Geography Practice Set: Hard Level (Multi-Statement & A-R)

Under the expert guidance of: Vipulendra Tripathi Sir

Important Instructions for Aspirants:

- This paper contains exactly 50 **Hard Level** MCQs focusing on Indian Geography (Mountain Passes, Peninsular Plateau, Northern Plains, and Islands).
- Questions include Assertion-Reason, Match the Following, "Not Correct", and Multiple Statement formats commonly seen in SSC CGL Tier II.
- No sequence is prioritized in the options. Evaluate each choice meticulously.
- The Answer Key has been intentionally omitted from this document to encourage unbiased self-evaluation.

Q1. Consider the following statements regarding Himalayan passes:

I. Zoji La connects Srinagar with Kargil and Leh.

II. Shipki La is located in the Zaskar range and the Sutlej river flows through it.

III. Nathu La is situated in the Great Himalayas in Arunachal Pradesh.

Which of the statements given above is/are correct? [SSC CGL Tier II 2020]

B) I and II only

A) Only I

C) II and III only

D) I, II and III

Q2. Assertion (A): The Banihal Pass remains closed during peak winter months.

Reason (R): It is located in the Greater Himalayas which receives heavy snowfall from Western Disturbances.

Select the correct code: [SSC CPO 2021]

A) Both A and R are true and R is the correct explanation of A

C) A is true but R is false

B) Both A and R are true but R is not the correct explanation of A

D) A is false but R is true

Q3. Match List I (Mountain Pass) with List II (Connecting Region) and select the correct answer:

List I: a. Bara Lacha La, b. Lipulekh, c. Bomdi La, d. Diphu Pass

List II: 1. Tri-junction of India, China, Myanmar, 2. Tawang to Lhasa, 3. Lahaul to Ladakh, 4. Uttarakhand to Tibet (Kailash Mansarovar) **[SSC CHSL 2019]**

C) a-4, b-3, c-2, d-1

D) a-4, b-3, c-1, d-2

B) a-3, b-4, c-1, d-2

A) a-3, b-4, c-2, d-1

Q4. Which of the following statements about the passes of the Western Ghats is NOT correct? **[SSC CGL 2022]**

C) Palghat Gap is located between the Nilgiri and Anaimalai hills.

D) Senkota Pass connects Mangaluru in Karnataka with Madurai in Tamil Nadu.

A) Thal Ghat connects Mumbai to Nashik.

B) Bhor Ghat provides passage between Mumbai and Pune.

Q5. Arrange the following Himalayan passes from West to East:

I. Niti Pass

II. Shipki La

III. Jelep La

IV. Bomdi La **[SSC MTS 2020]**

D) I, II, IV, III

A) II, I, III, IV

C) II, I, IV, III

B) I, II, III, IV

Q6. Consider the following statements:

I. Khardung La is located in the Ladakh Range.

II. Aghil Pass connects the Ladakh region with the Xinjiang province of China.

III. Chang La connects Leh with the Pangong Lake.

Which of the statements given above are correct? **[SSC CGL Tier II 2018]**

A) I and II only

C) I and III only

B) II and III only

D) All I, II and III

Q7. Assertion (A): The Rohtang Pass is prone to severe traffic bottlenecks and ecological degradation.

Reason (R): It acts as the only gateway connecting the Kullu Valley with the Lahaul and Spiti Valleys.

Select the correct code: [SSC CPO 2019]

C) A is true but R is false

D) A is false but R is true

B) Both A and R are true but R is not the correct explanation of A

A) Both A and R are true and R is the correct explanation of A

Q8. Which among the following pairs of Pass and its Range is NOT correctly matched?

