhi**
39. How many medals did Indian players win in Archery World Cup Stage-2 in Shanghai, China?--> **7**
40. From which country has India purchased the air defense system S-400?--> **Russia**
41. Which country topped the list of 193 countries in the recently released UNDP Human Development Index 2025?--> **Iceland**
42. Which country has recently become the world's third largest vehicle manufacturer?--> **India**
43. Recently, which state government has launched Jyoti Yojana to educate the children of migrant laborers?--> **Kerala**
44. Recently, three regional rural banks of Uttar Pradesh, Aryavart Bank, Prathama Bank and Baroda UP Bank were merged, which will be known by what name from May 1, 2025?--> **Uttar Pradesh Gramin Bank**