[SSC CGL 2017]

D) Khardung La - Ladakh Range

A) Zoji La - Zaskar Range

B) Banihal - Pir Panjal Range

C) Photu La - Karakoram Range

Q9. Consider the following statements regarding the strategic passes of Northeast India:

I. Pangsau Pass is located on the crest of the Patkai Hills on the India-Myanmar border.

II. Dihang Pass connects Arunachal Pradesh with Myanmar.

Which of the statements given above is/are correct? [SSC CHSL 2021]

C) Both I and II

B) Only II

D) Neither I nor II

A) Only I

Q10. Match List I (Pass) with List II (State) and select the correct answer:

List I: a. Thaga La, b. Burzil Pass, c. Pensi La, d. Haldighati

List II: 1. Rajasthan, 2. Uttarakhand, 3. Jammu & Kashmir, 4. Ladakh [SSC CGL Tier II 2020]

D) a-4, b-3, c-2, d-1

A) a-2, b-3, c-4, d-1

B) a-2, b-4, c-3, d-1

C) a-3, b-2, c-4, d-1

Q11. Assertion (A): Lipulekh pass has frequently been a point of border dispute between India and Nepal.

Reason (R): It is situated at the tri-junction of the Kalapani territory, Tibet, and Nepal.

Select the correct code: [SSC MTS 2019]

D) A is false but R is true

C) A is true but R is false

A) Both A and R are true and R is the correct explanation of A

B) Both A and R are true but R is not the correct explanation of A

Q12. Which of the following passes does NOT serve as an entry point into the Kashmir Valley? [SSC CGL 2021]

B) Pir Panjal Pass

D) Bara Lacha La

A) Banihal Pass

C) Burzil Pass

Q13. Consider the following statements regarding the Peninsular Plateau:

I. It is composed primarily of ancient igneous and metamorphic rocks.

II. The general elevation of the plateau is from west to east.

III. It is a highly unstable landmass prone to frequent severe earthquakes.

Which of the statements given above is/are correct? [SSC CGL Tier II 2022]

B) II and III only

A) I and II only

D) All I, II and III

C) I and III only

Q14. Assertion (A): The Western Ghats are taller and more continuous than the Eastern Ghats.

Reason (R): The Eastern Ghats are deeply dissected and eroded by major east-flowing peninsular rivers.

Select the correct code: [SSC CPO 2020]

A) Both A and R are true and R is the correct explanation of A

B) Both A and R are true but R is not the correct explanation of A

C) A is true but R is false

D) A is false but R is true

Q15. Match List I (Hill Range) with List II (Highest Peak) and select the correct answer:

List I: a. Aravalli, b. Satpura, c. Nilgiris, d. Eastern Ghats

List II: 1. Doddabetta, 2. Jindhagada, 3. Guru Shikhar, 4. Dhupgarh [SSC CHSL 2018]

D) a-4, b-1, c-3, d-2

C) a-4, b-3, c-1, d-2

A) a-3, b-4, c-1, d-2

B) a-3, b-1, c-4, d-2

Q16. Which of the following statements about the Meghalaya Plateau is NOT correct?

[SSC CGL 2019]

B) It is separated from the Chota Nagpur plateau by the Malda fault.

C) The Garo, Khasi, and Jaintia hills are its major structural components.

A) It is geologically a part of the Peninsular plateau.

D) It is primarily formed by the deposition of Himalayan river sediments.

Q17. Consider the following statements regarding the Deccan Trap:

I. It was formed at the end of the Cretaceous period.

II. It is characterized by step-like topography formed by fissure eruptions.

III. Regur soil, highly suitable for cotton cultivation, is dominant here.

Which of the statements given above are correct? [SSC CGL Tier II 2017]

D) All I, II and III

A) I and II only

B) II and III only

C) I and III only

Q18. Assertion (A): The Narmada and Tapti rivers do not form deltas at their mouths.

Reason (R): They flow through rift valleys and their estuaries are scoured by strong ocean tides, preventing sediment deposition.

Select the correct code: [SSC MTS 2021]

A) Both A and R are true and R is the correct explanation of A

B) Both A and R are true but R is not the correct explanation of A

C) A is true but R is false

D) A is false but R is true

Q19. Arrange the following hill ranges of the Peninsular plateau from North to South:

I. Satmala Hills

II. Nallamala Hills

III. Nilgiri Hills

IV. Cardamom Hills [SSC CGL 2021]

C) I, II, IV, III

A) I, II, III, IV

B) II, I, III, IV

D) II, I, IV, III

Q20. Which of the following statements regarding the Chota Nagpur Plateau is/are correct?

I. It is drained by the Damodar river flowing through a rift valley.

II. It represents the mineral heartland of India.

III. It is geologically an extension of the Arakan Yoma mountain system. [SSC CPO 2018]

D) All I, II and III

A) Only I

C) II and III only

B) I and II only

Q21. Match List I (Plateau) with List II (Location/State) and select the correct answer:

List I: a. Dandakaranya, b. Baghelkhand, c. Rohtas Plateau, d. Kathiawar Plateau

List II: 1. Gujarat, 2. Bihar, 3. Madhya Pradesh, 4. Chhattisgarh & Odisha [SSC CHSL 2020]

C) a-3, b-4, c-2, d-1

A) a-4, b-3, c-2, d-1

B) a-4, b-2, c-3, d-1

D) a-3, b-1, c-4, d-2

Q22. Assertion (A): The Malwa Plateau has extensive ravines and badland topography.

Reason (R): The region experiences massive gully erosion by the Chambal river and its tributaries.

Select the correct code: [SSC CGL Tier II 2019]

D) A is false but R is true

B) Both A and R are true but R is not the correct explanation of A

A) Both A and R are true and R is the correct explanation of A

C) A is true but R is false

Q23. Which among the following pairs is NOT correctly matched regarding the Peninsular Hills? [SSC CGL 2016]

A) Anaimudi - Anaimalai Hills

C) Mahendragiri - Western Ghats

B) Kalsubai - Sahyadri

D) Malayagiri - Garhjat Hills

Q24. Consider the following statements about the Aravalli Range:

I. It is one of the oldest fold mountains in the world.

II. It acts as a climatic divide between the Thar Desert and the eastern plains of Rajasthan.

III. Its highest peak, Guru Shikhar, is located in the Mount Abu block.

Which of the statements given above is/are correct? [SSC MTS 2018]

D) All I, II and III

C) I and III only

B) II and III only

A) I and II only

Q25. The structural trough (graben) through which the Narmada river flows is bounded by which mountain ranges? [SSC CPO 2021]

D) Vindhya and Maikal

C) Satpura and Ajanta

B) Vindhya and Satpura

A) Aravalli and Vindhya

Q26. Consider the following statements regarding the geological formation of the Northern Plains:

I. They were formed in a massive foredeep created south of the Himalayas.

II. The deposition of alluvium took place during the Pleistocene and Holocene epochs.

III. The basement of the plains consists of hard, crystalline rocks identical to the Peninsular block.

Which of the statements given above is/are correct? [SSC CGL Tier II 2020]

A) I and II only

B) II and III only

D) All I, II and III

C) I and III only

Q27. Assertion (A): The Bhabar belt is generally unsuitable for intensive agriculture.
Reason (R): It comprises highly porous pebble and gravel deposits, causing small streams to disappear underground.

Select the correct code: [SSC CHSL 2019]

- A) Both A and R are true and R is the correct explanation of A C) A is true but R is false
 B) Both A and R are true but R is not the correct explanation of A D) A is false but R is true

Q28. Match List I (Geomorphological Feature) with List II (Characteristics) and select the correct answer:

List I: a. Bhabar, b. Terai, c. Bhangar, d. Khadar

List II: 1. Damp, marshy, forested, 2. Older alluvium with Kankar, 3. Porous pebble belt, 4. Newer, fertile floodplains [SSC CGL 2018]

- B) a-3, b-2, c-1, d-4 C) a-1, b-3, c-2, d-4
 D) a-4, b-1, c-2, d-3 A) a-3, b-1, c-2, d-4

Q29. Which of the following statements about the 'Bhangar' region is NOT correct?

[SSC CGL 2021]

- A) It represents the older alluvial deposits of the Northern Plains. C) It forms terrace-like features lying below the flood levels of the rivers.
 B) It often contains calcareous concretions known locally as 'Kankar'. D) It is generally less fertile compared to the Khadar region.

Q30. Arrange the following sub-divisions of the Northern Plains from North to South as one moves away from the Shiwaliks:

I. Khadar

II. Terai

III. Bhabar

IV. Bhangar [SSC CPO 2019]

- C) II, III, IV, I A) III, II, IV, I
 D) II, III, I, IV B) III, II, I, IV

Q31. Assertion (A): The Punjab plains are dominated by highly fertile 'Doabs'.
Reason (R): The region is characterized by extensive badland topography and ravine erosion.

Select the correct code: [SSC MTS 2020]

- | | |
|--|--|
| A) Both A and R are true and R is the correct explanation of A | C) A is true but R is false |
| D) A is false but R is true | B) Both A and R are true but R is not the correct explanation of A |

Q32. Consider the following statements regarding the Brahmaputra Plains:
I. They are predominantly situated in the state of Assam.
II. The region is known for frequent floods and shifting river channels.
III. Majuli, the world's largest riverine island, was formed here due to intense tectonic upliftment.

Which of the statements given above is/are NOT correct? [SSC CGL Tier II 2019]

- | | |
|------------------|--------------------|
| B) Only III | D) II and III only |
| C) I and II only | A) Only I |

Q33. Match List I (Doab in Punjab) with List II (Rivers it lies between) and select the correct answer:

List I: a. Bist Doab, b. Bari Doab, c. Rechna Doab, d. Chaj Doab

List II: 1. Ravi and Chenab, 2. Beas and Sutlej, 3. Chenab and Jhelum, 4. Beas and Ravi

[SSC CGL 2017]

- | | |
|-----------------------|-----------------------|
| D) a-4, b-1, c-2, d-3 | C) a-4, b-2, c-1, d-3 |
| A) a-2, b-4, c-1, d-3 | B) a-2, b-1, c-4, d-3 |

Q34. Which among the following features is a prominent characteristic of the 'Terai' region? [SSC CHSL 2021]

- | | |
|--|--|
| A) Disappearance of streams due to extreme porosity. | B) Formation of extensive calcareous 'Kankar' nodules. |
| C) Emergence of streams creating marshy and swampy conditions. | D) Deep ravines carved by seasonal torrents. |

Q35. Consider the following statements:

I. The Rohilkhand plain is a part of the Upper Ganga plains.

II. The Awadh plain lies between the Gomti and Ghaghara rivers.

III. The Magadh plain forms the easternmost boundary of the Northern plains in Assam.

Which of the statements given above is/are correct? [SSC CPO 2020]

A) I and II only

D) All I, II and III

C) I and III only

B) II and III only

Q36. Assertion (A): The Northern Plains are densely populated and agriculturally highly productive.

Reason (R): They possess a rich soil cover, abundant water supply, and a favorable climate.

Select the correct code: [SSC CGL 2016]

A) Both A and R are true and R is the correct explanation of A

C) A is true but R is false

D) A is false but R is true

B) Both A and R are true but R is not the correct explanation of A

Q37. Which of the following is/are tectonic features associated with the origin of the Northern Plains?

I. Himalayan Frontal Fault (HFF)

II. Main Boundary Thrust (MBT)

III. Great Boundary Fault (GBF)

Select the correct code: [SSC CGL Tier II 2021]

B) I and II only

A) Only I

D) All I, II and III

C) I and III only

Q38. What primarily causes the formation of riverine islands in the lower course of rivers in the Northern Plains? [SSC MTS 2018]

C) Reduction in river velocity leading to massive sediment deposition

A) Intense vertical erosion

D) Convergence of multiple fast-flowing tributaries

B) Subduction of the river bed

Q39. Consider the following statements regarding the Andaman and Nicobar Islands:

I. They are an elevated portion of submarine mountains structurally related to the Arakan Yoma.

II. The islands experience an equatorial climate with thick forest cover.

III. Saddle Peak is the highest point located in Great Nicobar.

Which of the statements given above is/are correct? [SSC CGL Tier II 2018]

C) I and III only

A) I and II only

D) All I, II and III

B) II and III only

Q40. Assertion (A): The Lakshadweep Islands are generally devoid of high mountains or broad valleys.

Reason (R): They are purely coral atolls formed by the accumulation of coral polyps on a submerged volcanic ridge.

Select the correct code: [SSC CPO 2019]

D) A is false but R is true

B) Both A and R are true but R is not the correct explanation of A

A) Both A and R are true and R is the correct explanation of A

C) A is true but R is false

Q41. Match List I (Water Channel) with List II (Separated Landmasses) and select the correct answer:

List I: a. 8 Degree Channel, b. 9 Degree Channel, c. 10 Degree Channel, d. Duncan Passage

List II: 1. Andaman and Nicobar, 2. South Andaman and Little Andaman, 3. Lakshadweep and Minicoy, 4. Minicoy and Maldives [SSC CHSL 2020]

A) a-4, b-3, c-1, d-2

B) a-4, b-3, c-2, d-1

C) a-3, b-4, c-1, d-2

D) a-3, b-4, c-2, d-1

Q42. Which of the following statements about India's islands is NOT correct?

[SSC CGL 2019]

D) Pamban Island is connected to the Indian mainland by the Pamban Bridge.

C) Majuli is an island situated in the Arabian Sea.

A) Barren Island is the only active volcano in India.

B) Narcondam Island is considered a dormant volcano.

Q43. Arrange the following islands of the Andaman and Nicobar archipelago from North to South:

I. Little Andaman

II. North Andaman

III. Car Nicobar

IV. Great Nicobar [SSC MTS 2021]

A) II, I, III, IV

C) II, I, IV, III

B) I, II, III, IV

D) II, III, I, IV

Q44. Consider the following statements:

I. Minicoy is the largest island in the Lakshadweep group.

II. The Lakshadweep Islands were formerly known as Laccadive, Minicoy, and Amindivi Islands.

III. The capital of Lakshadweep, Kavaratti, is situated north of the 9 Degree Channel.

Which of the statements given above are correct? [SSC CGL Tier II 2020]

B) II and III only

C) I and III only

A) I and II only

D) All I, II and III

Q45. Assertion (A): New Moore Island was a source of territorial dispute between India and Bangladesh.

Reason (R): It emerged in the aftermath of the Bhola cyclone in 1970 at the mouth of the Hariabhanga River.

Select the correct code: [SSC CGL 2017]

D) A is false but R is true

A) Both A and R are true and R is the correct explanation of A

C) A is true but R is false

B) Both A and R are true but R is not the correct explanation of A

Q46. Which among the following pairs of Islands and their renamed titles is NOT correctly matched? [SSC CPO 2021]

A) Ross Island - Netaji Subhas Chandra Bose Dweep

B) Neil Island - Shaheed Dweep

C) Havelock Island - Swaraj Dweep

D) Wheeler Island - Veer Savarkar Dweep

Q47. Which of the following islands serves as the home to India's Satish Dhawan Space Centre? [SSC CHSL 2018]

B) Sriharikota Island

D) Pamban Island

A) Wheeler Island

C) Sagar Island

Q48. Assertion (A): The Andaman & Nicobar Islands possess great strategic and geopolitical significance for India.

Reason (R): They overlook the vital maritime choke point of the Strait of Malacca.

Select the correct code: [SSC CGL Tier II 2022]

D) A is false but R is true

A) Both A and R are true and R is the correct explanation of A

C) A is true but R is false

B) Both A and R are true but R is not the correct explanation of A

Q49. Consider the following statements regarding coral islands:

I. They are formed by the skeletal remains of tiny marine animals called polyps.

II. They require warm, shallow, sediment-free ocean waters to thrive.

III. The Gulf of Mannar in India is devoid of any coral reefs.

Which of the statements given above is/are correct? [SSC MTS 2019]

B) II and III only

C) I and III only

D) All I, II and III

A) I and II only

Q50. Identify the island based on the given characteristics:

1. It is located in the Hooghly River delta.

2. It hosts the famous annual Gangasagar Mela.

3. It is severely threatened by rising sea levels and coastal erosion. [SSC CGL 2021]

D) Hope Island

C) Wheeler Island

A) Majuli Island

B) Sagar Island
